Overview

The purpose of the boy's State Training School (STS) is to protect the public safety while at the same time providing court-committed male juvenile delinquents a program, which focuses upon education, supervision, and rehabilitation, designed to help juveniles recognize accountability for delinquent behavior by confronting and eliminating delinquent norms, criminal thinking, and antisocial behavior.

The STS will assist the juvenile offender in the development of skills necessary to function effectively and positively in the community in a manner consistent with public safety by:

- ◆ Providing a humane, secure setting;
- ◆ Providing programs within the framework of professional juvenile justice standards and best practices while using available resources effectively;
- ◆ Holding juveniles accountable for their delinquent behavior; and
- ◆ Developing efficient and effective juvenile delinquent treatment and rehabilitation.

The STS at Eldora admits male youth who are court ordered as delinquents, or for an evaluation.

The youth served by the training school usually have many medical and mental health needs that require the services of professional clinical staff that are committed to providing treatment services in the most integrated manner possible to maximize good health and well-being.

To assure that services comply with current professional standards and are maintained, it is essential that an ongoing process be in place to evaluate clinical judgment against practice standards along with the implementation of processes that continuously seek to improve the quality of the services provided.

The training school shall establish, maintain, and adhere to written policies and procedures that comply with applicable federal and state law, policy, regulations, and ensure that policies and procedures reflect a commitment to quality through integrated teamwork. The facility's policies shall be subject to the review and approval of the division administrator.

Legal Basis

Iowa Code section 218.1 provides that the director of the Department of Human Services has full authority to control, manage, direct, and operate the Department's facilities and may assign this authority to the superintendent at the State Training School at Eldora.

Iowa Code section 218.13 requires the Department to conduct background checks of any person who is:

- ◆ Being considered for employment involving direct responsibility for a resident or with access to a resident when the resident is alone; or
- ◆ Requesting permission to reside on the grounds of the training school.

The purpose of the background check is to determine whether the person has been convicted of a crime or has a founded child abuse or dependent adult abuse record. If so, the Department is required to determine if the conviction or founded abuse warrants prohibition of the person from employment or residing on grounds.

Iowa Code Chapter 233A and 441 Iowa Administrative Code Chapter 103 outlines the authority and responsibilities of the STS at Eldora.

Except as otherwise provided, the procedure for the commitment of youth to the STS shall be the same as provided in Iowa Code Chapter 232.

Iowa Code sections 232.67 through 232.77, Iowa Code Chapter 235A, and 441 Iowa Administrative Code Chapter 175 define child abuse and require reporting, investigation, and actions to be taken to protect children from abuse.

Iowa Code Chapter 235B and 441 Iowa Administrative Code Chapter 176 defines dependent adult abuse and requires reporting, investigation, and actions to be taken to protect dependent adults from abuse.

Iowa Code section 709.1 defines sexual abuse.

Civil Rights of Institutionalized Person Act (CRIPA) at 42 USC §§1997j requires the United States Attorney General to investigate conditions of egregious or flagrant deprivation of rights of persons residing in public institutions.

Public Law 106-402, the Developmental Disabilities Assistance & Bill of Rights Act of 2000: (DD Act), codified at 42 USC 15001, provides that programs, projects, and activities for persons with developmental disabilities shall be carried out in a manner consistent with supporting the rights of the persons served.
