

# ANNUAL SYNAR REPORT

42 U.S.C. 300x-26

**OMB № 0930-0222**

FFY 2023

State: Iowa

## Table of Contents

Introduction.....	i
FFY 2023: Funding Agreements/Certifications.....	1
Section I: FFY 2022 (Compliance Progress).....	2
Section II: FFY 2023 (Intended Use).....	11
Appendix A: Forms 1–5.....	13
Appendixes B & C: Forms.....	20
Appendix B: Synar Survey Sampling Methodology .....	19
Appendix C: Synar Survey Inspection Protocol Summary.....	21
Appendix D: List Sampling Frame Coverage Study .....	25

Public Burden Statement: An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0222. Public reporting burden for this collection of information is estimated to average 18 hours per respondent, per year, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to SAMHSA Reports Clearance Officer, 5600 Fishers Lane, Rockville, MD 20857.

## INTRODUCTION

The Annual Synar Report (ASR) format provides the means for states to comply with the reporting provisions of the Public Health Service Act (42 U.S.C. 300x-26) and the Tobacco Regulation for the Substance Abuse Prevention and Treatment Block Grant (SABG) (45 C.F.R. 96.130 (e)).

### **How the Synar report helps the Center for Substance Abuse Prevention**

In accordance with the tobacco regulations, states are required to provide detailed information on progress made in enforcing youth and young adult tobacco access laws (FFY 2022 Compliance Progress) and future plans to ensure compliance with the Synar requirements to reduce youth and young adult tobacco access rates (FFY 2023 Intended Use Plan). These data are required by 42 U.S.C. 300x-26 and will be used by the Secretary to evaluate state compliance with the statute. Part of the mission of the Center for Substance Abuse Prevention (CSAP) is to assist states<sup>1</sup> by supporting Synar activities and providing technical assistance helpful in determining the type of enforcement measures and control strategies that are most effective. This information is helpful to CSAP in improving technical assistance resources and expertise on enforcement efforts and tobacco control program support activities, including state Synar program support services, through an enhanced technical assistance program involving conferences and workshops, development of training materials and guidance documents, and onsite technical assistance consultation.

### **How the Synar report can help states**

The information gathered for the Synar report can help states describe and analyze substate needs for program enhancements. These data can also be used to report to the state legislature and other state and local organizations on progress made to date in enforcing youth and young adult tobacco access laws when aggregated statistical data from state Synar reports can demonstrate to the Secretary the national progress in reducing youth and young adult tobacco access problems. This information will also provide Congress with a better understanding of state progress in implementing Synar, including state difficulties and successes in enforcing retailer compliance

---

<sup>1</sup>The term “state” is used to refer to all the states and territories required to comply with Synar as part of the Substance Abuse Prevention and Treatment Block Grant Program requirements (42 U.S.C. 300x-64 and 45 C.F.R. 96.121).

with youth and young adult tobacco access laws.

### **Getting assistance in completing the Synar report**

If you have questions about programmatic issues, you may call CSAP's Division of Primary Prevention at (240) 276-2550 and ask for your respective State Project Officer, or contact your State Project Officer directly by telephone or email. If you have questions about fiscal or grants management issues, you may call your Grants Management Specialist in the Office of Financial Resources, Division of Grants Management, at (240) 276-1422.

### **Where and when to submit the Synar report**

The ASR must be received by SAMHSA no later than December 31, 2022 and must be submitted in the format specified by these instructions. Use of the approved format will avoid delays in the review and approval process. The chief executive officer (or an authorized designee) of the applicant organization must sign page one of the ASR certifying that the state has complied with all reporting requirements.

The state must upload one copy of the ASR using the online WebBGAS (Block Grant Application System). In addition, the following items must be uploaded to WebBGAS:

- FFY 2023 Synar Survey Results: States that use the Synar Survey Estimation System (SSES) must upload one copy of *SSES Tables 1–8* (in Excel) to WebBGAS. **Please note that, in the FFY 2023 ASR, SSES will generate Tables 6, 7, and 8, which are based on the optional microdata on product type, retail outlet type, and whether identification was requested. If your state does not submit these optional data, Tables 6, 7, and 8 will be blank. Tables 6, 7, and 8 are generated for the convenience of the state, and states are not required to submit completed versions of Tables 6, 7, or 8.** States that do not use SSES must upload one copy of ASR Forms 1, 4, and 5, and Forms 2 and 3, if applicable, (in Excel), as well as a database with the raw inspection data to WebBGAS.
- Synar Inspection Form: States must upload one blank copy of the inspection form used to record the result of each Synar inspection.
- Synar Inspection Protocol: States must upload a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections. This document should be different than the Appendix C attached to the Annual Synar Report.
- A scanned copy of the signed Funding Agreements/Certifications

Each state SSA Director has been emailed a login ID and password to log onto the Synar section of the WebBGAS site.

## FFY 2023: FUNDING AGREEMENTS/CERTIFICATIONS

The following form must be signed by the Chief Executive Officer or an authorized designee and submitted with this application. Documentation authorizing a designee must be attached to the application.

<b>PUBLIC HEALTH SERVICES ACT AND SYNAR AMENDMENT</b>	
42 U.S.C. 300x-26 requires each state to submit an annual report of its progress in meeting the requirements of the Synar Amendment and its implementing regulation (45 C.F.R. 96.130) to the Secretary of the Department of Health and Human Services. By signing below, the chief executive officer (or an authorized designee) of the applicant organization certifies that the state has complied with these reporting requirements and the certifications as set forth below.	
<b>SYNAR SURVEY SAMPLING METHODOLOGY</b>	
The state certifies that the Synar survey sampling methodology on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2023 is up-to-date and approved by the Center for Substance Abuse Prevention.	
<b>SYNAR SURVEY INSPECTION PROTOCOL</b>	
The state certifies that the Synar Survey Inspection Protocol on file with the Center for Substance Abuse Prevention and submitted with the Annual Synar Report for FFY 2023 is up-to-date and approved by the Center for Substance Abuse Prevention.	
<b>State:</b> Iowa	
<b>Name of Chief Executive Officer or Designee:</b> DeAnn Decker, SSA, Bureau Chief of Substance Abuse	
<b>Signature of CEO or Designee:</b> *****DeAnn Decker (scanned copy of original signature and date of signature, placed into attachments section)	
<b>Title:</b> Bureau Chief of Substance Abuse/SSA	<b>Date Signed:</b> 11/29/22
<b>If signed by a designee, a copy of the designation must be attached.</b>	

**SECTION I: FFY 2022 (Compliance Progress)**

**YOUTH AND YOUNG ADULT ACCESS LAWS, ACTIVITIES, AND ENFORCEMENT**

42 U.S.C. 300x-26 requires the states to report information regarding the sale/distribution of tobacco products to individuals under age 21.

**1. Please indicate any changes or additions to the state tobacco statute(s) relating to youth and young adult access since the last reporting year. If any changes were made to the state law(s) since the last reporting year, please upload a copy of the state law to WebBGAS. (see 42 U.S.C. 300x-26).**

**a. Has there been a change in the minimum sale age for tobacco products?**

Yes  No

*If Yes, current minimum age:*  19  20  21

**b. Have there been any changes in state law that impact the state’s protocol for conducting Synar inspections?**

Yes  No

*If Yes, indicate change. (Check all that apply.)*

- Changed to require that law enforcement conduct inspections of tobacco outlets
- Changed to make it illegal for youth and young adults to possess, purchase or receive tobacco
- Changed to require ID to purchase tobacco
- Changed definition of tobacco products
- Other change(s) *(Please describe.)* \_\_\_\_\_

**c. Have there been any changes in state law that impact the following?**

- Licensing of tobacco vendors  Yes  No
- Penalties for sales to minors  Yes  No
- Vending machines  Yes  No
- Added product categories to youth and young adult access law  Yes  No

**2. Describe how the Annual Synar Report (see 45 C.F.R. 96.130(e)) was made public within the state prior to submission of the ASR. (Check all that apply.)**

- Placed on file for public review
- Posted on a state agency Web site *(Please provide exact Web address and the date when the FFY 2023 ASR was posted to this Web address.)*

*Web address:* <http://www.idph.iowa.gov/block-grant> & <https://abd.iowa.gov/tobacco/synar>

Date published 12/15/2022

- Notice published in a newspaper or newsletter
- Public hearing
- Announced in a news release, a press conference, or discussed in a media interview
- Distributed for review as part of the SABG application process
- Distributed through the public library system
- Published in an annual register
- Other (Please describe.) *Educated and requested public comment at the August 10,22, Iowa Board of Health subcommittee meeting; and educated and requested input at the September 8<sup>th</sup> Statewide Epidemiological Workgroup meeting,*

**3. Identify the following agency or agencies (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).**

**a. The state agency(ies) designated by the Governor for oversight of the Synar requirements:**

Iowa Department of Health and Human Services, legacy Iowa Department of Public Health; Division of Behavioral Health and Disability Services, Bureau of Substance Abuse

Has this changed since last year's Annual Synar Report?

Yes  No

**b. The state agency(ies) responsible for conducting random, unannounced Synar inspections:**

Iowa Department of Commerce, Iowa Alcoholic Beverages Division (ABD)

Has this changed since last year's Annual Synar Report?

Yes  No

**c. The state agency(ies) responsible for enforcing youth and young adult tobacco access law(s):**

Iowa Department of Commerce, Iowa Alcoholic Beverages Division (ABD)

Has this changed since last year's Annual Synar Report?

Yes  No

**4. Identify the following agencies and describe their relationship with the agency responsible for the oversight of the Synar requirements.**

**a. Identify the state agency responsible for tobacco prevention activities (the agency that receives the Centers for Disease Control and Prevention's National Tobacco Control Program funding).**

Iowa Department of Health and Human Services; legacy Iowa Department of Public Health; Division of Tobacco Use Prevention and Control (TUPC)

- b. **Has the responsible agency changed since last year's Annual Synar Report?**  
 Yes  No
- c. **Describe the coordination and collaboration that occur between the agency responsible for tobacco prevention and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies**
- Are the same
  - Have a formal written memorandum of agreement
  - Have an informal partnership
  - Conduct joint planning activities
  - Combine resources
  - Have other collaborative arrangement(s) *(Please describe.)* \_\_\_\_\_
  - No relationship
- d. **Does a state agency contract with the Food and Drug Administration's Center for Tobacco Products (FDA/CTP) to enforce the youth and young adult access and advertising restrictions in the Family Smoking Prevention and Tobacco Control Act?**  
 Yes  No (if no, go to Question 5)
- e. **If yes, identify the state agency responsible for enforcing the youth and young adult access and advertising restrictions in the Family Smoking Prevention and Tobacco Control Act (the agency that is under contract to the Food and Drug Administration's Center for Tobacco Products (FDA/CTP)).**  
*Iowa Department of Commerce; Alcoholic Beverages Division (ABD)* \_\_\_\_\_
- f. **Has the responsible agency changed since last year's Annual Synar Report?**  
 Yes  No
- g. **Describe the coordination and collaboration that occur between the agency contracted with the FDA to enforce federal youth and young adult tobacco access laws and the agency responsible for oversight of the Synar requirements. (Check all that apply.) The two agencies:**
- Are the same
  - Have a formal written memorandum of agreement
  - Have an informal partnership
  - Conduct joint planning activities
  - Combine resources
  - Have other collaborative arrangement(s) *(Please describe.)* \_\_\_\_\_
  - No relationship
- h. **Does the state use data from the FDA enforcement inspections for Synar survey reporting?**

Yes  No

5. Please answer the following questions regarding the state’s activities to enforce the state’s youth and young adult access to tobacco law(s) in FFY 2022 (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130(e)).

a. Which one of the following describes the enforcement of state youth and young adult access to tobacco laws carried out in your state? (Check one category only.)

- Enforcement is conducted exclusively by local law enforcement agencies.
- Enforcement is conducted exclusively by state agency(ies).
- Enforcement is conducted by both local *and* state agencies.

b. The following items concern penalties imposed for all violations of state youth and young adult access to tobacco laws by LOCAL AND/OR STATE LAW ENFORCEMENT AGENCIES (this does not include enforcement of local laws or federal youth and young adult tobacco access laws). Please fill in the number requested. If state law does not allow for an item, please mark “NA” (not applicable). If a response for an item is unknown, please mark “UNK.” The chart must be filled in completely.

PENALTY	OWNERS	CLERKS	TOTAL
Number of <u>citations issued</u>	unknown	105	105
Number of <u>finest assessed</u>	unknown		90
Number of <u>permits/licenses suspended</u>	unknown		0
Number of <u>permits/licenses revoked</u>	unknown		0
Other (Please describe.) Dismissed = 8; Deferred Judgement = 1	unknown	9	9

c. Are citations or warnings issued to retailers or clerks who sell tobacco to minors for inspections that are part of the Synar survey?

Yes  No

If “Yes” to 5c, please describe the state’s procedure for minimizing risk of bias to the survey results from retailers alerting each other to the presence of the survey teams:

ABD contracts with local law enforcement and local law enforcement and the Iowa State Patrol. Law enforcement officials will ticket clerks, as well as retailers, when conducting compliance checks.  
For violations of 453A.2, subsection 1, by an employee of a retailer, the scheduled fine is as follows: 1) If the violation is a first offense, the scheduled fine is one hundred thirty-five dollars, 2) If the violation is a second offense, the scheduled fine

is three hundred twenty-five dollars, 3) If the violation is a third or subsequent offense, the scheduled fine is six hundred forty-five dollars.

For violations of 453A.2, subsection 2, penalties to the underage person (under age 21) for possession include as follows: 1) if the violation is a first offense, the scheduled fine is seventy dollars, 2) if the violation is a second offense, the scheduled fine is one hundred thirty-five dollars, 3) if the violation is a third or subsequent offense, the scheduled fine is three hundred twenty-five dollars.

Law enforcement agents have the complete list of all retail tobacco permits holders and are required to conduct annual compliance checks of these outlets. To see a complete list of penalties see: <https://abd.iowa.gov/tobacco/legal-resources>

To prevent a potential problem of handling the Synar-sampled permit holders differently, law enforcement agencies and officers do not have access to the Synar sample. The compliance checks are completed uniformly for all permit holders and the compliance results are recorded online for all compliance checks. Iowa ABD, ISU, IDPH TUPC, statistical analyst, and the Synar Coordinator are the only entities/persons with access to the sample list. The law enforcement officer waits until the youth, who completed the buy, leaves the store; and then, a citation is issued.

The Iowa Attorney General is Office, or the city/county, may become involved to issue a civil penalty to the business. This civil penalty could include a suspension or revocation of the tobacco permit, depending on the severity of the offense or repeat offenses. Businesses have implemented training to their employees to ensure tobacco sales to minors are minimized.

**d. Which one of the following best describes the level of enforcement of state youth and young adult access to tobacco laws carried out in your state? (Check one category only.)**

- Enforcement is conducted only at those outlets randomly selected for the Synar survey.
- Enforcement is conducted only at a subset of outlets not randomly selected for the Synar survey.
- Enforcement is conducted at a combination of outlets randomly selected for the Synar survey and outlets not randomly selected for the Synar survey.

**e. Did every tobacco outlet in the state receive at least one compliance check that included enforcement of the state youth and young adult tobacco access law(s) in the last year?**

- Yes  No Continued Covid barriers; workforce has also had impact.

**f. What additional activities are conducted in your state to support enforcement and compliance with state youth and young adult tobacco access law(s)? (Check all that apply and briefly describe each activity in the text boxes below each activity.)**

Merchant education and/or training

Iowa ABD has the I-Pledge Retailer Training and Enforcement Program. The I-PLEDGE program is a partnership between the Iowa ABD, TUPC, and law enforcement to educate retailers and to enforce Iowa's tobacco laws. The goal of I-PLEDGE program is to achieve a zero sales rate of tobacco, alternative nicotine and vapor products to minors. Strategies include a retailer training program and enforcement work including the conduction of tobacco, alternative nicotine, and vapor product compliance checks on each of Iowa's approximately 3,500 tobacco, alternative nicotine, and vapor product permit holders at least once a year. The I-PLEDGE program has helped increase statewide tobacco compliance to a rate of 91% since it began in 2000.

I-PLEDGE program participants have taken a pledge to keep tobacco out of the hands of youth. The program's partnership asks kids not to use tobacco / alternative nicotine / vapor products, asks retailers not to sell tobacco / alternative nicotine / vapor products to kids, and asks law enforcement to enforce Iowa's tobacco / alternative nicotine / vapor product laws. The I-PLEDGE program partnership involves city police departments, county sheriff offices, and the State Patrol as partners in joining a statewide network to conduct compliance checks. Iowa ABD has the primary responsibility for law enforcement and merchant education.

The I-PLEDGE retailer-training program offers certification to employees at all tobacco retailers in the state, free of charge and available on-line at <https://ipocp.iowaabd.com/portal>. The training is available in two languages, both English and Spanish options offered. The I-PLEDGE retailer training is extensive and covers Iowa's tobacco, alternative nicotine, and vapor product laws, valid forms of identification and how to spot altered and fake IDs. Participants learn techniques on how to refuse the sale of tobacco, alternative nicotine and vapor products with minimal confrontation. In addition, the retailer training focuses on alerting and educating Iowa's tobacco retailers so they stay aware and informed of changes in laws in order to work with their employees to ensure legal compliance. The training is widely used by retailers across the state to train their staff.

The overall goal of the I-PLEDGE program is voluntary compliance with the state's tobacco laws through education and enforcement and responsible sales techniques. The state of Iowa has updated all websites and other materials, to reflect changes in Iowa law related to Tobacco 21 and Iowa's law changes. For more information on the I-PLEDGE program see: <https://abd.iowa.gov/tobacco/i-pledge-program-overview>

Each year, Iowa ABD, publishes a tobacco enforcement handbook to educate law enforcement partners on changes in the law or division policy. The handbook contains compliance check procedures, youth consent forms for youth inspectors, information on the tobacco enforcement website, how to access it, compliance check forms, and an officer checklist. These handbooks are included and attached to the Synar Report.

For more information on the I-Pledge Program, see <https://abd.iowa.gov/tobacco/i-pledge-program-overview>

Incentives for merchants who are in compliance (e.g., nonenforcement compliance checks in which compliant retailers are given positive reinforcement and noncompliant retailers are warned about youth and young adult access laws)

Community education regarding youth and young adult access laws

Media use to publicize compliance inspection results

Community mobilization to increase support for retailer compliance with youth and young adult access laws

Other activities (*Please list.*)

***The Iowa Department of Health and Human Services or Iowa HHS*** is in a period of transition as the Iowa Department of Public Health (IDPH) aligns with the Iowa Department of Human Services (DHS). The alignment created the **Iowa Department of Health and Human Services or Iowa HHS**; thus becoming one, single, department. IDPH and DHS will fully transition into the Iowa Department of Health and Human Services (HHS) by July 1, 2023. This newly created, single department, will more efficiently and effectively manage health and human services programs that are the responsibility of the state, will establish a health and human services policy for the state, and promote health and the quality of life in the health and human services field.

Under this state department, the Division of Behavioral Health and Disability Services, Bureau of Substance Abuse, is the Single State Agency (SSA) for Substance Use Disorders and responsible for the Substance Abuse Treatment and Prevention Block Grant (SABG) and Synar regulation implementation, conveyance, monitoring, and reporting.

**Other activities to support enforcement and compliance with Youth Access laws include:**

***State Epidemiological Workgroup and ISU:*** The Iowa State University data analyst for Synar, a representative from the ABD, and a representative of the TUPC are members of the Iowa HHS State Epidemiological Workgroup. Synar priorities are reviewed through this membership. Iowa ABD reports Synar compliance results at the Tobacco Commission meetings held quarterly, and posts compliance check results (number; percentage only) on the ABD website.

***The Iowa HHS, Division of Tobacco Use Prevention and Control (TUPC), is the administrative lead*** for tobacco education and prevention and follows the Centers for Disease Control (CDC) goals to: prevent the initiation of tobacco use among youth and young adults, promote quitting among adults and youth, eliminate exposure to secondhand smoke, and identify and eliminate tobacco-related disparities among population groups. TUPC has also developed educational tools for parents, teachers, and youth and health professionals regarding vaping, e-cigarettes, and electronic smoking devices. For more information see: <https://idph.iowa.gov/tupc/vaping-information>

***The Tobacco Use Prevention and Control Commission*** on Tobacco Use Prevention and Control (TUPC) works to reduce tobacco and nicotine use and exposure within Iowa. The TUPC Commission supports a comprehensive Iowa tobacco and nicotine control program. This is a statewide coordinated effort to establish tobacco/nicotine-free policies and social norms, to promote and assist tobacco/nicotine users to quit, and to prevent initiation of tobacco/nicotine use. This comprehensive approach combines educational, clinical, regulatory, economic, and social strategies.

The membership of the commission shall include the following voting members: Members, one of whom is a member of a racial minority, to be appointed by the governor, subject to confirmation by the Senate pursuant to sections 2.32 and 69.19, and consisting of the following: 1) Members who are active with nonprofit health organizations that emphasize tobacco use prevention or who are active as health services providers, at the local level. 2) Members who are active with health promotion activities at the local level in youth education, nonprofit services, or other activities relating to tobacco use prevention and control, 3) Three voting members, to be selected by the participants in the annual statewide youth summit of the initiative's youth program, who shall not be subject to section 69.16 or 69.16A. The selection process shall provide for diversity among the members and at least: one of the youth members shall be a female.

The commission shall also include the following ex officio, nonvoting members: 1) four members of the general assembly, with not more than one member from each chamber being from the same political party, 2) The majority leader of the Senate and the minority leader of the Senate shall each appoint one of the senate members. 3) The majority leader of the House of Representatives and the minority leader of the House of Representatives shall each appoint one of the House members: the presiding officer of the statewide youth executive body, selected by the delegates to the statewide youth summit.

In addition to the members of the commission, the following agencies, organizations, and persons shall each assign a single liaison to the commission to provide assistance to the commission in the discharge of the commission's duties: 1) the Department of Education and 2) the Drug Policy Coordinator. For membership of the Commission, and meeting minutes see: <https://idph.iowa.gov/tupc/commission>

***Iowa Smoke free Air Act:*** In 2008, Iowa lawmakers passed legislation to protect Iowans from Secondhand Smoke. The Smoke free Air Act prohibits smoking in almost all public places, enclosed areas within places of employment and some outdoor areas. The law applies to restaurants, bars, outdoor entertainment events and amphitheaters. It covers places of employment such as office building, health care facilities, and child care facilities. Smoking is allowed on the gaming floor of licensed casinos and designated hotel and motel rooms. Approximately 2000 tobacco retailers dropped their tobacco permit following passage of the Smoke free Air Act. For more information of the Smoke free Air Act please visit: <https://smokefreeair.iowa.gov/>

***The 2019-2023 Iowa Comprehensive Tobacco Control Strategic Plan*** lays out an ambitious path to address tobacco use. Tobacco use is the leading preventable cause of death for Iowans, taking the lives of more than 5,100 adults each year. The number of high school students who smoke in Iowa is 6.7% (358,600). Estimated annual health care costs in Iowa directly caused by smoking total \$1.49 billion. For additional Iowa specific data, see <https://www.tobaccofreekids.org/what-we-do/us/statereport/iowa>

***The Strategic Plan, updated in June of 2021,*** provides a set of four initiatives established by the Centers for Disease Control (CDC) in working towards the goals consistent with the strategic plan. To achieve the initiatives the Tobacco Commission supports the following:

1. Quitline Iowa cessation services.
2. Youth tobacco-use prevention programming – Iowa Students for Tobacco Education and Prevention (ISTEP).
3. Enforcement and expansion of the Iowa Smoke-free Air Act to include casinos and all nicotine products.
4. Enforcement of laws prohibiting tobacco and e-cigarette sales to youth under age 21.
5. Local tobacco control programs, called Community Partnerships, which support tobacco prevention and cessation initiatives at the community level.
6. Ongoing surveillance of youth and adult tobacco use in Iowa.
7. Voluntary policy and systems change initiatives both statewide and locally through Community Partnerships.
8. Comprehensively addressing tobacco-related health disparities in all tobacco control programming including special initiatives to reach high risk populations including pregnant women and the LGBTQ+ community.
9. Ensure evaluation of comprehensive tobacco control programming.
10. Increase the tobacco tax to a minimum of \$1.50.

11. Increase tobacco retailer licensing fees that were first established in 1921 and have remained the same.

12. Passage of legislation to authorize the Iowa Department of Revenue to collect data on the sale of other tobacco products.

***ISTEP Program:*** TUPC is the administrative lead for the youth-led program Iowa Students for Tobacco Education and Prevention (ISTEP). Since 2000, Iowa teens have had an active role in changing the general social attitude toward tobacco use including the annual Youth Summit. The ISTEP Executive Council is youth-led and adult supervised by the Iowa HHS staff. The ISTEP Executive Council consists of students from Iowa who are in the 7-12 grade, and these students serve as local and state leaders for the ISTEP program. For additional information regarding ISTEP, see <http://www.idph.iowa.gov/tupc/prevention>

During the last few years, ISTEP has grown to have 2,200+ registered members in local chapters statewide. ISTEP is the only tobacco prevention organization with a youth-led structure that is changing the tobacco world in Iowa. ISTEP members explore the use of social media to present tobacco prevention messages to youth statewide. In addition to social media messages, ISTEP partners with other departments and groups to hold youth conferences and summits. The division offers technical assistance to ISTEP and community partnerships through materials, media expertise, and training to sponsors and youth

***Community Partnerships*** grants are provided to local public health agencies, and to nonprofit and substance use agencies, to help reduce the burden of tobacco within their own communities, prevent the initiation of tobacco use, promote cessation among young people and adults, eliminate non-smokers exposure to secondhand smoke, and identify and eliminate the disparities related to tobacco use and its effects among different population groups. Grantees work toward tobacco-free environments like smoke-free multi-unit housing, as well as reducing youth access to tobacco. The Division of TUPC funds 28 community partnerships serving all 99 counties. Partnerships choose to work toward tobacco and nicotine free schools, wellness worksites, and community events or smoke free housing policies, system change related to promoting quitting among young people and adults, and coalition development to mobilize communities and to integrate tobacco control strategies into collaborative community activities. For more information on Community Partnership grants, objectives or statewide map of providers see <https://idph.iowa.gov/tupc/control>

***National Jewish Health to support Tobacco Cessation Programming/Iowa Quitline:*** Iowa launched with National Jewish Health in 2016 to support a statewide, telephone and web-based Quitline that assists tobacco users in quitting. Quitline Iowa coaching is available free of charge to Iowans. Nicotine replacement therapy is offered to qualifying participants and products are shipped directly to the participant's home. Coaching is a requirement of enrollment in the program. In Iowa, all participants are medically screened and some medical conditions require medical consent. Program participants may receive 8 weeks of Nicotine

Replacement Therapy (NRT), if eligible, for uninsured populations and Medicare; and for Medicaid; some participants are directed to their managed care organization.

Currently Quitline services are available in English and Spanish; and over 200+ other languages are available per interpreter services. Quitline Iowa provides information to tobacco users and non-tobacco users on tobacco dependence and treatment.

Information from coaching may include advice to tobacco users, family members and friends, or health care providers on helping a tobacco user quit and providing appropriate support through the attempt to quit. For Iowans who are ready to quit, Quitline Iowa will assist the participant in developing a personalized quit plan; provide comprehensive, proactive, behavioral counseling; and information about available coverage for tobacco dependence treatment. Quitline Iowa provides a text messaging service to callers who request it. This service will provide text messages sent during the course of a caller's enrollment in ongoing counseling to the caller's mobile phone. These texts include motivational quit messages, relapse prevention messages, re-engagement messages, anniversary messages, and reminders of upcoming sessions with a Quitline counselor. Participants can also enroll by calling 1-800-QUIT-NOW or by referral by a health care provider. Quitline is open 24 hours per day, 7 days per week, only closed select days.

In FY20, National Jewish Health, created and released a youth tobacco cessation program called "My Life, My Quit" for youth aged 13-17. This program is 100% free, confidential and made for teens. The program combines best practices for cessation of youth tobacco and vaping, including tailored resources and educational materials for quitting, and coaching services by phone, text or online chat. For more information on "My Life My Quit" tools for youth, see

<https://idph.iowa.gov/tupc/quitting-tobacco>

***Iowa I-Pledge Retailer Training and Enforcement Program*** is a partnership between the Iowa ABD, TUPC, and law enforcement to educate retailers and to enforce Iowa's tobacco laws. The goal of I-PLEDGE program is to achieve a zero sales rate of tobacco, alternative nicotine and vapor products to minors. Strategies include a retailer training program and enforcement work including the conduction of tobacco, alternative nicotine, and vapor product compliance checks on each of Iowa's approximately 3,500 tobacco, alternative nicotine, and vapor product permit holders at least once a year.

The I-PLEDGE program has helped increase statewide tobacco compliance to a rate of 91% since it began in 2000. The I-PLEDGE retailer training program offers certification to employees at all tobacco retailers in the state, free of charge and available on-line at <https://ipocp.iowaabd.com/portal>. For more information on the I-PLEDGE program see: <https://abd.iowa.gov/tobacco/i-pledge-program-overview> and see detailed description in Section 1-5(f).

**SYNAR SURVEY METHODS AND RESULTS**

The following questions pertain to the survey methodology and results of the Synar survey used by the state to meet the requirements of the Synar Regulation in FFY 2022 (see 42 U.S.C. 300x-26 and 45 C.F.R. 96.130).

**6. Has the sampling methodology changed from the previous year?**

Yes  No

*The state is required to have an approved up-to-date description of the Synar sampling methodology on file with CSAP. Please submit a copy of your Synar Survey Sampling Methodology (Appendix B). If the sampling methodology changed from the previous reporting year, these changes must be reflected in the methodology submitted.*

**a. If yes, describe how and when this change was communicated to SAMHSA**

**7. Please answer the following questions regarding the state’s annual random, unannounced inspections of tobacco outlets (see 45 C.F.R. 96.130(d)(2)).**

**a. Did the state use the optional Synar Survey Estimation System (SSES) to analyze the Synar survey data?**

Yes  No

*If Yes, upload a copy of SSES tables 1–8 (in Excel) to WebBGAS. Then go to Question 8. If No, continue to Question 7b.*

**b. Report the weighted and unweighted Retailer Violation Rate (RVR) estimates, the standard error, accuracy rate (number of eligible outlets divided by the total number of sampled outlets), and completion rate (number of eligible outlets inspected divided by the total number of eligible outlets).**

**Unweighted RVR** \_\_\_\_\_

**Weighted RVR** \_\_\_\_\_

**Standard error (s.e.) of the (weighted) RVR** \_\_\_\_\_

**Fill in the blanks to calculate the right limit of the right-sided 95% confidence interval.**

$$\text{RVR Estimate} + (1.645 \times \text{Standard Error}) = \text{Right Limit}$$

plus      (1.645      times      Standard Error      )      equals

**Accuracy rate** \_\_\_\_\_

**Completion rate** \_\_\_\_\_

c. **Fill out Form 1 in Appendix A (Forms 1–5).** *(Required regardless of the sample design.)*

d. **How were the (weighted) RVR estimate and its standard error obtained?**  
*(Check the one that applies.)*

- Form 2 (Optional) in Appendix A (Forms 1–5) *(Attach completed Form 2.)*  
 Other *(Please specify. Provide formulas and calculations or attach and explain the program code and output with description of all variable names.)*

e. **If stratification was used, did any strata in the sample contain only one outlet or cluster this year?**

- Yes  No  No stratification

*If Yes, explain how this situation was dealt with in variance estimation.*

f. **Was a cluster sample design used?**

- Yes  No

*If Yes, fill out and attach Form 3 in Appendix A (Forms 1–5), and answer the following question.*

*If No, go to Question 7g.*

**Were any certainty primary sampling units selected this year?**

- Yes  No

*If Yes, explain how the certainty clusters were dealt with in variance estimation.*

g. **Report the following outlet sample sizes for the Synar survey.**

	Sample Size
<b>Effective sample size</b> (sample size needed to meet the SAMHSA precision requirement assuming simple random sampling)	
<b>Target sample size</b> (the product of the effective sample size and the design effect)	
<b>Original sample size</b> (inflated sample size of the target sample to counter the sample attrition due to ineligibility and noncompletion)	
<b>Eligible sample size</b> (number of outlets found to be eligible in the sample)	
<b>Final sample size</b> (number of eligible outlets in the sample for which an inspection was completed)	

h. **Fill out Form 4 in Appendix A (Forms 1–5).**

**8. Did the state's Synar survey use a list frame?**

Yes  No

*If Yes, answer the following questions about its coverage.*

- a. **The calendar year of the latest Sampling frame coverage study:** N/A
- b. **Percent coverage from the latest Sampling frame coverage study:** N/A
- c. **Was a new study conducted in this reporting period?**  
 Yes  No

*If Yes, please complete Appendix D (List Sampling Frame Coverage Study) and submit it with the Annual Synar Report.*

- d. **The calendar year of the next coverage study planned:** Iowa has a coverage study waiver approved by SAMHSA CSAP.

**9. Has the Synar survey inspection protocol changed from the previous year?**

Yes  No

*The state is required to have an approved up-to-date description of the Synar inspection protocol on file with CSAP. Please submit a copy of your Synar Survey Inspection Protocol (Appendix C). If the inspection protocol changed from the previous year, these changes must be reflected in the protocol submitted.*

- a. **If Yes, describe how and when this change was communicated to SAMHSA**

- b. **Provide the inspection period: From 10/01/21 to 06/30/21**  
MM/DD/YY MM/DD/YY

- c. **Provide the number of youth and young adult inspectors used in the current inspection year:**

157

NOTE: If the state uses SSES, please ensure that the number reported in 9b matches that reported in SSES Table 4, or explain any difference.

- d. **Fill out and attach Form 5 in Appendix A (Forms 1–5).** *(Not required if the state used SSES to analyze the Synar survey data.)*

## SECTION II: FFY 2023 (Intended Use):

Public Law 42 U.S.C. 300x-26 of the Public Health Service Act and 45 C.F.R. 96.130 (e) (4, 5) require that the states provide information on future plans to ensure compliance with the Synar requirements to reduce youth and young adult tobacco access.

### 1. In the upcoming year, does the state anticipate any changes in:

Synar sampling methodology  Yes  No

Synar inspection protocol  Yes  No

*If changes are made in either the Synar sampling methodology or the Synar inspection protocol, the state is required to obtain approval from CSAP prior to implementation of the change and file an updated Synar Survey Sampling Methodology (Appendix B) or an updated Synar Survey Inspection Protocol (Appendix C), as appropriate.*

### 2. Please describe the state's plans to maintain and/or reduce the target rate for Synar inspections to be completed in FFY 2023. Include a brief description of plans for law enforcement efforts to enforce youth and young adult tobacco access laws, activities that support law enforcement efforts to enforce youth and young adult tobacco access laws, and any anticipated changes in youth and young adult tobacco access legislation or regulation in the state.

The State of Iowa plans to maintain the target rate for Synar inspections in the upcoming year. The state will continue to promote the strategies discussed in #5f. The Iowa HHS shares the responsibility with Iowa ABD to complete Synar compliance checks. The newly aligned Iowa HHS brings together the divisions and bureau chiefs under one single state-wide department to more closely align shared work.

Iowa continues to maintain the state's plan to reduce the target rate with the following activities:

- 1) ABD will continue to have a MOU with Iowa HHS to conduct tobacco enforcement and retailer education, 2) Iowa ABD obtains and maintains lists of tobacco retailer permits and contracts with law enforcement to complete annual, random, unannounced compliance checks on all retail tobacco permit holders, 3) law enforcement agents have the list of permits, 4) law enforcement agencies and officers do not have access to the Synar sample, 5) compliance checks are done uniformly for all permit holders and the compliance results are recorded on-line for all checks, 6) Iowa ABD, ISU (statistical analyst), TUPC staff, and the IDPH Synar Coordinator are the only entities with access to the sample list, 7) ABD maintains strong partnerships with police departments, sheriff's offices, the state patrol, the Attorney General's office and local prosecutors.
- 2) Iowa ABD continues to use the Iowa Pledge program. Each stakeholder is encouraged to take the Iowa Pledge, which asks Iowa's kids to Pledge not to use tobacco products, Iowa's retailers to Pledge not to sell tobacco products to kids, and Iowa's law enforcement to Pledge to enforce Iowa's tobacco laws. Iowa ABD continues to revise and use materials to train retailers. These include point of sale aids to assist clerks in evaluating 19 drivers' licenses and correctly calculate a patron's age to determine if the patron is old enough to legally purchase tobacco products. In February 2019, the Iowa ABD Age to Purchase App was launched. This app (Apple or Google) provides an age to

purchase calendar, driver's license scanner and manual date of birth entry option to assist retailers in determining if an individual is old enough to purchase tobacco products. No personal information of the customer is stored on the device. More information on the Iowa ABD Age to Purchase Mobile App see: <https://abd.iowa.gov/education/age-purchase-materials>. In addition to the Iowa ABD Age to Purchase App, the I-PLEDGE Retailer Training is used to train retailers and their staff. The training is offered online and a no cost. The trainee must review a series of slides and pass a quiz at the end of the training to become certified. The certification lasts for two years unless a sale to minor violation occurs. If a sale to minor violation occurs and the clerk was certified in the I-PLEDGE Retailer Training prior to the sale, an affirmative defense option may be used once in a four-year period for the business to avoid the civil penalty. The clerk is still subject to the criminal fine. All individuals who sell tobacco, alternative nicotine and vapor products, as well as holder of retail licenses are encouraged to take the free training at: <https://abd.iowa.gov/education/i-pledge>

**3. Describe any challenges the state faces in complying with the Synar regulation. (Check all that apply and describe each challenge in the text box below it.)**

- Limited resources for law enforcement of youth and young adult access laws

Law enforcement workforce and recruitment continue to provide challenges. Law enforcement agencies continue to struggle with maintaining and recruiting officers. The Pandemic continues to exacerbate recruitment efforts and challenges to keep law enforcement and youth safe while conducting Synar checks.

- Limited resources for activities to support enforcement and compliance with youth and young adult tobacco access laws

- Limitations in the state youth and young adult tobacco access laws

- Limited public support for enforcement of youth and young adult tobacco access laws

- Limitations on completeness/accuracy of list of tobacco outlets

- Limited expertise in survey methodology

- Laws/regulations limiting the use of minors in tobacco inspections

- Difficulties recruiting youth and young adult inspectors

Workforce and the Pandemic continue to pose challenges for recruitment of inspectors

Issues regarding the balance of inspections conducted by youth inspectors age 15 and under

Issues regarding the balance of inspections conducted by one gender of youth and young adult inspectors

Geographic, demographic, and logistical considerations in conducting inspections

Cultural factors (e.g., language barriers, young people purchasing for their elders)

Issues regarding sources of tobacco under tribal jurisdiction

Other challenges (*Please list.*) \_\_\_\_\_

As a continued result of the pandemic, Iowa has experienced significant challenges related to efforts to implement the Synar program. Recognizing the importance of keeping youth, law enforcement partners, and other health professionals healthy and safe, and in compliance with state and local public health orders, Iowa has experienced the following challenges: 1) Maintaining law enforcement participation in the program/ensuring compliance checks were conducted at all tobacco retail outlets, and, 2) Use of PPE is at the discretion of law enforcement agency; dependent on jurisdiction mandates.

## APPENDIX A: FORMS 1–5

### FORM 1 (Required for all states not using the Synar Survey Estimation System (SSES) to analyze the Synar Survey data)

Complete Form 1 to report sampling frame and sample information and to calculate the unweighted retailer violation rate (RVR) using results from the current year’s Synar survey inspections.

**Instructions for Completing Form 1:** In the top right-hand corner of the form, provide the state name and reporting federal fiscal year (FFY 2023). Provide the remaining information by stratum if stratification was used. Make copies of the form if additional rows are needed to list all the strata.

Column 1: *If stratification was used:*

1(a) Sequentially number each row.

1(b) Write in the name of each stratum. All strata in the state must be listed.

*If no stratification was used:*

1(a) Leave blank.

1(b) Write “state” in the first row (indicates that the whole state is a single stratum).

*Note for unstratified samples: For Columns 2–5, wherever the instruction refers to “each stratum,” report the specified information for the state as a whole.*

Column 2: 2(a) Report the number of over-the-counter (OTC) outlets in the sampling frame in each stratum.

2(b) Report the number of vending machine (VM) outlets in the sampling frame in each stratum.

2(c) Report the combined total of OTC and VM outlets in the sampling frame in each stratum.

Column 3: 3(a) Report the estimated number of eligible OTC outlets in the OTC outlet population in each stratum.

3(b) Report the estimated number of eligible VM outlets in the VM outlet population in each stratum.

3(c) Report the combined total estimated number of eligible OTC and VM outlets in the total outlet population in each stratum.

*The estimates for Column 3 can be obtained from the Synar survey sample as the weighted sum of eligible outlets by outlet type.*

Column 4: 4(a) Report the number of eligible OTC outlets for which an inspection was completed, for each stratum.

4(b) Report the numbers of eligible VM outlets for which an inspection was completed, for each stratum.

4(c) Report the combined total of eligible OTC and VM outlets for which an inspection was completed, for each stratum.

Column 5: 5(a) Report the number of OTC outlets found in violation of the law as a result of completed inspections, for each stratum.

5(b) Report the number of VM outlets found in violation of the law as a result of completed inspections, for each stratum.

5(c) Report the combined total of OTC and VM outlets found in violation of the law as a result of completed inspections, for each stratum.

Totals: For each subcolumn (a–c) in Columns 2–5, provide totals for the state as a whole in the last row of the table. These numbers will be the sum of the numbers in each row for the respective column.

**FORM 1 (Required for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar Survey data.)**

Summary of Synar Inspection Results by Stratum													State: _____	
													FFY: <u>2023</u>	
(1)		(2)			(3)			(4)			(5)			
STRATUM		NUMBER OF OUTLETS IN SAMPLING FRAME			ESTIMATED NUMBER OF ELIGIBLE OUTLETS IN POPULATION			NUMBER OF OUTLETS INSPECTED			NO. OF OUTLETS FOUND IN VIOLATION DURING INSPECTIONS			
(a) Row #	(b) Stratum Name	(a) Over-the-Counter (OTC)	(b) Vending Machines (VM)	(c) Total Outlets (2a+2b)	(a) Over-the-Counter (OTC)	(b) Vending Machines (VM)	(c) Total Outlets (3a+3b)	(a) Over-the-Counter (OTC)	(b) Vending Machines (VM)	(c) Total Outlets (4a+4b)	(a) Over-the-Counter (OTC)	(b) Vending Machines (VM)	(c) Total Outlets (5a+5b)	

**RECORD COLUMN TOTALS ON LAST LINE (LAST PAGE ONLY IF MULTIPLE PAGES ARE NEEDED).**

## **FORM 2 (Optional)**

### **Appropriate for stratified simple or systematic random sampling designs.**

Complete Form 2 to calculate the weighted RVR. This table (in Excel form) is designed to calculate the weighted RVR for stratified simple or systematic random sampling designs, accounting for ineligible outlets and noncomplete inspections encountered during the annual Synar survey.

**Instructions for Completing Form 2:** In the top right-hand corner of the form, provide the state name and reporting federal fiscal year (FFY 2023).

- Column 1: Write in the name of each stratum into which the sample was divided. These should match the strata reported in Column 1(b) of Form 1.
- Column 2: Report the number of outlets in the sampling frame in each stratum. These numbers should match the numbers reported for the respective strata in Column 2(c) of Form 1.
- Column 3: Report the original sample size (the number of outlets originally selected, *including* substitutes or replacements) for each stratum.
- Column 4: Report the number of sample outlets in each stratum that were found to be eligible during the inspections. Note that this number must be less than or equal to the number reported in Column 3 for the respective strata.
- Column 5: Report the number of eligible outlets in each stratum for which an inspection was completed. Note that this number must be less than or equal to the number reported in Column 4. These numbers should match the numbers reported in Column 4(c) of Form 1 for the respective strata.
- Column 6: Report the number of eligible outlets inspected in each stratum that were found in violation. These numbers should match the numbers reported in Column 5(c) of Form 1 for the stratum.
- Column 7: Form 2 (in Excel form) will automatically calculate the stratum RVR for each stratum in this column. This is calculated by dividing the number of inspected eligible outlets found in violation (Column 6) by the number of inspected eligible outlets (Column 5). The state unweighted RVR will be shown in the Total row of Column 7.
- Column 8: Form 2 (in Excel form) will automatically calculate the estimated number of eligible outlets in the population for each stratum. This calculation is made by multiplying the number of outlets in the sampling frame (Column 2) times the number of eligible outlets (Column 4) divided by the original sample size (Column 3). Note that these numbers will be less than or equal to the numbers in Column 2.
- Column 9: Form 2 (in Excel form) will automatically calculate the relative stratum weight by dividing the estimated number of eligible outlets in the population for each stratum in Column 8 by the Total of the values in Column 8.
- Column 10: Form 2 (in Excel form) will automatically calculate each stratum's contribution to the state weighted RVR by multiplying the stratum RVR (Column 7) by the relative stratum weight (Column 9). The weighted RVR for the state will be shown in the Total row of Column 10.
- Column 11: Form 2 (in Excel form) automatically calculates the standard error of each stratum's RVR (Column 7). The standard error for the state weighted RVR will be shown in the Total row of Column 11.
- TOTAL: For Columns 2–6, Form 2 (in Excel form) provides totals for the state as a whole in the last row of the table. For Columns 7–11, it calculates the respective statistic for the state as a whole.

**FORM 2 (Optional) Appropriate for stratified simple or systematic random sampling designs.**

<b>Calculation of Weighted Retailer Violation Rate</b>										
										State: _____
										FFY: 2023
(1) Stratum Name	(2) N Number of Outlets in Sampling Frame	(3) n Original Sample Size	(4) n1 Number of Sample Outlets Found Eligible	(5) n2 Number of Outlets Inspected	(6) x Number of Outlets Found in Violation	(7) p=x/n2 Stratum Retailer Violation Rate	(8) N'=N(n1/n) Estimated Number of Eligible Outlets in Population	(9) w=N'/Total Column 8 Relative Stratum Weight	(10) pw Stratum Contribution to State Weighted RVR	(11) s.e. Standard Error of Stratum RVR
<b>Total</b>										

- N - number of outlets in sampling frame
- n - original sample size (number of outlets in the original sample)
- n1 - number of sample outlets that were found to be eligible
- n2 - number of eligible outlets that were inspected
- x - number of inspected outlets that were found in violation
- p - stratum retailer violation rate (p=x/n2)
- N' - estimated number of eligible outlets in population (N'=N\*n1/n)
- w - relative stratum weight (w=N'/Total Column 8)
- pw - stratum contribution to the weighted RVR
- s.e. - standard error of the stratum RVR

**FORM 3 (Required when a cluster design is used for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar survey data.)**

Complete Form 3 to report information about primary sampling units when a cluster design was used for the Synar survey.

**Instructions for Completing Form 3:** In the top right-hand corner of the form, provide the state name and reporting federal fiscal year (FFY 2023).

Provide information by stratum if stratification was used. Make copies of the form if additional rows are needed to list all the strata.

Column 1:       Sequentially number each row.

Column 2:       *If stratification was used:* Write in the name of stratum. All strata in the state must be listed.

*If no stratification was used:* Write “state” in the first row to indicate that the whole state constitutes a single stratum.

Column 3:       Report the number of primary sampling units (PSUs) (i.e., first-stage clusters) created for each stratum.

Column 4:       Report the number of PSUs selected in the original sample for each stratum.

Column 5:       Report the number of PSUs in the final sample for each stratum.

TOTALS:         For Columns 3–5, provide totals for the state as a whole in the last row of the table.

<b>Summary of Clusters Created and Sampled</b>				
<b>State:</b> _____				
<b>FFY:</b> 2023 _____				
(1) Row #	(2) Stratum Name	(3) Number of PSUs Created	(4) Number of PSUs Selected	(5) Number of PSUs in the Final Sample
<b>Total</b>				

**FORM 4 (Required for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar Survey data)**

Complete Form 4 to provide detailed tallies of ineligible sample outlets by reasons for ineligibility and detailed tallies of eligible sample outlets with noncomplete inspections by reasons for noncompletion.

**Instructions for Completing Form 4:** In the top right-hand corner of the form, provide the state name and reporting federal fiscal year (FFY 2023).

Column 1(a): Enter the number of sample outlets found ineligible for inspection by reason for ineligibility. Provide the total number of ineligible outlets in the row marked “Total.”

Column 2(a): Enter the number of eligible sample outlets with noncomplete inspections by reason for noncompletion. Provide the total number of eligible outlets with noncomplete inspections in the row marked “Total.”

<b>Inspection Tallies by Reason of Ineligibility or Noncompletion</b>			
		<b>State:</b> _____	
		<b>FFY:</b> 2023	
(1) INELIGIBLE		(2) ELIGIBLE	
Reason for Ineligibility	(a) Counts	Reason for Noncompletion	(a) Counts
Out of business		In operation but closed at time of visit	
Does not sell tobacco products		Unsafe to access	
Inaccessible by youth or young adult		Presence of police	
Private club or private residence		Youth or young adult inspector knows salesperson	
Temporary closure		Moved to new location	
Unlocatable		Drive-thru only/youth or young adult inspector has no driver’s license	
Wholesale only/Carton sale only		Tobacco out of stock	
Vending machine broken		Ran out of time	
Duplicate		Other noncompletion reason(s) ( <i>Describe.</i> )	
Other ineligibility reason(s) ( <i>Describe.</i> )			
<b>Total</b>		<b>Total</b>	

**FORM 5 (Required for all states not using the Synar Survey Estimation System [SSES] to analyze the Synar survey data)**

Complete Form 5 to show the distribution of outlet inspection results by age and gender of the youth and young adult inspectors.

**Instructions for Completing Form 5:** In the top right-hand corner of the form, provide the state name and reporting federal fiscal year (FFY 2023).

Column 1: Enter the number of attempted buys by youth and young adult inspector age and gender.

Column 2: Enter the number of successful buys by youth and young adult inspector age and gender.

If the inspectors are age eligible but the gender of the inspector is unknown, include those inspections in the “Other” row. Calculate subtotals for males and females in rows marked “Male Subtotal” and “Female Subtotal.” Sum subtotals for Male, Female, and Other and record in the bottom row marked “Total.” Verify that the total of attempted buys and successful buys equals the total for Column 4(c) and Column 5(c), respectively, on Form 1. If the totals do not match, please explain any discrepancies.

<b>Synar Survey Inspector Characteristics</b>

## **APPENDIXES B & C: FORMS**

### Instructions

Appendix B (Sampling Design) and Appendix C (Inspection Protocol) are to reflect the state's CSAP-approved sampling design and inspection protocol. These appendixes, therefore, should generally describe the design and protocol and, with the exception of Question #10 of Appendix B, are not to be modified with year-specific information. Please note that any changes to either appendix must receive CSAP's advance, written approval. To facilitate the state's completion of this section, simply cut and paste the previously approved sampling design (Appendix B) and inspection protocol (Appendix C) and respond to Question #10 of Appendix B to provide the requested information about sample size calculations for the Synar survey conducted in FFY 2022.

## APPENDIX B: SYNAR SURVEY SAMPLING METHODOLOGY

State: Iowa  
 FFY: 2023

**1. What type of sampling frame is used?**

- List frame (*Go to Question 2.*)
- Area frame (*Go to Question 3.*)
- List-assisted area frame (*Go to Question 2.*)

**2. List all sources of the list frame. Indicate the type of source from the list below. Provide a brief description of the frame source. Explain how the lists are updated (method), including how new outlets are identified and added to the frame. In addition, explain how often the lists are updated (cycle). (After completing this question, go to Question 4.)**

*Use the corresponding number to indicate Type of Source in the table below.*

- 1 – Statewide commercial business list
- 4 – Statewide retail license/permit list
- 2 – Local commercial business list
- 5 – Statewide liquor license/permit list
- 3 – Statewide tobacco license/permit list
- 6 – Other

Name of Frame Source	Type of Source	Description	Updating Method and Cycle
Iowa ABD	3	Iowa requires retailers of tobacco products to have an annual (fiscal year, July to June) tobacco retail permit. Cities and counties are required by state law to submit copies of issued permit applications to the Iowa Alcoholic Beverages Division within 30 days of issuance.	Updated on an annual basis. To insure that the addresses of tobacco outlets on the sampling frame are accurate, compliance officers provide information on new businesses and businesses not in operation. Law enforcement agencies conduct inspections throughout the year and provide information on changes in retail permits.

**3. If an area frame is used, describe how area sampling units are defined and formed.**

N/A

**a. Is any area left out in the formation of the area frame?**

- Yes    No

*If Yes, what percentage of the state’s population is not covered by the area frame?*

\_\_\_\_\_%

**4. Federal regulation requires that vending machines be inspected as part of the Synar survey. Are vending machines included in the Synar survey?**

**Yes**    **No**

*If No, please indicate the reason(s) they are not included in the Synar survey. Please check all that apply.*

- State law bans vending machines.
- State law bans vending machines from locations accessible to youth and young adults.
- State has a contract with the FDA and is actively enforcing the vending machine requirements of the Family Smoking Prevention and Tobacco Control Act.
- Other (*Please describe.*) \_\_\_\_\_

*If Yes, please indicate how likely it is that vending machines will be sampled.*

- Vending machines are sampled separately to ensure vending machines are included in the sample
- Vending machines are sampled together with over the counter outlets, so it is possible that no vending machines were sampled, however they are included in the sampling frame and have a non-zero probability of selection
- Other reasons (*Please describe.*) \_\_\_\_\_

**5. Which category below best describes the sample design? (Check only one.)**

**Census** (*STOP HERE: Appendix B is complete.*)

**Unstratified statewide sample:**

- Simple random sample (*Go to Question 9.*)
- Systematic random sample (*Go to Question 6.*)
- Single-stage cluster sample (*Go to Question 8.*)
- Multistage cluster sample (*Go to Question 8.*)

**Stratified sample:**

- Simple random sample (*Go to Question 7.*)
- Systematic random sample (*Go to Question 6.*)
- Single-stage cluster sample (*Go to Question 7.*)
- Multistage cluster sample (*Go to Question 7.*)
- Other** (*Please describe and go to Question 9.*) \_\_\_\_\_

**6. Describe the systematic sampling methods. (After completing Question 6, go to Question 7 if stratification is used. Otherwise go to Question 9.)**

**7. Provide the following information about stratification.**

**a. Provide a full description of the strata that are created.**

**b. Is clustering used within the stratified sample?**

**Yes** (Go to Question 8.)

**No** (Go to Question 9.)

**8. Provide the following information about clustering.**

**a. Provide a full description of how clusters are formed.** (If multistage clusters are used, give definitions of clusters at each stage.)

**b. Specify the sampling method (simple random, systematic, or probability proportional to size sampling) for each stage of sampling and describe how the method(s) is (are) implemented.**

**9. Provide the following information about determining the Synar Sample.**

**a. Was the Synar Survey Estimation System (SSES) used to calculate the sample size?**

**Yes** (Respond to part b.)

**No** (Respond to part c and Question 10c.)

**b. SSES Sample Size Calculator used?**

**State Level** (Respond to Question 10a.)

**Stratum Level** (Respond to Question 10a and 10b.)

**c. Provide the formulas for determining the effective, target, and original outlet sample sizes.**

See SSES Data uploaded.

**10. Provide the following information about sample size calculations for the Synar survey conducted in FFY 2022.**

**a. If the state uses the sample size formulas embedded in the SSES Sample Size Calculator to calculate the state level sample size, please provide the following information:**

**Inputs for Effective Sample Size:**

RVR: 8.3%

Frame Size: 239

**Input for Target Sample Size:**

Design Effect: 1.0

**Inputs for Original Sample Size:**

Safety Margin: 50%

Accuracy (Eligibility) Rate: 99.1%

Completion Rate: 100%

- b. If the state uses the sample size formulas embedded in the SSES Sample Size Calculator to calculate the stratum level sample sizes, please provide the stratum level information:**

See attachments uploaded

- c. If the state does not use the sample size formulas embedded in the SSES Sample Size Calculator, please provide all inputs required to calculate the effective, target, and original sample sizes as indicated in Question 9.**

n/a

## APPENDIX C: SYNAR SURVEY INSPECTION PROTOCOL SUMMARY

State: Iowa  
FFY: 2023

*Note: Upload to WebBGAS a copy of the Synar inspection form under the heading “Synar Inspection Form” and a copy of the protocol used to train inspection teams on conducting and reporting the results of the Synar inspections under the heading “Synar Inspection Protocol.”*

### 1. How does the state Synar survey protocol address the following?

#### a. Consummated buy attempts?

- Required
- Permitted under specified circumstances
- Not permitted

#### b. Youth and young adult inspectors to carry ID?

- Required
- Permitted under specified circumstances
- Not permitted

#### c. Adult inspectors to enter the outlet?

- Required
- Permitted under specified circumstances (Describe:) The officer will enter the outlet if the officer is not known at the outlet. If the officer is known, they would not want to enter due to exposing the undercover nature of the buy attempt. Audio and video equipment may be utilized during compliance checks in lieu of officer observation.
- Not permitted

#### d. Youth and young adult inspectors to be compensated?

- Required
- Permitted under specified circumstances (Describe:) : Up to law enforcement to determine if to compensate.
- Not permitted

### 2. Identify the agency(ies) or entity(ies) that actually conduct the random, unannounced Synar inspections of tobacco outlets. (Check all that apply.)

- Law enforcement agency(ies)
- State or local government agency(ies) other than law enforcement
- Private contractor(s)

Other

List the agency name(s): \_\_\_\_\_

**3. Are Synar inspections combined with law enforcement efforts (i.e., do law enforcement representatives issue warnings or citations to retailers found in violation of the law at the time of the inspection?)?**

Always    Usually    Sometimes    Rarely    Never

**4. Describe the type of tobacco products that are requested during Synar inspections.**

**a. What type of tobacco products are requested during the inspection?**

- Cigarettes
- Small Cigars
- Cigarillos
- Smokeless Tobacco
- Electronic Cigarettes/Electronic Nicotine Delivery Systems (ENDS)
- Other (Alternative Tobacco Products)

**b. Describe the protocol for identifying what types of products and what brands of products are requested during an inspection.**

The product the underage person attempts to purchase is at the discretion of the law enforcement officer conducting the compliance checks. Tobacco, alternative nicotine, and vapor products are all included in the program and may be purchased during the compliance checks.

**5a. Describe the methods used to recruit, select, and train adult supervisors.**

Law enforcement officers, in partnership with Iowa ABD, conduct the Synar inspections. Iowa ABD supplies each law enforcement agency with a handbook detailing procedures. See handbooks in attachments.

**5b. Describe the methods used to recruit, select, and train youth and young adult inspectors.**

Officials recruit underage persons using family members of law enforcement officers, personnel involved with tobacco prevention initiatives, local schools, and health organizations. It is encouraged for law enforcement officers to meet with the parents of the underage persons to explain the program and involvement. Parental consent is required for individuals under 18 years of age. The underage persons are trained by law enforcement officers on protocols, safety, and acceptable behavior. Iowa ABD supplies each law enforcement agency with a handbook detailing procedures. See attachments. Iowa ABD and Iowa HHS (legacy IDPH) TUPC collaborated in 2020 to create two training videos, which can be utilized to train law enforcement and underage persons participating in tobacco compliance checks. The videos educate the viewer on vapor products and vape shops. The videos can be accessed through the law enforcement portal, which is password protected. The videos are not to be shared with those outside the inspection team.

**6. Are there specific legal or procedural requirements instituted by the state to address**

**the issue of youth and young adult inspectors' immunity when conducting inspections?**

**a. Legal**

Yes  No

*(If Yes, please describe.)*

According to Iowa Code 453A.2 a person under twenty-one years of age shall not smoke, use, possess, purchase, or attempt to purchase any tobacco, tobacco products, or cigarettes. A person shall not be guilty of a violation of this section if conduct that would otherwise constitute a violation are performed to assess compliance with cigarette and tobacco products laws if any of the following applies: (1) the compliance effort is conducted by or under the supervision of law enforcement officers. (2) the compliance effort is conducted with the advance knowledge of law enforcement officers, and reasonable measures are adopted by those conducting the effort to ensure that use of cigarettes or tobacco products by individuals under twenty-one years of age does not result from participation by any individual under twenty-one years of age in the compliance effort.

**b. Procedural**

Yes  No

*(If Yes, please describe.)*

**7. Are there specific legal or procedural requirements instituted by the state to address the issue of the safety of youth and young adult inspectors during all aspects of the Synar inspection process?**

**a. Legal**

Yes  No

*(If Yes, please describe.)*

**b. Procedural**

Yes  No

*(If Yes, please describe.)*

Inspections are completed at a time when underage persons would ordinarily be present and only those places where youth are allowed entrance. This is for the safety of the youth as well as for the accuracy of the inspections. Officers prescreen establishments for safety and remain on site, preferably in the establishment if the officer is not known in the community. In regards to Covid-19 safety, the use of PPE is determined at the discretion of the law enforcement agency conducting the compliance checks.

**8. Are there any other legal or procedural requirements the state has regarding how inspections are to be conducted (e.g., age of youth and young adult inspector, time of inspections, training that must occur)?**

**a. Legal**

Yes  No

*(If Yes, please describe.)*

**b. Procedural**

Yes  No

*(If Yes, please describe.)*

A briefing is held prior to conducting checks. The officer-in charge will verify the minor has proper, official identification showing date of birth. The officer in charge will approve the minor's appearance and a photo shall be taken of the minor before each day of compliance checks. The minor's appearance will not be altered after this point. The minor should only have 'purchase' money provided by the law enforcement agency in their possession; no other money should be on their person. The minor is instructed to go directly to the targeted merchandise to attempt to make the purchase, speak only as necessary. At no time should the minor try to persuade the licensee clerk to complete the sale. If asked about age, the minor should present their ID to the licensee/clerk, if asked for an ID, the minor should present their ID to the licensee/clerk, if the licensee/clerk takes a minor's ID, the minor is instructed not to argue, leave the store and the officer will obtain the minor's ID and congratulate the licensee for compliance. The officer has the authority to terminate the operation at any time for safety reasons. If able, tobacco retailers, the officer is stationed inside the tobacco retail establishment or at a point from which the officer can observe the sale.

Law enforcement agents have the complete list of retail tobacco permit holders. To prevent a potential problem of handling the Synar-sampled permit holders differently, law enforcement agencies and officers do not have access to the Synar sample. The compliance checks are done uniformly for all permit holders and the compliance results recorded on-line for all checks. During FFY 23, 157 females and males ages 16-20 attempted to purchase tobacco products, after being trained to complete compliance checks. These youths are accompanied by a trained officer and make no effort to disguise their age and will wear clothing, hairstyles, and makeup similar to how they ordinarily dress. They will not have any tobacco products in their possession when they enter the store and will be instructed not to lie. If they are asked their age or birth date, they will give their actual date of birth or show their actual ID or driver's license. The officer remains in a position to be able to see the clerk at all times. If the officer knows the clerk, the officer will wait outside the establishment, but within sight of the clerk in order to visually witness the sale or sale refusal. The only exception to this would be if there is no way to witness the sale unless the officer is inside the building. Law enforcement officers are authorized but not required to use audio visual equipment to enhance the safety of the youth and also enhance evidence if there is a purchase. In order to avoid introducing a gender bias, it is suggested that females and males alternate attempts

to make a purchase. In most cases, due to the limited number of youth participating, the investigating officer will choose youth based on availability rather than the gender of the youth. Youth will attempt to purchase those brands popular with people their age and gender. Nothing but a tobacco product will be requested in order to establish the probability of an illegal sale most clearly. Nothing else will be done that might be interpreted as an attempt to deceive or entrap the clerk. Youth are trained regarding appropriate behavior whenever a clerk refuses to sell. After each inspection visit, the officer fills out the report form with input from the youth. If there was a sale, the law enforcement officer will issue a citation. The compliance check form is entered into a database which contains the following retailer information: 1) Retailer Name, 2) Retailer Address, 3) Retail Tobacco Permit Number, and 4) Type of business. The following information regarding the actual compliance check is recorded on the compliance check form: 1) Retailer Name, 2) Retailer Address, 3) Date and time of inspection, 4) Age, gender, youth identification number, race /ethnicity of the youth inspector, 5) If youth inspector's identification was requested, 6) If youth inspector's age was asked, 7) Gender of the clerk, 8) If the sale was completed, 9) Name, department and badge number of witnessing officer, 10) The attempted purchase item (cigarettes, smokeless tobacco, other tobacco product, vapor product, alternative nicotine product), 11) The form allows the officer to record if the business no longer sells tobacco products, is closed at the time of inspection, is out of business, or if there is an unsatisfactory condition (unsafe or inappropriate etc.). The officer signs the hardcopy form and there is a comment section to record any additional information. The use of electronic forms ensures complete and consistent data entry. Incomplete forms are not accepted by the system, eliminating the problem of illegible or incomplete reports. Officers inputting data receive immediate confirmation that the reports were received. The system is available 24 hours per day, which meets the needs and demands of a diverse collection of officers' work schedules. The database serves as the most accurate and reliable statewide list of tobacco retailers in Iowa. Since cities and counties issue tobacco permits locally, no reliable central repository for the information existed prior to the online collection system. Compensation of youth is left to the individual law enforcement departments. The Iowa ABD reimburses departments \$75 per compliance check. The Iowa State Patrol covers the areas where the local law enforcement does not want to conduct compliance checks. Iowa State Patrol submits reimbursement to Iowa ABD for actual costs incurred which include: officer buyback at the going rate, youth wages of \$10/ hour (3 hours minimum), officer mileage, youth meals at \$15, youth mileage which is a \$10 flat fee, and tobacco products at the going rate.

# APPENDIX D: LIST SAMPLING FRAME COVERAGE STUDY

(LIST FRAME ONLY)

State: Iowa  
FFY: 2023

1. Calendar year of the coverage study: \_\_\_\_\_

2. a. Unweighted percent coverage found: \_\_\_\_\_%  
b. Weighted percent coverage found: \_\_\_\_\_%  
c. Number of outlets found through canvassing: \_\_\_\_\_  
d. Number of outlets matched on the list frame: \_\_\_\_\_

3. a. Describe how areas were defined. (e.g., census tracts, counties, etc.)

b. Were any areas of the state excluded from sampling?

Yes  No

*If Yes, please explain.*

4. Please answer the following questions about the selection of canvassing areas.

a. Which category below best describes the sample design? (Check only one.)

Census (Go to Question 6.)

**Unstratified statewide sample:**

Simple random sample (Respond to Part b.)

Systematic random sample (Respond to Part b.)

Single-stage cluster sample (Respond to Parts b and d.)

Multistage cluster sample (Respond to Parts b and d.)

**Stratified sample:**

Simple random sample (Respond to Parts b and c.)

Systematic random sample (Respond to Parts b and c.)

Single-stage cluster sample (Respond to Parts b, c, and d.)

Multistage cluster sample (Respond to Parts b, c, and d.)

**Other** (Please describe and respond to Part b.) \_\_\_\_\_

b. Describe the sampling methods.

c. Provide a full description of the strata that were created.

d. Provide a full description of how clusters were formed.

5. Were borders of the selected areas clearly identified at the time of canvassing?

Yes  No

6. Were all sampled areas visited by canvassing teams?

Yes (*Go to Question 7.*)  No (*Respond to Parts a and b.*)

a. Was the subset of areas randomly chosen?

Yes  No

b. Describe how the subsample of visited areas was drawn. Include the number of areas sampled and the number of areas canvassed.

7. Were field observers provided with a detailed map of the canvassing areas?

Yes  No

*If No, describe the canvassing instructions given to the field observers.*

8. Were field observers instructed to find all outlets in the assigned area?

Yes  No

*If No, respond to Question 9.*

*If Yes, describe any instructions given to the field observers to ensure the entire area was canvassed, then go to Question 10.*

9. If a full canvassing was not conducted:

a. How many predetermined outlets were to be observed in each area? \_\_\_\_\_

b. What were the starting points for each area? \_\_\_\_\_

c. Were these starting points randomly chosen?

Yes  No

d. Describe the selection of the starting points.

- e. Please describe the canvassing instructions given to the field observers, including predetermined routes.

10. Describe the process field observers used to determine if an outlet sold tobacco.

11. Please provide the state's definition of "matches" or "mismatches" to the Synar sampling frame? (i.e., address, business name, business license number, etc.)

12. Provide the calculation of the weighted percent coverage (if applicable).
