

Iowa Health and Human Services Lung Cancer Service Entity Agreement

This agreement is entered into between the Iowa Department of Health and Human Services (Agency) and the service provider entity identified in the signature block at the end of this document (Service Entity). The Service Entity's legal name, as it appears on the entity's tax documents, National Provider Identifier (NPI) registration, and related official records, shall be used in this agreement.

I. Purpose

This agreement outlines the responsibilities of both parties to ensure that participants of the Iowa HHS Lung Cancer Screening Program (Program) receive timely and appropriate screening, diagnostic, and treatment follow-up services related to lung cancer screening abnormalities. The Program is currently supported by federal funds administered by the Centers for Medicare & Medicaid Services (CMS) under the Rural Health Transformation (RHT) Program. The Agency may, at its discretion, supplement Program funding with other federal or state funds. Such supplementation will not require a formal amendment unless it results in a material change to reimbursement rates, covered services, eligibility, reporting, or compliance obligations.

II. Responsibility of the Service Entity

The Service Entity agrees to:

1. **Adhere to Professional Standards:** Adhere to professional standards and levels of service as set forth in all applicable, local, state, and federal laws, rules, and regulations as well as administrative policies and procedures set forth by the Agency relating to services performed under this agreement.
2. **Assure Civil Rights and Privacy Compliance:** Abide, to the extent required, by the provisions of:
 - i. Title VI of the Civil Rights Act of 1964, as amended.
 - ii. Section 504 of the Rehabilitation Act of 1973, as well as the Americans with Disabilities Act of 1990 (42 U.S.C. § 12101), and associated regulations (28 C.F.R. §§ 36.101–.999).
 - iii. The Health Insurance Portability and Accountability Act of 1996 (HIPAA) and associated regulations (45 C.F.R. parts 160 and 164), and all applicable laws protecting the confidentiality of patients and members receiving services through Iowa HHS, Medicaid, and other programs.
3. **Ensure Enrollment of Facilities Providing Services:** This agreement covers all facilities associated to the Tax ID# listed in the signature block.
 - a. **Provide Tax Information:** The Service Entity shall provide a completed IRS Form W-9 upon execution of this agreement or as requested by the Agency. A W-9 form is required only once per Tax ID# associated with this agreement, unless there are changes to the entity's tax information.
 - b. Individual facilities, providing services authorized by the Program, associated with this Tax ID#, must provide documentation to the Program. To become an approved facility, facilities should follow enrollment procedures on the Iowa HHS website.

- i. Provide NPI information for providers or facilities providing approved services.
 - ii. Under the Clinical Laboratory Improvement Amendments (CLIA), any facility that performs even one test on human specimens for diagnosis, prevention, or treatment of disease is considered a laboratory and must have a CLIA certificate. If an individual facility is providing these services, a CLIA certificate is required upon application for enrollment from individual facilities. It is the Service Entities responsibility to ensure individual approved facilities send current CLIA certificates to the Program.
 1. At each renewal, approximately every 2 years, within 5 business days.
 2. If a provider adds a new reference lab or changes test complexity, a new CLIA certificate must be sent to the Program within 5 business days.
 3. Approved facilities must notify the Program within 5 business days of any CLIA suspension, revocation, lapse, or change in certificate type.

6. **Submit Claims for Program Services Performed:** Bill only for services authorized by the Program and performed for eligible Program participants.
7. **Accept Reimbursement at Medicare Part B Rates:** Accept claim reimbursement at Medicare Part B, participating provider rates for Iowa. Services will be reimbursed at the current Medicaid Part B reimbursement rate.
8. **Seek Preauthorization When Required:** Obtain written authorization from the local program before delivering any procedure not already authorized.

Example: *Proceed with routine diagnostic work aligned to the authorized pathway without pre-authorization. If a procedure beyond the routine scope (e.g., advanced bronchoscopy or intervention) is indicated, schedule a separate session and obtain written authorization from the local program before performing that advanced procedure, unless emergent care is clinically required.*

9. **Assure Timely Claims Submission:** Submit claims within 180 days of the service date. Claims submitted after this period will not be reimbursed by the Agency, and the Service Entity agrees not to bill or seek reimbursement from the participant.

For services allowable under the CMS Rural Health Transformation (RHT) award, the Program will reimburse in accordance with RHT terms and conditions. The Service Entity must follow RHT billing requirements and attest that no participant balance billing will occur. The Program is restricted to uninsured individuals under CMS Rural Health Transformation (RHT) funding requirements. The Service Entity must make reasonable efforts to verify participant insurance status based on information provided by the participant. If a participant represents themselves as uninsured and the Service Entity later discovers active insurance coverage, the Service Entity shall bill the participant's insurance. In these circumstances, neither the Service Entity nor the local program will be penalized for the participant's inaccurate reporting. In such cases, the Program functions as the payor of last resort, and only the remaining balance, up to the Medicare Part B rate, may be billed to the Program after insurance payment is applied.

For services not allowable under RHT or when RHT funds are unavailable or exhausted, the Program operates as the payor of last resort. Insurance or other sources of payment must be billed and payment received prior to billing the Program. The Service Entity shall submit the EOB from the other payment source to document any remaining claim amount, up to the Medicare Part B participating provider reimbursement rate for Iowa, requested from the Program.

10. **No Duplication of Payment:** Program reimbursement shall not duplicate payments received from insurance or any other payer. Under no circumstances may the Service Entity bill the participant.
11. **Agree Not to Bill Participant:** Participants may not be billed for services covered under the Program.
12. **Accept the Program's Reimbursement as Payment in Full:** By entering into this agreement, Service Entity agrees to accept the Program reimbursement rate as payment in full and will not bill the participant for additional costs for the Program services provided.
13. **Maintain Licensure:** Ensure all staff providing Program services are appropriately licensed and practicing within their professional scope.
14. **Maintain Records:** Maintain accurate documentation of all services rendered under the Program. Retain records for six (6) years. Records must be made available to the Agency upon request.
