

# Child Care Sanitizing Procedure

1

**Spray the surface with a soap-water solution or an all-purpose cleaner (follow label directions).**

2

**Clean the surface with a paper towel or single-use cloth. Rinse according to product label instructions.**

3

**Use an EPA-approved sanitizer and follow the product's label directions.**

4

**Spray the surface with the sanitizer. Keep children away from the spray and wet surfaces.**

5

**Ensure the surface remains wet for the appropriate dwell time stated on the product's label. Set a timer to keep track.**

6

**Allow the surface to air dry or dry with a paper towel or single-use cloth.**

**Ensure Safety: Always read and follow all directions on product labels!**
