The following incidents resulted in issuance of this proposed action:

You have admitted to accessing the pharmacy utilized by the service program with which you were employed to attain 82 units of fentanyl (a schedule II controlled substance), 9 units of morphine (a schedule II controlled substance), and 13 units of Zofran (a schedule IV controlled substance) for personal use between March and August of 2015. You also admitted to using narcotics left over after patient care instead of properly wasting the medication.

In addition, on November 20, 2012, the Department issued to you a letter of warning related to your 2006 conviction for attempted possession of a controlled substance. This letter warned you that further violations of the Department's statutes or administrative rules could result in revocation of your emergency medical care provider certification.

You may apply to the department for reinstatement after one year from the effective date of this notice. When submitting an application for reinstatement, you must allege facts which, if established, will be sufficient to enable the department to determine that the basis for the revocation of your certification no longer exists and that it will be in the public interest for the certification to be reinstated (IAC 641—131.9).

You have the right to request a hearing concerning this notice of disciplinary action. A request for a hearing must be submitted in writing to the Department by certified mail, return receipt requested, within twenty (20) days of receipt of this Notice of Proposed Action. Prior to or at the hearing, the Department may rescind the notice upon satisfaction that the reason for the action has been or will be removed.

If no request for a hearing is received within the twenty (20) day time period, the disciplinary action proposed herein shall become effective and shall be final agency action.
