

Child Care Gloving Procedure

1

Put on a clean pair of gloves. Wash hands prior to using gloves if hands are visibly soiled.

2

Provide appropriate care.

3

Remove each glove carefully. Grab the first glove at the palm and strip the glove off. Touch dirty surfaces only to dirty surfaces.

4

Ball up the dirty glove in the palm of the other gloved hand.

5

With the clean hand, strip the glove off from underneath at the wrist, turning the glove inside out. Touch clean surfaces only to clean surfaces.

6

Discard the dirty gloves immediately in a step trash can. Wash your hands.
