Metric 5a Notes

The small number of ex parte renewals is based on the timing of our eligibility determinations, which was changed when we implemented our system fix for our individuals vs household ex parte mitigation plan. The accurate number of ex parte renewals will be present for the pending renewals submissions based on CMS reporting due dates.

5d. Of the beneficiaries included in Metric 5, the number whose renewal was not completed **63208**

Unable to report **No**

Metric 5d Notes

The large number of renewals not completed is based on the timing of our eligibility determinations, which was changed when we implemented our system fix for our individuals vs household ex parte mitigation plan, as well as our Non-MAGI ex parte mitigation plan that delays pending renewals until additional outreach has been conducted and a back end ex parte renewal completed. This also causes our procedural terminations to be low on the preliminary report due to the timing of our discontinuance batch and the due date of the CMS metrics. Accurate numbers will be reflected in the final previously pending renewals submission.
