Introduction

- What is IMPA?

Case Management Details. Service Plan Details.

Collaboration with case managers. Health homes providing services to members eligible pursuant to 441—subparagraph 78.53(2)"a"(1) or (2) must collaborate, at least quarterly, with targeted case managers, other case managers, or DHS service workers for each member receiving case management services. Strategies to prevent duplication of coordination efforts by the health home and case managers or service workers must be developed by the health home and documented upon request. Documentation may include but is not limited to records of joint staffing meetings where a member's medical needs, current activities, and waiver services needs are reviewed and appropriately updated.

Do you wish to continue?

YES NO

- This disclosure means that you're agreeing that you will, at minimum, make quarterly contact with the member's case manager to ensure nonduplication of services. In most all cases, the case manager is the Integrated Health Home.

Updating an Assessment and/or Tier Change

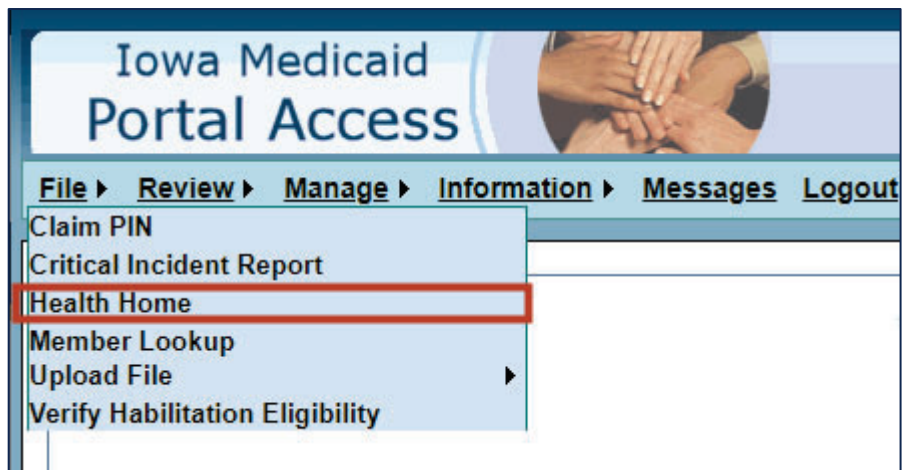

What Does an Assessment Mean?

The assessment for IMPA is the Health Home's review of the member's eligibility to be enrolled in a Health Home.

- The assessment date in IMPA is not the same as the due date for the comprehensive assessment and/or level of care (LOC).
 - The Health Home must conduct a file review of the member that includes functional impairment as defined in the SPA.
 - The file review must be documented in the member's chart.
 - The member's tier must be supported in the documentation.
 - The assessment for IMPA must be conducted annually.
 - If the assessment date is not updated at least annually, at month 13 (month after the due date), the member's tier will change to 0.
 - If the assessment date is not updated in IMPA by month 14 (2 months after due date), the system will automatically disenroll the member.
