

# State of Iowa Youth Advisory Council

## 2026 Legislative Priorities

### Mental Health Resource Accessibility

We want schools to post easy to find mental health resources online. Students deserve support that's actually accessible.

### Student Voice on School Boards

Move forward with Senate File 86 (AKA a *bill*) to let students join school boards as representative. Schools should hear directly from the people who live the experience everyday.

### Excused Absence for Civic Engagement

Students should get one excused day to take part in civic activities. It helps students show up, speak up, and learn by doing it.
