

Immunization Registry Information System (IRIS) Immunization and Health Screening Record Request

Iowa's Immunization Registry Information System (IRIS) is a secure, confidential, computerized repository of individual immunization records and health screenings. Iowa state law [Iowa Code § 22.7(2) and 641IAC Chapter 7] specifies immunization and health screening information is confidential, and can only be shared with enrolled users, including an individual's health care provider, school, child care facility, local health department, the individuals themselves or their parent/guardian if the person is a minor.

To obtain a copy of your immunization or health screening record, complete the five steps below. Parents and legal guardians can access records on behalf of their children until the child turns 18 years of age. Once an individual attains 18 years of age, the individual's parents can no longer request a record, but the legal adult may request the information directly.
