|                       | them that their data will start connecting to the registry.  |

| <ul> <li>PHEP-HPP report for Brent Spear:</li> <li>We are in a new 5-year project cycle (many may hear it as "RFP" in meetings). This means that any entity that qualifies for our grant could apply to become a new contract holder for their service area. We do not anticipate many changes to contract holders, but we are currently accepting RFP applications and will be reviewing these soon. The new 5-year contract holders.</li> <li>Many of the EMS county associations that work with our grant are in the process of submitting EMS assessments. These are due 2/1. If any agency has any questions regarding these assessments or other required EMS preparedness documentation due later in the year, we encourage them to reach out to their local Grant Coordinator or can reach out to me (natalie.webster@hts.iowa.gov).</li> <li>Our STB initiative is still in full swing. Many service areas have used "carryover" funding (left over funding from last year) to further expand STB outreach. Kits are being placed in schools, school busses, governmental buildings and much more. We have also incentivized local police departments. If a police department is providing some STB training within their service area, then we are in turn providing STB kits to police persons or vehicles. We are also encouraging as much STB training as possible and trying to increase the amount of STB instructors within the state.</li> <li>We have finalized our 5-year preparedness strategic plan. This plan outlines our goals for the next 5 years within the program. We will be releasing the plan next week if any EMS agency is interested in reading the preparedness goals.</li> <li>Preparedness has an ongoing monthly newsletter. This newsletter outlines current preparedness activities, due dates, training opportunities and then orwarded to service area members. If an EMS person or agency is not receiving the newsletter and would like to, please let us know and we will be sure to have them added to the list.</li> <li>Law Enforcement AED update report from Neil Wellner:&lt;</li></ul> |       | We will work through any kinks then work through |

Many service areas have used "carryover" funding (left over funding from last year) to further expand STB outreach. Kits are being placed in schools, school busses, governmental buildings and much more. We have also incentivized local police departments. If a police department is providing some STB training within their service area, then we are in turn providing STB kits to police persons or vehicles. We are also encouraging as much STB training as possible and trying to increase the amount of STB instructors within the state.</li> <li>We have finalized our 5-year preparedness strategic plan. This plan outlines our goals for the next 5 years within the program. We will be releasing the plan next week if any EMS agency is interested in reading the preparedness goals.</li> <li>Preparedness has an ongoing monthly newsletter. This newsletter outlines current preparedness activities, due dates, training opportunities and more. Newsletters are sent to Grant Coordinators and then forwarded to service area members. If an EMS person or agency is not receiving the newsletter and would like to, please let us know and we will be sure to have them added to the list.</li> <li>Law Enforcement AED update report from Neil Wellner: <ul> <li>2024 we saw 537 deployments with 3950 AEDs in the</li> </ul> </li> </ul>  |       |  |
| <ul> <li>currently accepting RFP applications and will be reviewing these soon. The new 5-year contract holders for our grants will be given notice in the coming months.</li> <li>Many of the EMS county associations that work with our grant are in the process of submitting EMS assessments. These are due 2/1. If any agency has any questions regarding these assessments or other required EMS preparedness documentation due later in the year, we encourage them to reach out to their local Grant Coordinator or can reach out to me (natalie.webster@hhs.iowa.gov).</li> <li>Our STB initiative is still in full swing. | • We continue to see outcomes improving with the early   |
|--|
| <ul> <li>deployment of an AED.</li> <li>We are continuing to update agency contacts, working<br/>on our recognition program and where we would like to<br/>age this program go in the future.</li> </ul> |
| see this program go in the future.   |
| • FR-CARP report by Regan Aeschliman:  |
| <ul> <li>At the end of year one, we have shipped 764 2-dose IN<br/>kits and 1235 IV doses to our participating agencies.</li> </ul>  |
| <ul> <li>A new agency has launched their naloxone secondary</li> </ul>   |
| distribution program on January 1st, 2025. This makes a  |
| total of 3 so far that have taken the initial steps to for this  |
| program.   |
| <ul> <li>Working on a data dashboard to better utilize our</li> </ul>  |
| program data and identify areas of improvement.  |
| <ul> <li>Data Reports by Terry Smith:</li> </ul>   |
| <ul> <li>Adding to what Margot reported on with CARES. These</li> </ul>  |
| 20 services will see all these new cardiac elements in   |
| their form, and they will have the care validation rules   |
| applied to just those services. Everybody who uses the state default form will see the new elements, so they're  |
| very welcome to fill those in if they'd like.  |
| <ul> <li>We're uploading just under 400 Public Safety agencies</li> </ul>  |
| to the supporting agencies within Elite. They will all be  |
| set to inactive so if services want to choose them, they'll  |
| have to activate that agency and put it into their incident  |
| form.  |
| <ul> <li>January 16<sup>th</sup>, ImageTrend is moving over to cloud</li> </ul>  |
| <ul><li>serves and Elite will be down for a few hours that day.</li><li>CHEMPACK update report from Katie Dekker:</li></ul>  |
| <ul> <li>CHEMPACK update report from Katle Dekker:</li> <li>The state's updated CHEMPACK policies and</li> </ul>   |
| procedures are in their final phase of review. Katie   |
| Dekker will be putting together a group with the site  |
| contacts. Her goal is to have discussions pertaining to  |
| education/training, networking and information sharing   |
| pertaining to the CHEMPACK program.  |
| EMS-C report by Vicki Petersen:  |
| <ul> <li>The Pediatric Emergency Care Coordinator (PECC)</li> </ul>  |
| program brings together people from EMS agencies,  |
| hospitals, or others who represent links in the chain of<br>emergency care for kids. Information is sent to PECCs  |
| and free continuing education is provided. There are   |
| currently about 640 PECCs. A steering committee is   |
| being started and that group will help identify priorities   |
| and different ways to help our agencies and hospitals  |
| increase education and their connection to each other.   |
|  |

|   | <ul> <li>The Pre-hospital Pediatric Readiness Project<br/>Assessment is a nationwide assessment of EMS<br/>agencies distributed for the first time in mid-2024. The<br/>results have been tabulated and they will be published<br/>in February. The assessment provides individual results<br/>to agencies and aggregate state and national data to<br/>create a baseline for existing readiness to care for<br/>children and help identify priorities for EMSC work.</li> </ul>   |

| Organizational<br>Reports:  | <ul> <li>CP-MIH report for Dr. Thomas Striegel/Fiona Johnson:</li> <li>Had a brief meeting last month to discuss putting the meetings together for this year. The last 6 months or so we haven't had any activity.</li> </ul>  |
| <ul> <li>CP-MIH Sub-<br/>Committee</li> <li>EMS Training<br/>Program Sub-<br/>Committee</li> <li>Iowa EMS<br/>Association</li> <li>Medical Director</li> <li>Pilot Projects</li> <li>QASP Sub-<br/>Committee</li> <li>EMS Physician<br/>Workgroup</li> <li>System Standards<br/>Sub-Committee</li> <li>TSAC (Trauma<br/>System Advisory<br/>Council)</li> </ul> | <ul> <li>EMS Training Program report by Paul Ganss: <ul> <li>The group has developed SMC for EMR and EMT courses. 2025 will be the sunset year for the current psychomotor exams for EMR and EMT and replaced with the SMCs. Currently there are 6 training programs that are currently using the new format. EMSLRC has graduated 3 cohorts with success. The SMC requires some specific benchmarks that have to be met with the students doing to clinical and field time so we can see that we are actually verifying that the students are coming out of the program possessing the entry level skills for EMRs and EMTs. Also, the training programs Medical Director and advisory committee get to give input on the SMCs, so the community gets input on what the program is turning out.</li> </ul> </li> <li>Iowa EMS Association update report by Jeff Messerole: <ul> <li>Tracy Fultz has stepped into the President role. He's a service director for Mercy's flight program and for Sioux Center Ambulance.</li> <li>Dr. Striegel has contracted as their Medical Director. They are excited to have him as their MD.</li> </ul> </li> <li>QASP report by Jeff Messerole: <ul> <li>No report as he was speaking at NAEMSP</li> <li>Pilot Projects by Jacob Dodds:</li> <li>Currently there are no active pilot projects</li> </ul> </li> <li>EMS Physicians report for Dr. Carter: <ul> <li>Discussion was had about our goals going forward after the Red Tape Review is over and updating the Scope of Practice.</li> </ul> </li> </ul> |

|                               | <ul> <li>We've also implemented a physician exception form, similar to our RN and PA exception. This will not apply to those MD's who are riding along with their minimum staffed crew as the services MD. This will apply for those physicians who are an active member and who make up part of the minimum staffing.</li> <li>We're also working on developing a specific training to cover those areas such as ambulance operations, so the exceptions are able to function in the EMS environment safely and be credentialed to the services level of authorization.</li> <li>System Standards report by Gary Merrill:         <ul> <li>Due to EMSAC being retooled, everything is on hold as far as subcommittees so nothing to report.</li> </ul> </li> <li>TSAC report by Jill Wheeler:         <ul> <li>Next meeting is January 21<sup>st</sup> at 1300 and will be keeping that meeting as a Zoom meeting due to the larger number of attendees.</li> <li>Iowa Trauma Registry report for 2023 is now published and available for you on our website. This is an overall view of trauma, injury, and the magnitude on our entire state.</li> <li>ACS Trauma System consultation review is coming up in September 2025. The American College of Surgeons came to the state in 2015 to review the overall trauma system and we are essentially doing a self-assessment of how our trauma system works. This includes everything from pre-hospital to how the military plays a roleeverything trauma related.</li> </ul> </li> </ul> |
