**ATTACHMENT 3.1-A
AMOUNT, DURATION AND SCOPE OF MEDICAL
AND REMEDIAL CARE AND SERVICES PROVIDED TO THE CATEGORICALLY
NEEDY**

Covered Services

A. Except as otherwise noted below, each of the medical and remedial services described in Section E below are covered under Iowa Medicaid plan if they are:

- Consistent with the diagnosis and treatment of the patient's condition;
- In accordance with the standards of good medical practice. The standards of good practice for each field of medical and remedial care covered by Iowa Medicaid are those standards of good practice identified by knowledgeable Iowa clinicians practicing or teaching in the field and in the professional literature regarding best practices in the field.
- Required to meet the medical needs of the patient and be for reasons other than the convenience of the patient or the patient's caregiver; and
- The least costly type of service that could reasonably meet the medical needs of the patient.

No payment shall be made for any service covered under the Iowa Medicaid program, unless all state and federal restraint and seclusion regulations and guidelines applicable to the provision of such service to the individual receiving the service are fully complied with by the provider of that service. Nor shall such services be charged by the provider to the recipient.

B. Iowa Medicaid will cover services furnished in another State to the same extent that it would cover services furnished within its boundaries if the services are furnished to a recipient who is a resident of the State and any of the following conditions are met:

- (1) Medical services are needed because of a medical emergency;
- (2) Medical services are needed and the recipient's health would be endangered if he were required to travel to his or her state of residence;
- (3) The Iowa Medicaid Agency determines, on the basis of medical advice, that the needed medical services, or necessary supplementary resources are more readily available in another State;
- (4) It is the general practice for recipients in a particular locality to use medical resources in another state.

 - (1). The agency gives the recipient notice and an opportunity for a hearing (in accordance with procedures established by the agency) before imposing the restrictions.

 - (4) Ensures that the restrictions do not result in denying recipients reasonable access (taking into account geographic location and reasonable travel time) to Medicaid services of adequate quality, including emergency services.
- Clinical and other documentation of the services provided in the recipient's medical record which documentation is appropriate and sufficient for such a provider under applicable professional standards for the provider and the published requirements of the Iowa Medicaid program.  - Compliance with the quality standards of the provider (if any), or those established by Federal or State statute, rule, of other official federal or state publication for the particular type of provider.
