

WHY WOULD A CHILD NEED HEALTH INSURANCE?

 Children are vulnerable to illnesses and injuries due to constant growth and development.

 Preventive care, including routine check-ups, can help detect potential issues early.

 Crucial for covering medical bills during unexpected events.

 Provide parents and guardians peace of mind knowing their children have access to medical care.

 Sets a foundation for lifelong health and medical care into adulthood.

Hawki offers free or low-cost health insurance for kids and teens. Many working families qualify. Give your children every opportunity to succeed!
