Group 3 Providers Transitioning from CDR Reporting to Reporting via IBHRS XML Data Uploads

Option A: Providers using the same EHR system in reporting to CDR and IBHRS

- IDPH/FEI will complete a data migration of records from the CDR and will use the existing Source IDs (Client_no, Episode_no, Admission_no, Service_no, Discharge_no) that were submitted to the CDR.

- When submitting the IBHRS Integrated Treatment (SUD/PG) datasets to IBHRS for Treatment Episodes that began before 7/1/21, provider EHRs should use the exact same Source IDs submitted to the CDR as the Source Record Identifiers (SRIs) for IBHRS.   - NOTE – Upon submission to IBHRS, the system will find the existing records to update or link to. If a provider does not use the existing Source IDs for these records, then IBHRS would create new records (potentially duplicate records). □ For new clients that are seen for the first time on/after 7/1/21, the agency will submit IBHRS Client, Treatment Episode and Service Event datasets to IBHRS through the XML File Upload process.

Data Set Dependencies

The **Provider Data Set** must be set up by IDPH before a provider may submit any of the other data sets for acceptance and processing.

The **Client Data Set** is dependent upon data within the **Provider Data Set**.

The **Treatment Episode Data Set** is dependent upon data within the **Client Data Set**.

The **Service Event Data Set** is dependent upon data within the **Treatment Episode Data Set**.
