#### JUSTIFICATION OF VARIANCE

The following items were rated "0" (Non Compliance) and points were subtracted from the Licensure Weighting Report.

#### **155.21(6)** Data Reporting\*

Data reporting was in non-compliance because the program has not reported required data to the division in accordance with department requirements and processes.

#### 155.21(11) Assessment and Admission\*

A. Assessment and admission was in non-compliance because assessments were not adequate to formulate a treatment plan. (*This was an area of non-compliance in 2020 and 2021*.)

### 155.21(12) Treatment Plans\*

D. Treatment plans was in non-compliance because treatment plan reviews were not documented in the patient record.

## 155.21(14) Patient Record Contents\*

- A. Patient record contents was in non-compliance because an incident report was not included in a patient record.
- B. Patient record contents was in non-compliance because the discharge summaries did not include the types of services the patient received, action taken to address specific problems identified, and plans for services and referrals postdischarge.

### 155.21(19) Management of Care and Discharge Planning\*

Management of care and discharge planning was in non-compliance because patient records did not demonstrate proper use of The ASAM Criteria.

- B. Management of care and discharge planning was in non-compliance because management-of-care activities where not documented within the time frames appropriate to the patient's ASAM level of care (every 30 days for outpatient level of care).
- D. Management of care and discharge planning was in non-compliance because patient discharge planning did not include a determination of the patient's continued need for licensed program services and development of a plan to address ongoing patient needs post-discharge.

Inspection Date: April 5, 2023 (Virtual Inspection)

## 155.25(1) OWI Evaluations\*

OWI evaluations was in non-compliance because the program did not collect information on the patient's blood alcohol content, date of arrest, details of legal history, or family history of substance abuse. This information is required in accordance with lowa Administrative Code 641 chapter 157. (*This was an area of non-compliance in 2021.*)

\*Technical assistance was provided during the virtual site inspection. Licensee was provided specific technical assistance on the following areas of non-compliance:

- Licensee was informed that all substance use disorder patient data is to be reported in the state date reporting system (IBHRS). At the time of the inspection, not all data had been reported.
- Licensee was informed patient assessments are to be detailed to formulate a treatment plan. Assessments continue to include questions in the format of a "Yes" or "No" response. A "Yes" response should include additional details. During the prior inspections in 2020 and 2021, this was also found to be an area of non-compliance. Pursuant to 641 lowa Administrative Code chapter 155.10(1)(d)(16), failure to submit an acceptable written corrective action plan or failure to comply with a corrective action plan issued pursuant to rule 641-155.9(125,135) or 641-155.16(125,125) is grounds for denial of a license. As this is considered repeated failure to comply with a corrective action plan, the department will continue to monitor compliance with the licensee's corrective measures. The Department may conduct inspections of the licensee prior to the next re-application to review the implemented corrective measures for treatment plan compliance.
- Licensee was informed dates of review and revisions to the treatment plan were not documented in patient records. Treatment plan reviews are to be conducted in collaboration with the patient every 30 days for outpatient and every 7 days for intensive outpatient.
- Licensee was informed one patient record contained a progress noted documenting
  that the patient arrived to the facility intoxicated with a physical injury. An incident
  report was not included in the record and it was unclear if the individual was safety
  transported to the hospital.
- Licensee was informed discharge summaries are to include the individualized recommendations and referrals upon discharge. All discharge summaries contained the same generic referrals and recommendations.
- Licensee was informed not all patient records demonstrated proper use of The ASAM
   Criteria. There were records that contained clinical documentation that would have met
   The ASAM Criteria for treatment recommendations but no treatment was
   recommended. For example, one patient had multiple OWI's, was at mild to moderate
   risk for continued use, but no treatment was recommended. It is recommended that
   clinical staff receive additional training on the proper use of The ASAM Criteria.

Southern Iowa Mental Health Center 1527 Albia Road Ottumwa, Iowa 52501

Inspection Date: April 5, 2023 (Virtual Inspection)

- Licensee was informed to document attempts to obtain information from referral sources.
- License was informed a thorough review of each of the 6 ASAM dimensions should be documented every 30 days for outpatient and every 7 days for intensive outpatient until discharge. The review is to be documented even when the patient is absent from treatment.
- Licensee was informed discharge planning is to include individualized patient needs.
- Licensee was informed the following information needs to be documented for OWI
  evaluations: information on blood alcohol content at time of arrest; history of other
  alcohol or drug-related arrests; history of alcohol/drug treatment; history of mental
  health problems and treatment; any OWI arrest that include personal injury or additional
  charge(s); and family history of substance abuse.
