Dr. Collin Lodico, Executive Director Family Counseling and Psychology Center, PC 605 N. Main Street Davenport, Iowa 52803

Dear Dr. Lodico:

Attached is a copy of the Licensure Inspection Report completed by the Division of Behavioral Health following the licensure virtual site inspection of Family Counseling and Psychology Center, PC, 605 N. Main Street, Davenport, Iowa, on January 19, 2022. A two-year license will be recommended to the Iowa Board of Health Substance Abuse/Problem Gambling Program Licensure Committee. We hope the enclosed report will be of assistance for continued and ongoing program improvement.

This report is composed of the following sections:

- Licensure Inspection Weighting Report;
- Licensure team's recommendations for licensure;
- Completed programmatic check list which identifies the degree of compliance with specific licensure standards; and
- A summary of the inspectors' basis for areas found to be in non-compliance with the licensure standards.

Your current license, which expired November 5, 2021, remains valid until final action is taken by the Substance Abuse/Problem Gambling Program Licensure Committee on this application, per Iowa Code Chapter 17A.18.

Your application for licensure will be reviewed during the Committee's teleconference meeting on Wednesday, March 9, 2022 at 9:00 am. Please let me know if you would like to participate in this meeting and a phone number will be provided to you. *Program representation is welcomed but not required.* 

If you have questions, please contact me at Amanda. McCurley@idph.iowa.gov or (515) 218-0630.

Sincerely,

Amanda McCurley Health Facilities Surveyor Bureau of Substance Abuse

\*Technical assistance was provided during the virtual site inspection. Licensee was provided specific technical assistance on the following areas of non-compliance:

 Licensee was informed that DCI Record Checks and DHS Child Abuse and Dependent Abuse Registry checks must be completed on all new staff applicants and prior to permanent acceptance of a person as a staff. Licensee provided the following response after the site visit via email on January 26, 2022:

"For Dr. Lodico and Dr. Frainey, I know we had the IA Criminal History check on file at one point in time, but as I've mentioned previously, the prior office staff left abruptly and with many things in disarray."

This additional information did not impact the score on the licensure weighting report.

- Licensee was informed that patient consents for disclosure did not comply with 42 CFR Part 2. Patient consents were obtained from the United States Probation System and therefore did not include the required information to release patient substance use disorder treatment information. It is recommended that the licensee obtain consents using a Part 2 compliant release. Licensee was provided with consent examples and resources from the Legal Action Center to assist with 42 CFR Part 2 compliance.
- Licensee was informed that the patient records must contain documentation that the patient participated in the development of the treatment plan. Patient signatures included on a treatment plan would not provide evidence that there was participation in development of a plan. Patient participation can be evidenced by documenting the participation in a progress note or on the treatment plan.
- Licensee was informed going forward, all new staff would require a TB test upon hire, and all staff who currently do not have a TB test will need to have one completed. Licensee provided additional documents with the following response after the site visit via email on January 26, 2022:

"I understand that these are supposed to be done prior to hiring and will make sure that is the case moving forward. I was able to find my own TB test from 2013, when I first started doing work in our Rock Island office, and I have attached that as well. Dr. Frainey has since completed his TB test and I will have Pamela Eastwood's to forward you soon. Pam was already employed at our Bettendorf office and was kind of thrust into working on the SUD program on an emergency basis, so we didn't have one for her prior to hiring. "

Though this response shows the Licensee is being proactive in gaining compliance, this additional information did not impact the score on the licensure weighting report.

 Licensee was provided an update on progress towards data reporting requirements. Licensee had past non-compliance with data reporting and at the October 13, 2021 Committee meeting, the Committee required six months of data reporting monitoring activities to ensure program compliance.
