Objectives:

- ▶ Understand the relationship between quality oversight tasks of the Iowa Medicaid Quality Improvement Organization (QIO).
- ▶ Learn about how the self-assessment process relates to quality oversight.
- ▶ Discover the requirements for completion and submission of the self-assessment for 2024.

Medicaid Quality Oversight

Community-based neurobehavioral rehabilitation services (CNRS) Provider Quality Self-Assessment process was developed in 2018 as one method for the state to gather data to support the quality framework performance measures as required by the Centers for Medicare and Medicaid Services (CMS).

The annual provider self-assessment process mirrors a CMS review process by requiring providers to attest to a system of monitoring their own performance and establishing corrective action, if needed, through this quality oversight process.

Medicaid State Oversight

Telligen contracts with the state of Iowa as the Quality Improvement Organization (QIO) for our state's long term care population.

QIO HCBS provides oversight for approximately 460 enrolled HCBS and Habilitation providers, primary functions include:

Incident & Complaint Specialists

- Critical incident management
- Complaint investigation
- Targeted reviews

Provider Quality Specialists

- Quality oversight reviews
- Technical assistance
- HCBS applications

Member Experience Specialists

- Individual Participant Experience Surveys (IPES)
- Community-Based Case Manager (CBCM) service plan ride-alongs
- Self-directed services

QIO CNRS Review Process

- ▶ CNRS providers are reviewed on a 3-year review cycle.
- ▶ All review types are evidence-based:
 - Policy and procedure
 - Member files
 - Staff/personnel files
- ▶ Can result in the issuance of corrective action plans (CAPs):
 - Detailed plans that providers create to explain how they will remediate the issue.
 - Evidence of implementation of that CAP is requested to verify the provider has met compliance.

Quality Oversight Processes

- ▶ Iowa's approach to quality oversight and ensuring compliance with rules and regulations. This is an ongoing cycle.
- Discovery - Intentional, structured, and measured review of evidence to determine if a requirement or goal is met.
- Remediation – action plan taken to fix a discovered problem.
- Improvement - Re-assessment and analysis of compliance to assess effectiveness.

Quality Oversight Processes

- Self-assessment is the foundation from which to build your own internal oversight processes
- Completion of the SA requires providers to ask if they have policies and processes in place, and can they provide evidence of Iowa HCBS rules, requirements and best practice.
- Helps improve the outcome of your review.

Self-Assessment 2024

- ▶ This is an annual requirement
- ▶ Always improving from year to year based on feedback, enhancements, and necessary changes
- ▶ Participation is required to maintain enrollment as a CNRS provider
- ▶ Failure to submit will result in a sanction of payment suspension and may result in disenrollment from CNRS services.

Section III. Self-Assessment Questionnaire

▶ Select the most appropriate response.

- Yes = your organization meets the standards and can provide verifiable evidence. The standard may be required by Iowa Medicaid law or rule, your own internal policy, as best practice, or because of another oversight entity outside of Iowa Medicaid.
- No = your organization does not meet the standard or cannot provide evidence, but are required to by law, rule, your own policy, or the standard is otherwise necessary for the services your organization is enrolled to provide.
 - If you select No, you must describe a plan in the designated box that explains what you will do to correct the problem with specific timelines for achieving compliance.
 - This plan may be referred to a remediation plan, corrective action plan, or “CAP”.
- NA = standard is not required by law, rule, or organization policy for the services you are enrolled to provide.

▶ At the end of each topic, there is a free-text box for your organization to highlight how your organization meets or exceeds the requirements.

Section III. Self-Assessment Questionnaire (Continued)

Section III. Self-Assessment Questionnaire consists of the following areas:

- A. Organizational Standards

- To provide quality services to members, organizations need to have sound administrative and organizational practices and a high degree of accountability and integrity. Organizations should have a planned, systematic, organization-wide approach to designing, measuring, evaluating, and improving its level of performance.

- B. Personnel and Training

- Providers need to have qualified employees commensurate with the needs of the members served and requirements for the employee's position. Employees should be competent to perform duties and interact with members.

Section III. Self-Assessment Questionnaire (Continued)

- C. Policies and Procedures

- This section focuses on the core set of policies and procedures which guide the provision of services. Policies and procedures outline day-to-day operations, ensure compliance with laws and regulations, and guide staff. Policies and procedures are implemented so that members receive fair, equal, consistent, and positive service experiences.
