BX.1	**Payment risks between the state and plans** Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities.	In SFY2023, numerous analytic projects and work was completed focused on the managed care programs. 1. SURS Reports – Peer to peer comparisons to identify outliers and anomalies (e.g. overutilization) of providers 2. Vulnerability Assessment – More than 100 algorithms were delivered through this FWA reporting service including algorithms addressing dental vulnerabilities. 3. Algorithms – examples listed below: a. Duplicate Billing b. Other activities to note are: i. Continued work on encounter data quality to allow for improved monitoring in areas such as: 1. Ordering, referring and prescribing providers submitted on encounters as appropriate 2. Missing billing provider NPI on encounters ii. Annual audits on the PAHPs. 1. The PAHP audits are reviewing credentialing, compliance plan, and overpayment recoveries.
BX.2	**Contract standard for overpayments** Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	State has established a hybrid system
BX.3	**Location of contract provision stating overpayment standard** Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).	I.7.07.4 Recovery of Payments
BX.4	**Description of overpayment contract standard** Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.	The managed care plans are allowed to retain any overpayments they collect as a result of their identified overpayments.

BX.5	**State overpayment reporting monitoring** Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting? The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment pieces (whether annually or promptly). This indicator is asking the state how it monitors that reporting.	The managed care plans report overpayment recoveries on a monthly basis. The Department tracks timeliness, accuracy, performance, and completeness of report. The Department reviews the report for the identified overpayments to collect, the monthly amount collected, and the total to date collected. The Department audits the managed care plans to ensure the reported overpayments collected were reported correctly and the overpayments were collected by the managed care plans.
BX.6	**Changes in beneficiary circumstances** Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).	The Department runs a reconciliation of the managed care enrollment files with the incarceration, deceased, and HIPP files to determine if there were capitations payments made for those members. If there were capitation payments made, the Department will pull back capitation payments in the amount identified as being paid in error.
BX.7a	**Changes in provider circumstances: Monitoring plans** Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.	Yes
BX.7b	**Changes in provider circumstances: Metrics** Does the state use a metric or indicator to assess plan reporting performance? Select one.	No
BX.8a	**Federal database checks: Excluded person or entities** During the state's federal database checks, did the state find any person or entity excluded? Select one. Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status	No

	of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.	
BX.9a	**Website posting of 5 percent or more ownership control** Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).	No
BX.10	**Periodic audits** If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, what is the link(s) to the audit results? Refer to 42 CFR 438.602(e).	The most recent Encounter Data Validation Report can be found here: https://hhs.iowa.gov/sites/default/files/IA2022_EQR-TR_Report_F1.pdf MLR Audit will be posted when available.

Topic V. Availability, Accessibility and Network Adequacy

Network Adequacy

Find in the Excel Workbook
C1_Program_Set

Number	Indicator	Response
C1V.1	**Gaps/challenges in network adequacy** What are the state's biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting standards.	Rural areas with fewer dental providers and lack of dentists who will accept new Medicaid members due to low legislative reimbursement rates are two of Iowa's biggest network adequacy challenges.
C1V.2	**State response to gaps in network adequacy** How does the state work with MCPs to address gaps in network adequacy?	Iowa Medicaid works with dental and medical stakeholders, including the Iowa Dental Association and Iowa Public Policy Center to determine best practices and hear barriers experienced by providers to determine policy and payment practices that can be improved within the Medicaid program. Iowa Medicaid has Network Adequacy as a measurement in the contract and Dental Quality Strategy Plan which describes in further detail, activities which Iowa Medicaid is participating in to increase and improve Network Adequacy in collaboration with the PAHPs. The capitation rates are reviewed on a yearly basis to allow the PAHPs to reimburse dental providers above the fee schedule; both PAHPs reimbursed providers at a rate higher than 100% of the fee schedule.

Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

Number	Indicator	Response
D1IV.1	**Appeals resolved (at the plan level)** Enter the total number of appeals resolved during the reporting year. An appeal is "resolved" at the plan level when the plan has issued a decision, regardless of whether the decision was wholly or partially favorable or adverse to the beneficiary, and regardless of whether the beneficiary (or the beneficiary's representative) chooses to file a request for a State Fair Hearing or External Medical Review.	**Delta Dental of Iowa** 119 **MCNA** 62
D1IV.2	**Active appeals** Enter the total number of appeals still pending or in process (not yet resolved) as of the end of the reporting year.	**Delta Dental of Iowa** 13 **MCNA** 0
D1IV.3	**Appeals filed on behalf of LTSS users** Enter the total number of appeals filed during the reporting year by or on behalf of LTSS users. Enter “N/A” if not applicable. D1IV.4	**Number of critical incidents filed during the reporting period by (or on behalf of) an**	**Delta Dental of Iowa**

	LTSS user who previously filed an appeal For managed care plans that cover LTSS, enter the number of critical incidents filed within the reporting period by (or on behalf of) LTSS users who previously filed appeals in the reporting year. If the managed care plan does not cover LTSS, enter “N/A”. Also, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, enter “N/A”. The appeal and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the appeal need to have been filed in relation to delivery of LTSS — they may have been filed for any reason, related to any service received (or desired) by an LTSS user. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed an appeal during the reporting year, and whether the filing of the appeal preceded the filing of the critical incident.	N/A **MCNA** N/A
D1IV.5a	**Standard appeals for which timely resolution was provided** Enter the total number of standard appeals for which timely resolution was provided by plan during the reporting period. D1IV.13	**Number of critical incidents filed during the reporting period by (or on behalf of) an LTSS user who previously filed a grievance** For managed care plans that cover LTSS, enter the number of critical incidents filed within	**Delta Dental of Iowa** N/A **MCNA** N/A

	the reporting period by (or on behalf of) LTSS users who previously filed grievances in the reporting year. The grievance and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the grievance need to have been filed in relation to delivery of LTSS - they may have been filed for any reason, related to any service received (or desired) by an LTSS user. If the managed care plan does not cover LTSS, the state should enter "N/A" in this field. Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter "N/A" in this field. To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed a grievance during the reporting year, and whether the filing of the grievance preceded the filing of the critical incident.	
D1IV.14	**Number of grievances for which timely resolution was provided** Enter the number of grievances for which timely resolution was provided by plan during the reporting period.	**Delta Dental of Iowa** 634 **MCNA** 3,844
