

# Amerigroup Iowa, Inc.

2023 Annual provider training presentation

# Presentation overview

2023 is the year of provider self-service:

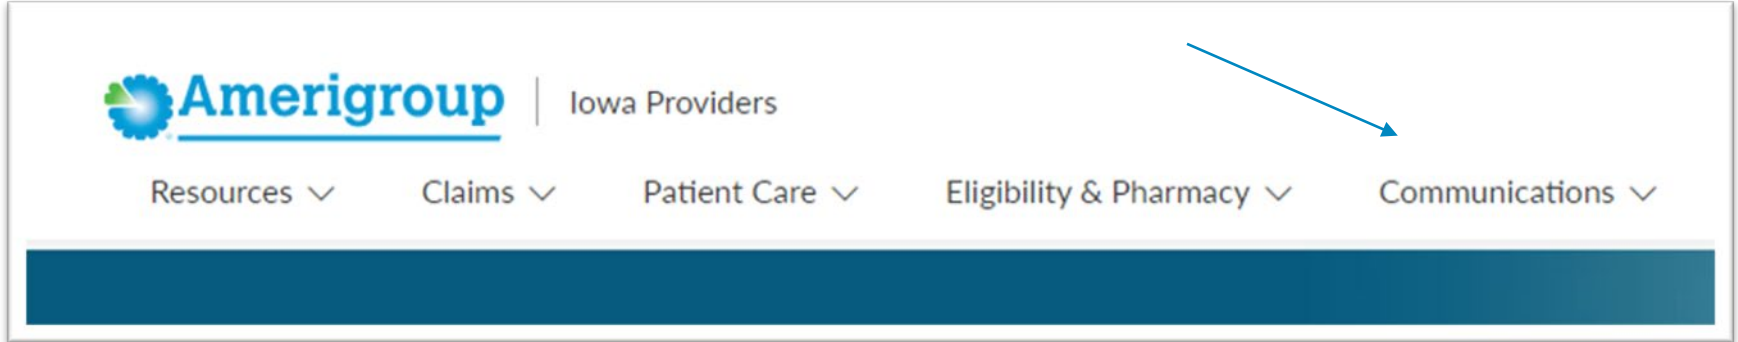

- New Provider News landing page
- Configuration issues log
- Provider tools and resources
- Patient care
- Long-term services and support (LTSS) update
- Availity Essentials\* tools

# Provider self-service tools

[<https://provider.amerigroup.com/iowa-provider/home>]

# Provider News landing page

Navigate to Provider News under the Communications tab of our website.

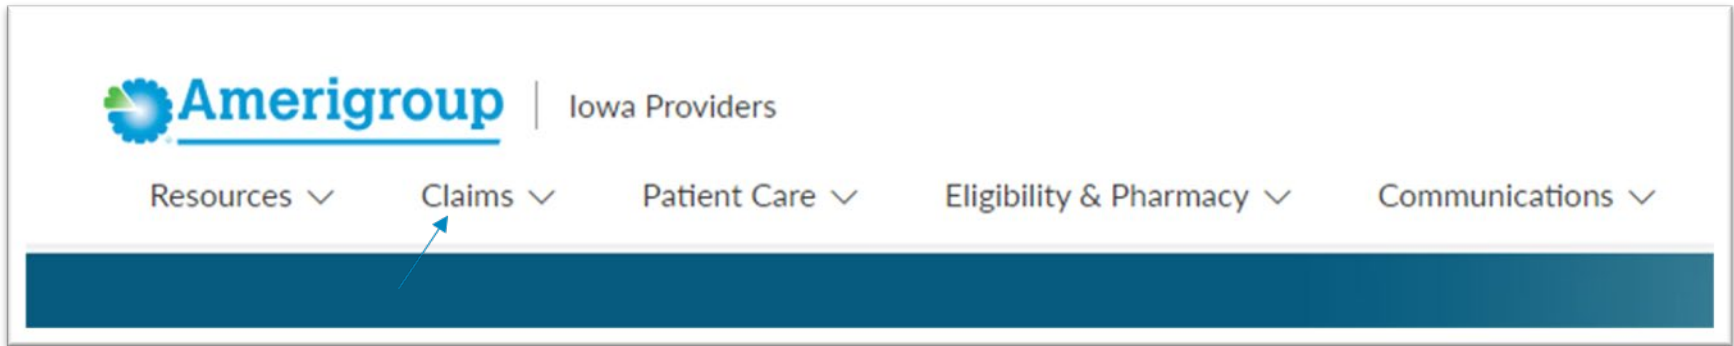

# Provider News

## Search:

- By keyword.
- By date.
- By common categories.
- By line of business (Children's Health Insurance Program, Medicaid, Medicare Advantage)
- Recent publications by month.
  - News feed keeps the most recent on top.

The screenshot shows the Amerigroup Iowa Provider News website. At the top left is the Amerigroup logo, and to its right is the text "PROVIDER NEWS Iowa". Below the logo is a search bar with two date input fields, each containing "mm/dd/yyyy" and a calendar icon. The main content area is divided into sections: "Recent Updates" (indicated by a green vertical bar), "Categories" (with a list of topics), and "Recent Publications" (with a list of newsletters). The categories listed are: Administrative, Digital Tools, Behavioral Health, Education and Training, Policy Updates, Medical Policy & Clinical Guidelines, Prior Authorization, Reimbursement Policies, Products & Programs, Pharmacy, and Quality Management. The recent publications listed are: Children's Health Insurance Program, Medicaid, and Medicare Advantage. The recent publications section shows "September 2023 Provider Newsletter" and "August 2023 Provider Newsletter".

# Claims configuration issues log

- Navigate to Claims Overview under the Claims tab of our website.
- Scroll down to Claims Resources and identify the PDF system configuration updates.
- A sample is on the next page.

# Amerigroup system configuration updates

## Amerigroup Iowa, Inc. system configuration updates

The table below provides information related to claims issues impacting several providers. This information will be updated weekly on Fridays. Continue to follow the existing process by reaching out to your Provider Relationship Management representative for concerns.

Known system issue	Brief description	Date issue identified	Status	Provider types impacted	Number of providers impacted	Expected completion date	Expected claims reprocessing date
Medicare COB Overpayments; Corrected Claims	Amerigroup uses specialized extensions within our claims processing system to adjudicate coordinated claims. It has been identified there is a flaw that is impacting select coordinated claims by not applying lesser of logic to Medicare COB claims. This issue is unique to corrected claims. In the instances where the owed amount by Amerigroup should be limited to the member's copay, coinsurance, or deductible, this is not always occurring without manual intervention. Short-term solutions are being sought in advance of the system fix slated to occur in July 2023. This issue is only impacting Medicare COB claims, not commercial.	5/23/2023	In progress	All where Medicare is primary payer	305	10/25/2023	N/A These are overpayments. Amerigroup does review for overpayments within cost containment. Providers should follow applicable guidelines for self-identification of overpayments.
Info Letter 2274; IHAWP Sleep Study (95810 coverage)	Iowa Health and Wellness Plan (IAHWP) members pursuant with Info Letter 2274 have certain benefit limit restrictions as outlined via CMS LCD A56903. Code 95810 is considered reimbursable with ICD-10-CM: G4710 – Hypersomnia and are presently denied as non-covered benefits in error. This issue is isolated to claims submitted on facility claims form (CMS-1450) and is not presently impacting professional claims (CMS-1500). Amerigroup is working on restoring edits to CMS guidelines and will reprocess all otherwise clean claim submissions.	6/28/2023	Complete	Physicians, advanced registered nurse practitioners, physician assistants, and clinics	7	Complete 7/28/2023	Complete 8/16/2023

Carelon Behavioral Health, Inc. is an independent company providing utilization management services on behalf of the health plan.

# Long-term services and supports updates

# Long-term services and supports:

- Four Network Relations Specialists
- Workforce Development Manager
- Director Provider Relationship Account Management

This team provides additional support to the LTSS care provider network related to:

- Targeted training related to LTSS care provider and member needs.
- Assisting care providers with member transition from facility to community.
- Commitment to improving the health, safety and quality of care for members.
- Onboarding materials and training specific for LTSS care providers.
- Improved quality of care for members.
- Increased network capacity.

# Long-term services and supports

The LTSS Workforce Development Manager works collaboratively with contracted care providers and stakeholders to improve member outcomes by ensuring care providers are qualified, trained, and sufficiently staffed to meet member needs.

The WFD Manager is responsible to:

- Develop and administer tools to monitor and collect information on workforce.
- Analyze and educate current and future healthcare workforce trends.
- Assist care providers in forecasting workforce capacity and training needs.
- Assist the LTSS provider network to support the education and development of current and future workforce.

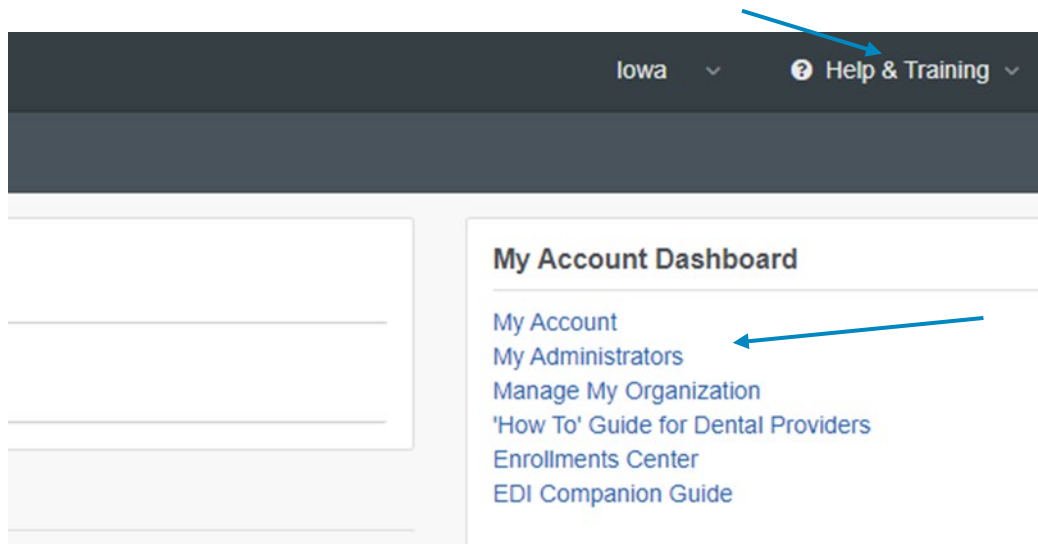

# Availity Essentials tools

[\[Availity.com\]](https://www.availity.com)

# Availity Essential tools and self-guided learning:
