Iowa Care for Yourself – Breast and Cervical Screening Program (CFY-BCC)

FY27 (June 30, 2026 – June 29, 2027)

Updated:8.13.25

The International Classification of Diseases, Tenth Revision, Clinical Modification Diagnosis Codes ICD-10-CM

The ICD-10 Diagnosis Codes listed below are codes that may be used with Iowa Care for Yourself-Breast and Cervical Cancer Screening (CFY-BCC) Program-covered CPT codes, for reimbursement by the CFY-BCC Program. These ICD-10 Diagnosis Codes explain why a participant may require or was required to undergo a CFY-BCC Program-covered procedure. ICD-10 codes themselves do not constitute CFY-BCC Program-reimbursable procedures. For example, a participant may need additional breast imagery because at one point they had received a Z15.01 diagnosis (Genetic susceptibility to disease: Genetic susceptibility to malignant neoplasm of breast). It does not mean that the CFY-BCC Program will cover costs of a participant's genetic testing for disease susceptibility (it does not). For a list of procedures that are reimbursable by the CFY-BCC Program, please refer to the CPT code list of CFY-BCC Program-reimbursable procedures. CFY-BCC Program covered procedures are reimbursed at Iowa Medicare Part B rates.
