

Personal Care Services for Children HH-001

Iowa Medicaid Program	Prior Authorization	Effective Date	09/11/2009
Revision Number	7	Last Reviewed	04/17/2026
Reviewed By	Medicaid Medical Director	Next Review	04/16/2027
Approved By	Medicaid Clinical Advisory Committee	Approved Date	05/23/2018

Descriptive Narrative

Personal care services are services provided by a home health aide or certified nurse’s aide that are delegated and supervised by a registered nurse under the direction of the child’s physician. Services may be provided to a child in the child’s place of residence or outside the child’s residence when performing normal life activities. Some of the care must be provided in the child’s home.

Personal care services for children with special needs are covered for Medicaid members 20 years of age or younger when:

1. The services are medically necessary, **AND**
2. The service planning process has taken place, **AND**
3. Prior authorization is approved.

Criteria

Plans of care and requests for services are reviewed and points are assigned based on the Functional Needs Acuity Scoring Tool (FNAST) form # [470-4816](#) and the Social Needs Acuity Scoring Tool (SNAST) form #[470-4817](#). Points from each tool are added together and the total number of points is used to determine the number of home health aide hours to meet members’ need. See scoring guides on next pages.

- 0-4 points = 0 hours
- 5-9 points - intermittent services
- 10-29 points = up to 4 hours
- 30-54 points = up to 5 hours
- 55-69 points = up to 7 hours
- 70 points or more - subject to individual consideration

Coding

The following list of codes is provided for reference purposes only and may not be all inclusive. The inclusion of a code does not imply any right to reimbursement or guarantee claim payment, nor does the exclusion of a code imply that its association to the HCPCS code is inappropriate.

HCPCS	Description
S9122	Home health aide or certified nurse assistant, providing care in the home; per hour.

Compliance

1. Should conflict exist between this policy and applicable statute, the applicable statute shall supersede.
2. Federal and State law, as well as contract language, including definitions and specific contract provisions or exclusions, take precedence over medical policy and must be considered first in determining eligibility for coverage.
3. Medical technology is constantly evolving, and Iowa Medicaid reserves the right to review and update medical policy on an annual and as-needed basis.

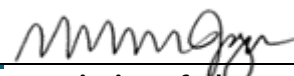

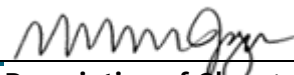

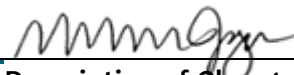

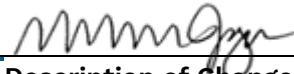

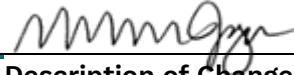

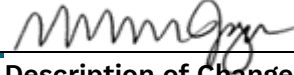

Medical necessity guidelines have been developed for determining coverage for member benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. Criteria are revised and updated annually, or more frequently if new evidence becomes available that suggests needed revisions.
