- Classes of persons that will benefit from the proposed rulemaking:

No specific class of persons will benefit from this rulemaking, but neither will any be harmed.

2. Impact of the proposed rulemaking, economic or otherwise, including the nature and amount of all the different kinds of costs that would be incurred:

- Quantitative description of impact:

The elimination of one administrative chapter.

- Qualitative description of impact:

Rescinding this chapter and moving relevant language to 641—Chapter 132 will create a more streamlined, all-encompassing emergency medical services program authorization chapter.

3. Costs to the State:

- Implementation and enforcement costs borne by the agency or any other agency:
