

# Child Care Search

## Linking Families to Quality Care, One Connection at a Time

Iowa leads the nation with innovative child care solutions for families, child care businesses/providers, employers, and communities with the launch of the Child Care Search. The new application provides an easy way for families to find child care providers with openings and for child care providers to fill openings faster. To get started, simply enter your home address as a starting point and your destination and see your results.

## How does Child Care Search help Iowa?

The Child Care Search is powered by Iowa Child Care Connect (C3), a modern technology solution that integrates data from multiple systems in near-real-time to deliver the information families need when they need it.

### Empower

- Child care business sustainability by marketing their vacancies
- Out-of-state workers to relocate to thriving Iowa communities

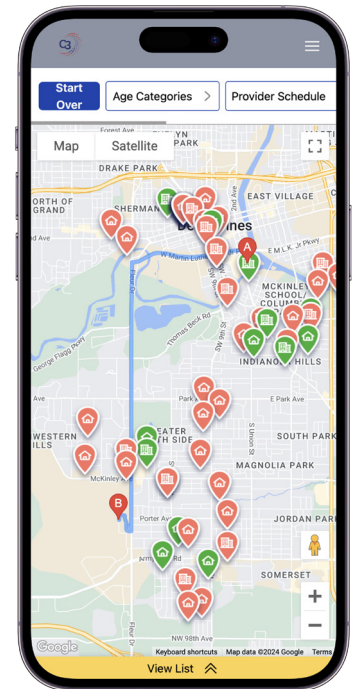

### Connect

- Families with the care they need when they need it
- Out-of-state commuters with Iowa child care

### Enhance

- Employer recruitment strategies by showcasing available child care options in communities
- Community economic development conversations with businesses interested in building or expanding operations

## How does Child Care Search help families?

The Child Care Search is a family-friendly app that helps you find child care vacancies and allows you to:

- Search for child care along your commute
- Filter results by your family's needs and ages of your children
- Add multiple stops to your route
- See the impact of your selection on drive time
- Favorite and compare providers

Funding provided by the Iowa Department of Health and Human Services through the Child Care and Development Fund.
