Stephen Picken, Executive Director Sober Strategies Inc. 2655 100th Street Urbandale, Iowa 50322

Dear Mr. Picken:

Attached is a copy of the Licensure Inspection Report completed by the Division of Behavioral Health following the virtual licensure site inspection of Sober Strategies, Inc., 2655 100th Street, Urbandale, Iowa, on October 31, 2023. A two-year license will be recommended to the Iowa Council on Health and Human Services, Substance Abuse and Problem Gambling Treatment Program Committee. We hope the enclosed report will be of assistance for continued and ongoing program improvement.

This report is composed of the following sections:

- Licensure Inspection Weighting Report;
- Licensure team's recommendations for licensure;
- Completed programmatic check list which identifies the degree of compliance with specific licensure standards; and
- A summary of the inspectors' basis for areas found to be in non-compliance with the licensure standards.

Your current license, which expired November 8, 2023, remains valid until final action is taken by the Substance Abuse/Problem Gambling Treatment Program Committee on this application, per Iowa Code Chapter 17A.18.

Your application for licensure will be reviewed during the Committee's teleconference meeting.

JUSTIFICATION OF VARIANCE

The following items were rated "0" (Non Compliance) and points were subtracted from the Licensure Weighting Report.

155.21(14) Patient Record Contents*

- A. Patient record contents was in non-compliance because patient records did not contain any reports from a referring source or outside resource, any notes from any case conference, consultation, care coordination, or case management, or any correspondence related to the patient including letters, electronic communication, and telephone conversations.
- B. Patient record contents was in non-compliance because patient discharge summaries were not sufficiently detailed to identify the types of services the patient received, action taken to address specific problems identified, and plans for services and referrals post discharge.

155.21(19) Management of Care and Discharge Planning*

Management of care and discharge planning was in non-compliance because the patient file did not demonstrate the proper use of the ASAM dimensions.

A. Management of care and discharge planning was in non-compliance because the patient records did not contain documentation the program is conducting care coordination to meet each patient's needs and promote effective outcomes.

*Technical assistance was provided during the site inspection. Licensee was provided specific technical assistance on the following areas of non-compliance:

- Licensee was informed patient records must contain any reports from a referring source or outside resource, any notes from any case conference, consultation, care coordination, or case management, or any correspondence related to the patient including letters, electronic communication, and telephone conversations. Most patient records did not include correspondences or additional information from referral sources, such as probation officers or other treatment programs where patients had recently completed treatment.
- Licensee was informed that discharged patient records did not contain the types of services the patient received, the actions taken to address specific problems noted on the treatment plan, or planned services/referrals post discharge. Licensee was informed that although a discharge ASAM review was found documented in patient records, a discharge summary with the required elements also needs to be documented within 30 days of discharge.

- Although not an area of non-compliance, licensee was provided with technical assistance around documenting a though assessment. At times, assessments did not document the precipitating factors that lead to the assessment or OWI evaluation. Specific patient record examples were provided to the licensee.
- Although not an area of non-compliance, licensee was provided with technical assistance around developing meaningful goals in collaboration with the patient. At times, the noted treatment goals did not match the assessed needs of the patient. Specific patient record examples were provided to the licensee.
- Licensee was informed that patient records, containing a "no treatment" recommendation, did not contain a documented review of the ASAM dimensions. Licensee was informed that all assessments are to contain a thorough review of the six ASAM dimensions to determine appropriate recommendations and referrals. The documented review of the ASAM dimensions also needs to include a severity risk rating for each dimension. At times, the documented patient symptoms did not meet the ASAM recommended levels of care. Specific patient record examples were provided to the licensee.
- Licensee was informed care coordination activities are to be documented in the patient record. Licensee was provided feedback on specific patient records where care coordination was not documented for patients who presented with complex needs (i.e., probation, juvenile court involvement, high risk for continued substance use).
- Although not an area of non-compliance, the licensee's re-application materials
 included a significant change to its annual budget. Licensee was informed that a fiscal
 audit is to be conducted annually for a program budget of more than \$100,000.
