

2024 HIV and Hepatitis Prevention Program Snapshot

Condom Distribution

The HIV and Hepatitis Prevention Program reported an annual distribution of 2,335,178 condoms statewide in partnership with 277 organizations.

- This represents a 6% increase in total distribution compared to 2023.
- 1,217 individual supply packages were shipped directly to Iowa homes upon request, a decrease of 29% compared to 2023.

Statewide Condom Distribution 2020-2024

In addition to condoms, the following supplies were distributed:

382,220 lubricants

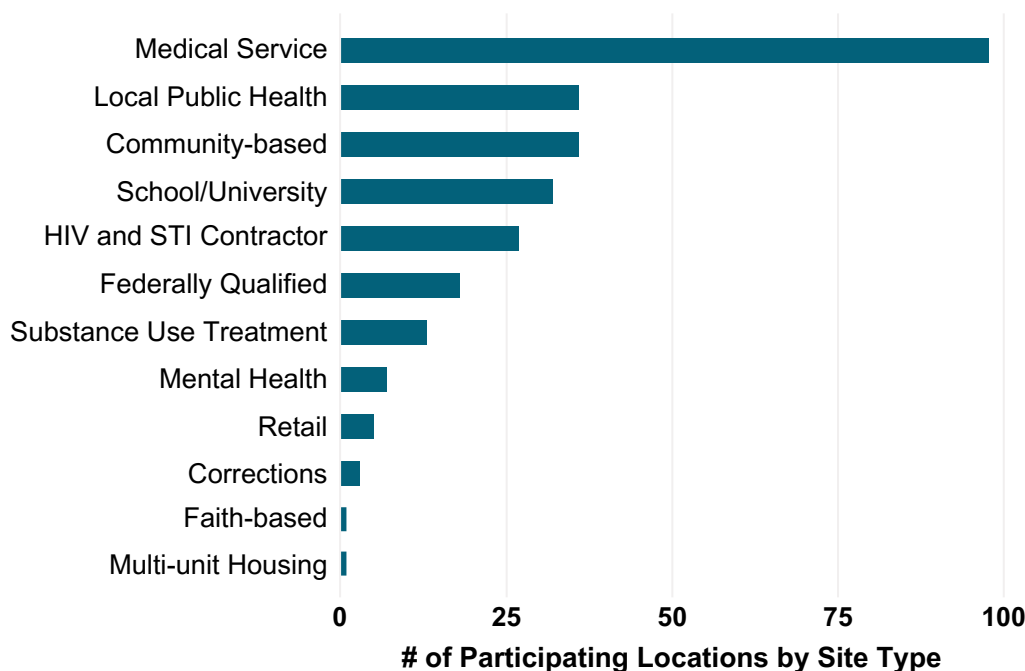

72,800 dental dams

94 dispenser units

2024 Condom Distribution Location Settings

A variety of partners participated in distribution activities in 2024.

Medical and other health and social service settings were the highest utilizers of the system. Additional work to engage non-traditional partners may benefit future distribution efforts.
