### **Dependent Adult Assessment Tool, Form 470-4841**

Purpose	Form 470-4841 is a three-part tool used to assess a dependent adult's <b>degree of dependency</b> , as well as, to analyze safety and risk. Complete an assessment of safety, dependency, and risk on every alleged victim for whom an evaluation or assessment is conducted.
Source	Complete the assessment tool online in DARES under each tab, respectively labeled "Safety Assessment," "Dependency Assessment," and "Risk Assessment." This form may also be printed from "My Links" in JARVIS and entered into DARES later.
Completion	The adult protective worker must complete the <b>Safety Assessment</b> portion: <ul style="list-style-type: none"><li>▪ Within 24 hours of the first contact with the adult subject, and</li><li>▪ Before closing the adult protective evaluation or assessment.</li></ul> The adult protective worker must complete the <b>Dependency Assessment</b> portion before the end of the dependent adult protective evaluation or assessment. The adult protective worker must complete the <b>Risk Assessment</b> portions before the end of the dependent adult protective evaluation or assessment.
Distribution	The <b>Dependent Adult Assessment Tool</b> is not distributed as part of the <b>Dependent Adult Protective Services Evaluation or Assessment Summary</b> . Print the <b>Dependent Adult Assessment Tool</b> and keep it in the case file.
Data	Asterisked ( * ) items are generated by the DARES database if the information has been entered into DARES. The adult subject's name, date of birth, age, form of alleged maltreatment, and caretaker, if applicable, are pulled from household composition. <b>Safety Assessment (Initial and Final)</b> If any of 2 through 6 are <b>No</b> or 7 through 14 are <b>Yes</b> , assist the adult subject, caretaker, service providers, and support system to take steps to alleviate the safety issues. This may be done by: <ul style="list-style-type: none"><li>▪ Obtaining medical care or placement,</li><li>▪ Engaging additional formal and informal supports,</li><li>▪ Safety planning,</li></ul>

- Use of law enforcement, or
- Seeking legal intervention.

DARES will narrow the results of the safety decision in compliance with the scoring instructions. Only the subsequent safety status score is pulled from

DARES and populates into form 470-0688, **Dependent Adult Protective Services Evaluation or Assessment Summary**.

#### Initial Safety Decision

Check the box to indicate your determination as to whether the dependent adult is “safe,” “conditionally safe,” “unsafe,” or “unable to remediate safety concerns.” When selecting “unable to remediate safety concerns,” the adult protective worker must select one of the following reasons why:

- Protective order requested but not granted.
- Dependent adult has the capacity to consent and is refusing services.
- Dependent adult has accepted some, but not all of the recommended services.
- Other. If selecting other, please provide a brief explanation.

#### Dependency Assessment

**Health conditions and diagnoses:** Enter medical information. Document the overall condition of the adult, any existing allergies, and behavioral indicators or observations of health.

**Medications:** Enter all the adult’s medications.

**Benefits:** Enter Yes or No for each question. Use “Other” for benefits not represented on the list. Explain all other benefits not on the list.

**Current services:** Enter Yes or No for each question. Use “Other” for services not represented on the list. Explain all other services not on the list.

**Cognitive impairments:** Enter Yes or No for each question. Completing IQ is optional. Explain any temporary conditions.

**Cognitive screening:** Enter the type of mental status screening tool conducted. If the mental status screening tool used by the adult protective worker or other qualified professional is not represented in the list, select "other." List the score and what the score means pertaining to the adult subject's cognition. Screening will allow the adult protective worker to determine if the adult subject needs a more comprehensive assessment on capacity to consent.

**Physical impairments:** Enter **Yes** or **No** for each question. Explain if necessary.

**Impairments impacting daily living:** Enter Yes or No for each question.

**Katz (Activities of Daily Living) (ADL):** The Katz Index ranks adequacy of performance in the six functions of **bathing, dressing, toileting, transferring, continence, and feeding**. Clients are scored for independence in each of the six functions.

Each category has a check box. DARES calculates the score. Completion of all questions is required. A score of six indicates full function; four indicates moderate impairment; and two or less indicates severe functional impairment.

**Lawton – Brody Instrumental Activities of Daily Living Scale (IADL):** The IADL is an appropriate instrument to assess independent living skills. These skills are considered more complex than the basic activities of daily living as measured by the Katz Index.

The instrument is most useful for identifying how a person is functioning now and identifying improvement or deterioration over time. There are eight domains of function measured with the Lawton IADL scale.

To obtain a score for each category, check the box for the item description that most closely resembles the client's highest independence level. Each category requires one box to be checked. The total score ranges from zero which indicates low functioning to eight which indicates high functioning.

**Summary of dependency status:** Determine if the information collected through the dependency portion of your assessment indicates the adult subject (alleged victim) is dependent.

Use the narrative to summarize the evidence gathered through the dependency assessment to support or refute that the adult subject is a dependent adult. A diagnosis or level of care alone is not sufficient to determine a person is a dependent adult. A worker needs to describe the impairments in functioning using the objective measures mentioned above. An adult subject may be impaired in some domains of functioning and not others.

Only the “Summary of dependency status” narrative is pulled from DARES and populates form 470-0688, **Dependent Adult Protective Services Evaluation or Assessment Summary**.

#### Adult Subject Risk of Abuse or Neglect Assessment

The risk assessment must be completed by the conclusion of the assessment or evaluation.

The scored risk levels are pulled from the risk assessment of the adult subject and the alleged person responsible that are completed through DARES for the incident. If the risk assessments have not been completed, levels will not appear in the printed version.

The final risk level score is pulled from DARES and populates form 470-0688, **Dependent Adult Protective Services Evaluation or Assessment Summary**, under “Final Risk Level.” The DARES system uses this score to determine what the client’s periodic visit eligibility is based on, age, dependency status, mitigating interventions, and risk level.

#### Summary and Analysis of Safety Constructs Narrative

- Describe the threats of maltreatment that are present at this time (i.e., aggravating factors that combine to produce a potentially dangerous situation).
- Describe the adult subject’s vulnerability to maltreatment (i.e., the degree that the adult subject cannot on the adult’s own avoid, negate, or minimize the impact of present or impending danger).
- Describe the adult subject and caretaker or alleged person responsible protective capacities (i.e., family, household, or support system strengths or resources that reduce, control, or prevent threats of maltreatment from arising and the factors and deficiencies that have a negative impact on the adult subject’s safety).

### Policy Overrides

After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and adult subject vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

**Discretionary override reason:** After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. You must receive supervisory approval for a discretionary override. The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

Supervisor's Review/Approval of Discretionary Override: Enter a signature.

**Date:** Enter the date.

### Family Functioning Domains

HHS uses the **Family Functioning Domains** to provide a consistent format for collecting, considering, and analyzing information about children and families. This consistency ensures that functioning areas most critically impacting safety, permanency, and well-being are addressed and targeted for service intervention.

Use of the domains creates a common, consistent language as information about children and families flows from child protective workers to ongoing workers and service providers.

The domains provide a “common lens” through which the strengths and needs of the child and family can be assessed, discussed, and used in planning and service provision.

The family functioning domains consist of the following broad areas of functioning (each domain area has related subcategories):

- **Child Well-Being:** Child’s mental health behavior, relationship with peers, school performance, motivation and cooperation, relationship with caregivers, and relationship with siblings
- **Parental Capabilities:** Parental supervision of children, mental health, disciplinary practices, physical health, developmental and enrichment activities, and use of drugs or alcohol
- **Family Safety:** Physical abuse, neglect, sexual, or emotional abuse of child; and domestic violence
- **Family interactions:** Bonding with child, expectations of child, relationship between parents or caregivers, mutual support within the family
- **Home environment:** Housing stability, financial management, income and employment, safety in community, personal hygiene, habitability, transportation, food and nutrition, learning environment
- **Other:** Additional issues or concerns about the child or family

Become familiar with the family functioning domain categories and criteria. Consider the child and family’s strengths, concerns, and needs in the various domain areas as you have discussions with the family and gather and analyze information about them.

- Information gathered in a family team may be helpful in evaluating the domain categories.
- Evaluate each individual’s functioning through the common “lens” of the domain areas when:
  - There are multiple children in the family,
  - There is a noncustodial parent or stepparent, or
  - A relative is caring for the child.

Complete the family functioning domain section of the case plan by working through each domain category (the subcategories for each domain category automatically appear as you complete the domain sections) and:

- Fill in the **Narrative** section of each domain with a specific description of any strengths or needs identified within that domain. Needs in any domain should be related to and discussed within the context of how the needs affect child safety, permanency, or well-being.  
Remember that families may have strengths in some domain areas that can be used to address needs in other domains.
- Establish a **Goal** for each domain area where a need is identified in the narrative. It is critical that goals be developed in partnership with the family.  
Goal statements should be strength-based and focused on achieving the outcomes essential for safety, permanency, and well-being.
- If no needs are identified for a family within a domain category, but strengths are noted, you may establish a goal for that domain that focuses on using family strengths to help meet needs in other domain areas.
- After reviewing the strengths, needs, and goals for each domain area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.
- In each domain area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible for each step and
  - The dates for beginning and completing the necessary actions.Update revisions to or completion dates for the steps throughout the life of the case plan.
- Discuss and review the case plan information on domain areas, proposed goals, and action steps with the family before making final entries to the plan.
- Use the **Comments** section in each domain area to enter updated information on the family's progress and functioning level in that domain.

When the child is residing with the child's parents, the case plan shall state whether the child would be at "imminent risk of removal" from the home if in-home services were not provided.

"Imminent risk" means there is an immediate threat or likelihood that the child will suffer maltreatment.

When assessing "imminent risk," consider the three safety constructs of threats of maltreatment, child's vulnerability to maltreatment, and the caretaker's protective capacities to determine if the child would be unsafe without in-home services in place.

Cases that meet this standard are eligible for federal Title IV-E funding as candidates for foster care.

In the comments section of the most applicable family functioning domain area, document whether HHS would ask the court to consider the removal of the child if the family refused or terminated in-home services and why.

#### Review Section

Use the **Family Case Plan** review section when reviewing family progress and making further recommendations for actions and services on the case.

- Indicate the date of the plan review and whether this review was conducted through a family team meeting.
- When completing the review, consider the family's current functioning, level of goal achievement, and completion of necessary steps within each domain area.
- Identify family achievements, progress toward safe case closure, remaining concerns, and your current recommendations in the review section.
- At least once every six months, review the status of any child who has been previously determined to be at "imminent risk of removal" if in-home services are not provided. Document if services should continue and why in the **Review Summary and Recommendations** box.

Reference **Other Comments** if an evaluation determines that the location of the foster home is suppressed and review this determination every six months or less.

#### Signatures and Notifications

- Document and obtain signatures from those persons that participated in development of the plan and thank all persons who contributed to the planning process for the child and family.
- Set a date for future meeting with the family to review and revise the plan as needed. The **Other Comments** section of this page can be used for this purpose.

Every six months or less, evaluate and review the decision to suppress the location of the foster home to determine if suppression continues or the need for suppression no longer is applicable.
- The **Other Comments** section may be used to include information concerning:
  - Case child abuse and criminal record histories;
  - Whether the Indian Child Welfare Act applies to the case;
  - Evidence of a direct or indirect threat to harm the foster child or foster family or credible third-party information of a threat of harm to the foster child or foster family as listed in [18-D\(4\)](#). This information is needed if there has been a decision to suppress the address and contact information of the foster home.
- Distribute copies of the plan to those that should receive them.

#### C. Child Placement Plan

In combination with the face sheet and the family plan, the out-of-home placement section is a written document that includes all the federal required elements. The family plan and the out-of-home placement section include:

- A description of the placement and the appropriateness of the placement.
- The permanency goal for the child including any concurrent permanency goals.
- A plan for ensuring that the child and family receive services designed to facilitate the return of the child to a safe home or to another permanent placement.
- The health and educational status of the child.
- When applicable, a description of the programs and services that will facilitate the child's transition from foster care to adulthood.

This form is necessary to provide information mandated by state and federal laws and regulations regarding each child placed in an out-of-home setting in which the Department has custody, or when foster care is being provided under a voluntary placement agreement.

The HHS social work case manager responsible for the child should complete the **Child Placement Plan** when the child is placed in an out-of-home setting and HHS has custody or the child is placed under a voluntary placement agreement.

For these children, this section is in addition to Parts A and B of the case plan. The **Child Placement Plan, Part C**, should be updated every 90 days just like Parts A and B.

The **Child Placement Plan** is distributed as part of the case plan for children who are in placement. Print a copy of the **Child Placement Plan** and keep it in the child's HHS service record along with the other sections of the case plan.

Based on available case information and your own discussions with the family, make narrative entries for all applicable items on the **Child Placement Plan** where no auto-filled information appears. Enter sufficient narrative information to explain and give detail about the categories contained in the form.

If termination of parental rights is not indicated, explain this by selecting a reason provided or by citing other compelling reasons in the space provided.
- **Visitation:** Make the appropriate entries to describe the child’s visitation situation. Include any necessary narrative to explain the visitation arrangements.
- **Documentation:** Indicate whether the child has a certified birth certificate and a Social Security card and number. Describe plans to obtain if the child currently does not.

Indicate the provider, dates of services, and date the information on these services was given to the child's current caregiver and current service provider.

- **Education Records:** Complete this section to provide information on the child's current educational stats. Contact educational partners at the local school district or Area Education Agency (AEA) if needed to obtain this information.

If the child was not able to remain in the school the child was attending upon entry or change in foster care placement, explain efforts to keep the child's educational placement stable and why the change was best for the child.

### **Transition Plan**

"Transition planning" is the process of assisting the child in foster care to prepare to be a self-sufficient adult.

This process includes an assessment of life skills, strength and concerns, services and supports, and outcomes to be accomplished for successful transition.

Planning for transition to adulthood for children in foster care with special needs may need to begin before age 14 to ensure needed funding and services are available.

Service area transition planning specialists (TPS) can provide ongoing consultation and information regarding transition planning for adolescents.

For a child who may be eligible for services as an adult, the assessment and plan of services must be developed with someone who can reasonably be expected to fund those services or be a service provider when the child becomes an adult.

This section is required for a child in foster care of any type who is age 14 years of age or older. The plan shall be updated at required intervals with the **Case Permanency Plan**. In addition, the **Transition Plan** needs to be updated within 90 days of the child turning 18, and if the child remains in care past the age of 18, in the 90 days before discharge.

Organization of a youth-centered planning team is required for every child age 14 and older in foster care. Ask the child to select members of the team. Include specific names of formal and informal supports in the box that asks about membership.

A referral to transition planning specialist (TPS) may be needed for more challenging needs, such as transition planning for a child in long-term foster care or a child needing adult services. If a referral has been made to a TPS, select “yes.”

Include the date the Case Life Skills Assessment was completed. It must be done at least once after the child in foster care’s 14th birthday. Replace with the new date if it is done again throughout the child’s time in foster care.

If the child is interested in pursuing higher education, the plan shall provide for the child’s participation in the College Student Aid Commission’s program or assistance in applying for federal and state aid.

Indicate whether the child has a driver’s license or non-operator ID. If the child does not have at least one or the other, provide steps to obtain one or both.

Review and explain form 470-5337, **Rights of Youth in Out-of-Home Placement**, to a child age 14 and older. Have the child sign and date the form indicating you have reviewed the rights so the child understands and have answered any questions about their rights. After the form has been signed, give the child the original rights document and provide a copy to all legal parties on the child’s case. Document the date the form was most recently given to the child in the **Case Permanency Plan**.

Before the child reaches age 17½, present the completed **Transition Plan** to the transition committee for the service area that applies to the child. The local transition committee must review and approve the **Transition Plan**. When a child enters foster care at age 17½ or older, the local transition committee shall be involved in reviewing and approving the child’s transition plan within 30 days of completion.

There are six domain areas in the **Transition Plan** and a box for each. Follow the instructions for each section below:

- **Education:** Include information about the child's current education status and plans, including steps that still need to be taken, dates, and who will assist.
- **Employment and Workforce Supports:** Include information about the child's current work status and plans, including steps that still need to be taken, dates, and who will assist. This section needs to show the child has a clean credit report and banking experience, or it should provide plans or activities to achieve.
- **Health and Health Insurance:** Include information about the child and the child's health insurance status and plans.
- **Housing:** Describe the child's housing and housing plans.
- **Supportive Relationships and Services:** Describe relationships and opportunities for social and developmentally appropriate activities. Describe efforts to repair relationships or help child reconnect. Refer child age 17 to aftercare and include the date. If aftercare has not been contacted, leave the box blank.
- **Youth with Special Needs:** Relevant information about any special needs of the child should be included here, as well as referrals to SSI and adult services. The connections to SSI or adult services must be made before the Transition Planning Committee review, which typically occurs when the child is age 17. The date the plan was reviewed should be included in the last box of this section.

### **Child Signature**

Obtain the child's and guardian's signatures as appropriate.

**Family Interaction Plan General Roles and Responsibilities, Form 470-5148 or 470-5148(S)**

Purpose	<p>The <b>Family Interaction Plan General Roles and Responsibilities</b>, form 470-5148 and 470-5148(S), is the official family interaction plan developed for children placed out of the home. All children who are placed out of the home need to have a family interaction plan in place to ensure interactions occur in safe and healthy ways. The family interaction plan should be tailored to meet the safety needs of the family.</p>
Source	<p>Complete the English or Spanish version of this form using the template available in SharePoint under Employee Manual/Forms. This form may also be printed from the manual or SharePoint.</p>
Completion	<p>The most effective way of developing or reassessing a family interaction plan is during a warm hand-off or Solution Focused Meeting. The written family interaction plan may be incorporated as part of the Solution Focused Meeting notes or identified separately on the family interaction plan form. However, not all children placed out of the home will have a Solution Focused Meeting but family interaction planning should still occur.</p>
Distribution	<p>Give a copy of the completed family interaction plan to the identified team members. Keep the original form in the child's case file.</p>
Data	<p><b>Background Information.</b> Enter the following information:</p> <ul style="list-style-type: none"><li>▪ <b>Children's names:</b> If multiple children have different needs or safety concerns, the family's team may want to consider a separate plan for each child.</li><li>▪ <b>Date of plan:</b> This is the date the plan was developed.</li><li>▪ <b>Placed with:</b> Document where the child is placed and with whom. If multiple children are in different places, indicate the type of placement (i.e., resource family, relative, residential placement, etc.).</li><li>▪ <b>Placement date for children:</b> This is the date the child was removed and placed out of the home.</li><li>▪ <b>Permanency goal:</b> Document the identified permanency goal.</li></ul>

**Safety Concerns/Required level of supervision.** Utilizing the Family Interaction Planning Tool (Comm. 649) provide explanations for questions A-F of the Interaction Supervision Decision Tree.

**Family Interaction Plan.** Family interaction should begin as soon as possible after removal from parental custody. At a minimum, interactions should occur within 24 hours of placement, be regular, and of increasing frequency and duration.

- **Types of Interaction:** Document the type of interaction approved. Creativity in defining interactions should be supported. Every opportunity needs to be considered such as doctor appointments, school activities, meetings, and other functions in which the family would have participated if the children were in the home. This should be documented in the Attendance at Child Centered Appointments/Events section of the plan.

Interactions should be built around meaningful activities including:

- Mealtimes,
- Bathing,
- Grooming,
- Naptimes,
- Homework time,
- Grocery shopping,
- Doctors' appointments,
- School activities (i.e., conferences, plays, band and choir concerts, family nights, carnivals, graduation, etc.),
- Sports activities, and
- Should be geared towards the child's developmental abilities.

Creative planning should not only support face-to-face time but also other methods, such as calls, letters, texting, emails, and other electronic methods of communication. Families should be encouraged to explore other ways to connect and interact with one another.

- **Frequency and Length of Interaction:** Document the frequency and length of interaction. In determining how often and how long interactions should be, consider the following:
  - The age of the children.
  - The severity and chronicity of the abuse.

- The potential for abduction or continued abuse of the children.
- The progress of the parent in learning new skills or managing inappropriate behaviors, protective capacities displayed by the parent.

- **Locations:** Document the locations where the interactions will occur. Utilize the Planning Tool to aid in decision making around interaction locations.

Family interaction should occur in the least restrictive, most homelike setting that allows for natural interaction and appropriate to meet the child's needs for safety. Generally, the parental, relative, or resource family home will provide the best environment. When safety is an issue, a more secure setting should be chosen and a safety plan developed for the interactions to continue.

Consider the type of interaction as you document the location. For example, if an interaction is built around school activities, sport activities, or doctors' appointments, you would document the location of the event (i.e., school, gymnasium, ball field, doctor office, etc.).

- **Types of Supervision:** Document the type of supervision for the identified interaction. Types of supervision include fully supervised, relaxed supervision, semi or partially supervised, or no supervision necessary. Supervision can be provided by a professional or other person identified by the family's team.

- **Supervised By:** If supervision is required, document who is responsible to provide supervision during interaction. This will be determined by the family's team. Consideration should be given based on the safety concerns and the developmental needs of the child.

Family interactions are most "natural" when interactions are supported by those with a relationship with the child, such as other family members versus professionals. Family supports can be relied on to assist with all aspects of services including attendance at meetings, role modeling, transportation, observing interactions, etc.

**Family Routines to Practice During Family Interaction.** Document the goals to be accomplished during family interaction. Family interaction should focus on allowing the most natural parent-child interactions, such as:

- Cooking and eating a meal,
- Reading stories,
- Cleaning a room,
- Playing a game,
- Bath time,
- Naptime, or
- Bedtime routines.

The focus is on maintaining ties between the parent and child and assessing the parent's capacity to care for the child. Primary routines should reflect the family's SBC outcomes.

Goals are the family routines to target during the family interaction. These behavioral changes are most likely related back to the safety concerns as identified by the team.

- **Family Routines to Target:** Document the routines to practice during family interaction.
- **Family Members Involved:** Document who is expected to be involved in the routines.
- **Date Reviewed or Revised:** Document the date when the goal was reviewed or revised.

Family interaction needs to be reviewed during a Solution Focused Meeting or by those the family's team identifies, at a minimum, when:

- There are changes in behavioral patterns demonstrated by the parents or children.
- Protective provisions that may be a safety concern change or arise.
- There is a change in family supports.
- There is a change in legal issues or court requirements (change in custody or guardianship) that may impact family interaction planning.
- Agreed upon behavioral changes are accomplished or not.

**Transportation.** Describe how transportation will be provided once individuals who are available to assist in transportation are identified. Transportation is a key component for interactions to be successful.

Resource family and other relative caregivers should be encouraged to transport children at least one way. Parents and extended family members should be expected to arrange their own transportation, though they may be given temporary support when necessary to ensure there is not a gap in family interaction; however, this will likely be accomplished by public transportation. Children in placement may have to be transported by a provider or HHS staff, one or both ways to interactions.

**Other Planning Notes.** Considerations when setting expectations could include, but are not limited to, the following:

- Expectations of what parents should bring to the interaction.
- Activities that parents should plan or consider doing during the interaction.
- Behaviors that provide an unsafe situation may terminate the interaction. It is important that there is a follow up with the parents in order to reduce the risk for another unsafe situation.
- The use of physical discipline or threats towards others.
- Negative comments about others, which includes the children, family members, HHS worker, contractor or provider, and other professionals part of the family's team.
- Possession or bringing any drug paraphernalia, illicit substances, or alcohol to the interaction.
- All legal decisions or documents regarding contact, including No Contact Orders, etc. will be abided by all parties.
- Obtain approval before bringing any additional individuals to family interactions. Approvals are determined by the HHS case manager or the family's team.

**Family Interaction Calendar.** Utilize the calendar to document the initial plan for family interactions. Include any events, appointments or activities which the parent may also attend.

**Family-Life Home Placement Agreement, Form 470-0634**

### **Family Risk Assessment, Form 470-4133**

Purpose	Form 470-4133 is used to identify risk factors during an assessment. The <b>Family Risk Assessment</b> is composed of two scales that measure the level of risk regarding neglect and abuse.
Source	Complete this form on the Family Risk Assessment tab on the STAR Assessment module in JARVIS.
Completion	The child protection worker completes the <b>Family Risk Assessment</b> during the assessment process. This form must be completed before the assessment is approved.  <b>Exception:</b> When abuse occurred or is alleged in an out-of-home setting and child protective concerns do not exist in the child's household, the safety assessment and risk assessment is not required.  Only <b>one</b> household can be assessed on the <b>Family Risk Assessment</b> form. Assess the child's primary residence. When the alleged perpetrator resides in the household of the noncustodial parent, assess the household of the noncustodial parent. If the child moves to a different household because of the crisis, complete the risk assessment on the household in which the child will remain. <ul style="list-style-type: none"><li>▪ If the child will remain in the new household, complete the risk assessment on the new household.</li><li>▪ If the plan is to reunify the family, complete the risk assessment on the household <b>from which the child was removed</b>.</li></ul> Upon completion of the form, a Total Neglect Risk Score and Abuse Risk Score are automatically calculated to the highest of either risk score. Use this information in the analysis of the family's strengths, needs, and recommendation for services.  The final risk level is populated on the Child Protective Services Child Abuse Assessment Summary or the Child Protective Services Family Assessment Summary. Reassess the case whenever you determine that an adjustment in the risk score is warranted (either up or down).
Distribution	The form is maintained within JARVIS and is considered assessment data.

Data	Review information obtained from systems checks, Department records including service history, not confirmed assessments, and any previous or current court involvement. Review the risk assessment definitions and complete the <b>Family Risk Assessment</b> form by checking the most applicable response.
	On items involving caregivers, <b>select one or two</b> parents or substitutes based on physical and emotional proximity to the children. Do not rate more than two caregivers in a home.
	Only one primary caregiver can be identified. The “primary caregiver” is the adult living in the household who assumes the most responsibility for child care.
	When two adults are present and you are in doubt over which one assumes the most childcare responsibility, select the adult with custody or guardianship or the caregiver responsible for the child involved in the incident as the primary caregiver.
	<div style="border: 1px solid black; padding: 10px;"><p>Ms. X and her partner Mr. Y live together and appear to share caregiver responsibilities for Ms. X's children equally. Because Ms. X has legal custody of the children, select her as the primary caretaker.</p></div>
	If this does not resolve the question, select the legally responsible adult who was a perpetrator or alleged perpetrator.
	<div style="border: 1px solid black; padding: 10px;"><p>Mr. and Mrs. Z live together and appear to share caregiver responsibilities for their children equally. Mrs. Z is the alleged perpetrator of abuse, so she is selected as the primary caretaker.</p></div>
	When both parents are in the household, equally sharing care giving responsibilities, and both have been identified as perpetrators or alleged perpetrators, select the parent demonstrating the more severe behavior.
	The “secondary caregiver” is defined as an adult living in the household who has routine responsibility for childcare, but less responsibility than the primary caregiver. A partner may be a secondary caregiver even though the partner has minimal responsibility for care of the children.
	If an item relates to all caregivers and the household has more than one caregiver, <b>rate the caregiver with the more severe behavior</b> .

The risk assessment form is composed of two scales: the neglect scale and the abuse scale. For detailed guidance, see [\*\*Family Risk Assessment Guidance, RC-0123\*\*](#).

After scoring all items in each scale, total the score for each scale and determine the risk level by checking the appropriate boxes in the risk level section.

#### Overrides

**Policy Overrides:** After completing the risk scales, determine if any of the policy overrides should be applied. Policy overrides reflect incident seriousness and child vulnerability concerns. They upgrade the risk level to "high" regardless of the scored risk level.

**Discretionary Override:** After completing the risk scales, determine if a discretionary override should be applied to increase the risk level. Use a discretionary override when you are aware of unique case circumstances that warrant a higher risk level. **You must receive supervisory approval** for a discretionary override.

The discretionary override may raise the risk level only one level higher. The risk level may not be lowered by a discretionary override.

### **Family Risk Reassessment, Form 470-4134**

Every behavioral need of a foster child identified in this tool should be outlined when completing the case plan, along with the corresponding actions and responsibilities of the resource family.</li><li>▪ Since this tool identifies need and responsibilities, it is also the tool used to determine level of care and corresponding foster care payment.</li></ul>
Source	<p>Complete the English version of this form using the template available in SharePoint under Employee Manual/Forms.</p> <p>Print the Spanish version of this form from the manual or SharePoint.</p>

It is anticipated that the family team meeting, with the new foster parents participating, will be part of the discharge planning. Complete the <b>Foster Child Behavioral Assessment</b> within the first 30 days of placement.</p> <p>If a child leaves foster family care and goes to shelter care and then returns to the same foster family home, the payment rate remains the same as the rate received by the foster family before the child goes to shelter care. In order to have a valid assessment, check each item that applies in **every** category ("minimal" and "moderate" and "intensive").

The template calculates the basic rate once the child's birth date is entered, and automatically calculates the level of care and the total daily rate. The form is designed so that checking all the applicable boxes will result in the proper calculation for the behaviors.

Completion	<p>Complete one form per child or per sibling if the action applies to siblings at the same time.</p> <p>The person supervising the placement or causing the child to be placed completes this form each time:</p> <ul style="list-style-type: none"><li>▪ A placement is made.</li><li>▪ A placement is changed.</li><li>▪ An approved placement is canceled.</li><li>▪ A placement is terminated.</li><li>▪ A case is closed.</li><li>▪ There is a change of address or status of the placement (e.g., from foster care to adoption).</li></ul> <p>The Department worker is responsible for preparing the form for all children in the Department's custody or guardianship who are placed out of state and for all children placed into Iowa for whom the Department has assumed supervision under the compact.</p> <p>When courts, probation officers, or private agencies have placed a child in another state or accepted supervision of a child from another state, their staff are responsible for preparing the form.</p> <p>When there is a change of purpose in an existing placement, e.g., from foster care to adoption, form 470-0781 (ICPC 100A) may be required at the request of the receiving state.</p>
Distribution	Email form 470-0788 (ICPC 100B) to the ICPC service area liaison. The liaison sends to the ICPC office who forwards to the receiving state.
Data	<p><b>Section I – Identifying Information</b></p> <p>Enter the full legal name and birthdate of the child for whom this placement information is being reported.</p>

Enter the names of the legal parents as on form 470-0781 (ICPC 100A). Enter the name of the resource, the address, and type of care. Enter the same type of care that was chosen on form 470-0781 (ICPC 100A) (e.g., adoptive home, foster family home, group home care). Enter the relationship for relative placements.

## **Section II – Placement Status**

To confirm the initial placement, check the box that applies. Enter the exact date the child was placed in the receiving state.

If some aspect of the placement changes while the child remains in the receiving state, complete another ICPC 100B. Check the "Placement Change" box and indicate the exact effective date of the change.

If the child moves from one placement resource to another, enter the updated placement information. For example, if a child leaves the parents' home and is placed in a residential treatment center, complete the facility's name and address and indicate the new "Type of Care."

Subsequent ICPC 100B forms will list the new placement resource under "Identifying Information." Any additional moves to place the child within the receiving state will be reflected in this same manner.

If only the name (e.g., mother remarries) or address (original placement resource moves) changes, check and complete only those items that apply.

## **Section III – Compact Placement Termination**

Check the boxes that apply:

- **Adoption Finalized:** If an ICPC adoptive placement has been finalized (consummated), check that box and the appropriate box for the state in which finalization occurred, "In Sending State" or "In Receiving State." Attach the final adoption decree.
- **Child Reached Majority/Legally Emancipated:** Check this box if the child has reached majority age and has simultaneously ceased to be the responsibility of the sending agency or if the child has become emancipated through legal action such as marriage or court decision.
- **Legal Custody Returned to Parent(s):** Check this box when the child's legal custody or guardianship is returned to the parent with the concurrence of the receiving state. Attach the court order transferring custody to the parents to form 470-0788 (ICPC 100B).

- **Legal Custody Given to Relative:** Check this box when the child's legal custody or guardianship is awarded to relatives (other than parents) with the concurrence of the receiving state. Attach the court order transferring custody to the relative to form 470-0788 (ICPC 100B).
- **Legal Custody Given to Other:** Check this box when the child's legal custody or guardianship is other (other than parents or relatives) with the concurrence of the receiving state. Enter the name and relationship to the child. Attach the court order transferring custody to the other to form 470-0788 (ICPC 100B).
- **Treatment Completed:** Check this item when the placement resource has been providing a specific treatment-oriented service; that service has been completed; and the child is, therefore, being discharged from the facility (e.g., residential treatment center). This box may also be checked if the child was placed through Article VI of the Compact.
- **Sending State's Jurisdiction Terminated with the Concurrence of the Receiving State:** Check this box when the jurisdiction of the sending state has ended for some reason other than the transfer of custody to parents or relatives with the concurrence of the receiving state's supervising agency or court.

For example, if formal legal custody or guardianship is not going to be addressed but both states agree that supervision is no longer required or if both states agree to transfer jurisdiction to the receiving state.

If the sending state's jurisdiction is terminated without the concurrence of the receiving state (including custody or guardianship transfer), the decision was made unilaterally and that box should be checked.
- **Unilateral Termination:** Check this box when the interstate agreement has been terminated unilaterally, whether by the sending or receiving state. A unilateral termination is one in which one state ends the interstate placement agreement without the concurrence of the receiving state.
- **Child Returned to Sending State:** Check this box when the child returns to the state the child was placed from. This may be due to a disruption in placement.
- **Child Moved to Another State:** Check this box when the child moves to a state other than the sending state.

- **Proposed Placement Request Withdrawn:** If you have submitted form ICPC 100A to request placement approval and have decided not to explore that resource further, check this box, list the “Name of the Proposed Placement Resource,” and date of your decision to terminate the compact.  
  
Check this box only when no action has yet been taken on form 470-0781 (ICPC 100A). If you are withdrawing more than one request, submit a separate form on each and list each respective “Placement Resource.”
- **Approved Resource Will Not Be Used for Placement:** Check this box when you have received an approved form 470-0781 (ICPC 100A) but have decided not to place the child with that resource. List the name of the “Approved Placement” and date of your decision to terminate the compact.
- **Other:** Check and specify if the reason for compact placement termination is not listed above. For example, the entire family moved to another state (new address should be entered under “Placement Change”), the death of a child, the child ran away and whereabouts are unknown.

**Date of Termination:** Enter the exact date of the activity that ended the Compact Placement Agreement.

#### **Section IV – Signatures**

If a private person or local agency is completing the form, have a designated person sign, under “Person/Agency/Supplying Information,” identify the agency, and date the signature.

The compact administrator, deputy, or alternate should sign and date the second block.

### **ICPC Request (ICPC 100A), Form 470-0781**

Purpose	<p>Form 470-0781 (ICPC 100A) is the sending agency's formal written notice to the receiving state of its intention to make an interstate placement. It requests a finding as to whether the placement would be contrary to the interests of the child. With most placements, it is also a formal request for a home study.</p> <p>Following review by the receiving state, it is the official notice of the receiving state's decision. A favorable finding means that the placement can be made in conformity with the compact. An unfavorable finding means that the placement would be unlawful.</p> <p>Form 470-0781 (ICPC 100A) must accompany all requests for placement to which the compact is applicable. It must be favorably acted upon by the receiving state before any compact placement is made.</p>
Source	<p>Form 470-0781 (ICPC 100A) is available as a template in SharePoint under Employee Manual/Forms.</p>
Completion	<p>Complete one form per child or per sibling if the action applies to siblings at the same time.</p> <p>The service worker, private agency, court, or any person placing the child may complete this form. It is prepared when a request is being made to place a child in another state.</p>
Distribution	<p>Distribute as follows:</p> <ul style="list-style-type: none"><li>▪ The sending agency/Iowa ICPC service area liaison uploads the completed 100A into the National Electronic Interstate Compact Enterprise (NEICE) and electronically sends to the sending state deputy compact administrator.</li><li>▪ The deputy compact administrator reviews, signs, and sends to the receiving state's identified administrator.</li><li>▪ The receiving agency administrator completes Section IV of the form and returns to the sending state ICPC office.</li><li>▪ The sending state administrator sends via NEICE to the sending agency.</li></ul>

**Data** In the first two blocks, enter the name and address of the ICPC administrator (or deputy) to whom the request is being forwarded (TO) and the name and address of the ICPC administrator (or deputy) whose state is submitting the request (FROM). If information for the receiving state is unknown, enter only the name of the state.

### **Section I – Identifying Data**

Enter the full legal name, social security number, Indian Child Welfare Act (ICWA) eligibility, IV-E eligibility, sex, gender, date of birth, and ethnic group of the child for whom this placement is proposed. If the child is known by a nickname, place it in parenthesis beside the legal name.

**NOTE:** An “Indian child” means any unmarried person who is under age 18 and is either:

- A member of an Indian tribe or
- Eligible for membership in an Indian tribe and is the biological child of a member of an Indian tribe.

Enter the names of the legal parents, usually the birth parents. When an adoption is finalized, the adoptive parents are the legal parents. If the parent is deceased, enter “deceased” after the parent’s name.

If parental rights are voluntarily relinquished or terminated by the court, indicate in parenthesis beside the name. If you prefer to withhold the name, simply enter the status of the parent’s rights.

Enter the complete name, address, and telephone number of the agency or person who is responsible for planning for the child and who is financially responsible for the child. In most cases, these two items will be the same (the sending agency). Email addresses are optional.

### **Section II – Placement Information**

**Types of Care Requested.** Check the boxes designating the following:

- **Public Placement:** Public placement means a placement processed by a public child welfare agency where the state or local agency, or the court has authority to make the placement.
- **Private Placement:** Private placement means a placement made by a parent or a private or independent agency or representative not acting as an agent of the state (e.g., private adoption) or, in the

case of a private residential treatment placement, where a parent or guardian is making the placement (e.g., private Residential Treatment Facility (RTF)/Residential Treatment Center (RTC) placement, etc.).

- **Subsidy:** Check the box for public foster care or adoption to denote IV-E federal, non-IV-E state or local, or none for no financial support. Select pending if not yet determined.
- **Adoptive Home:** Adoptive home refers to both agency and private or independent adoptive placement before finalization of an adoption. This may refer to an initial placement with a family where adoption is the intention or it may refer to the movement of an adoptive family from state A to state B following placement.  
If this is a request for private or independent adoption, you are required to also complete the fields for the names, address, social security numbers, and telephone number for the prospective adoptive resource. Indicate if it is a federally-funded adoption subsidy (IV-E) or a state- or local-funded subsidy (non IV-E), pending (if not yet determined), or none.
- **Finalizing in:** Check one box to indicate the state in which the adoption will be finalized if known, otherwise mark pending.
- **Foster Family Home:** A foster family home is a facility providing care and guidance for a child or children not related to the caretaker for regular 24-hour care, or a certified kinship care home. A family foster home may not operate without a license or a certificate as required by the laws of the receiving state.
- **Group Home Care:** A resource which is licensed or approved as a group home and which provides substitute care for a fee; usually a modified family-type setting which serves more children than a foster home but fewer than an institution.
- **Child-Caring Institution:** A group care facility that is licensed or approved to provide custodial care to a larger number of children than a foster home or group home.
- **Residential Treatment Center:** A group care facility that provides a specific treatment program outside the realm of a medical hospital, psychiatric hospital, or institution for children with an intellectual disability (e.g., a residential program for the treatment of alcohol or drug abuse. The receiving state is not obligated to supervise this type of placement made by the sending state.

- **Parent:** A biological or adoptive parent or legal guardian as determined by applicable state law and who is responsible for the care, custody, and control of a child or upon whom there is legal duty for such care.
- **Institutional Care – Article VI Adjudicated Delinquent:** A group care facility for adjudicated delinquents whose proposed placement is according to Article VI of the ICPC. These facilities may include group homes and residential treatment centers and may serve non-delinquents as well.
- **Relative (Not Parent) Relationship:** Specify relationship, such as maternal aunt, paternal grandparents, brother, etc.
- **Other:** Specify a type of care not already listed, such as:
  - Nonrelative free home (an unrelated family that does not require foster home licensure in the receiving state and does not need or want foster care payments)
  - Independent living arrangement (an older teenager who is still under the jurisdiction of an agency or court but is capable of independent living without the supervision of a foster home or group home)
  - Maternity home
  - Extended foster care (youth aged 18–21 years old)

Current Legal Status of Child. Check the appropriate box.

- **Sending Agency Custody/Guardianship:** The child is in the full legal custody or guardianship (depending on the state's terminology) of a public agency. For example, a public agency may be social services, youth corrections, probation, parole, or a tribe. If allowed by state law, the sending agency may also be a licensed private child placement agency, an adoption agency, or a birth mother.
- **Parent/Relative Custody/Guardianship:** The child is not under the jurisdiction of either an agency or the court but is the full legal responsibility of a parent or relative. This choice is most likely to be marked when a parent, relative or guardian wishes to place a child in one of the types of care listed.

- **Court Jurisdiction Only:** The court has an open abuse, neglect, or dependency case that establishes court jurisdiction with the authority to supervise or remove and place the child for whom the court has not taken guardianship or legal custody.
- **Protective Supervision:** A legal status created by court order under which the child is permitted to remain in the child's home or is placed with a relative or other suitable person and the court, the Department, or another agency designated by the court provides supervision and assistance.
- **Parental Rights Terminated – Right to Place for Adoption:** The sending agency has accepted a voluntary relinquishment of parental rights or has completed court action terminating parental rights and now holds complete jurisdiction over the child with the right to place for adoption.
- **Unaccompanied Refugee Minor:** This form is not used to report the initial placement into the United States but to request placement and services in a second state after a U.S. agency or court has been granted full legal responsibility (custody or guardianship). Check this box only if that is the case.

Also mark the "Sending Agency Custody/Guardianship" box. If this is an unaccompanied refugee minor whose status warrants the ICPC 100A specific to those children (not the legal responsibility of an U.S. agency or court), do not use this form.

- **Other:** Legal status is not otherwise listed (e.g., legal action, such as a petition for custody or guardianship or to terminate parental rights, is pending).

For example, the child is the responsibility of the sending agency under a voluntary agreement with the parent or legally responsible relative and no court action has been taken or is pending to alter the family member's legal rights over the child.

**Name of Person(s) or Facility Child is to be Placed with.** Enter the name, address, and telephone number of the agency, facility, or individuals where the child will be placed. These entries are required.

**Name(s) of Prospective Adoptive or Foster Resource.** If placement is with an agency (e.g., adoption, foster care, etc.) other than a residential treatment facility (RTF), provide the foster or adoptive resource where the child will reside.

Enter the name, address, social security number, and telephone number of the individual with whom the child will be residing if it differs from the information in the section “Name of Person(s) or Facility Child is to be Placed with.”

### **Section III – Services Requested**

**Initial Report Requested.** If the proposed placement is not for a group care placement and a current home study has not yet been received, check the box for the appropriate type of home study needed based on the type of care indicated in Section II.

**Supervisory Services Requested.** Check one of the following boxes to indicate how supervisory services are to be conducted:

- **Request Receiving State to Arrange Supervision:** Check this box if the sending agency cannot supervise and does not have a contractual or other agreement with a pre-determined agency to provide these services. Usually the public social service agency will be asked to provide supervision following an approved home study and subsequent placement.
- **Another Agency Agreed to Supervise:** Check this box if the sending agency already has received the formal agreement of a pre-determined supervisory agency. This choice is most likely to be checked in agency adoptive placements where an agency in the receiving state already has provided an adoptive home study and will be providing ongoing services to the adoptive family.

Do not check this item because you know which county office of the public agency will receive this referral and may have discussed the case over the telephone. That does not constitute an agreement to supervise.

- **Sending Agency to Supervise:** Check this box if it is logistically feasible, it is the best-case plan, and the receiving state has granted the sending agency permission (which may or may not include licensure) to provide services in its state.
- **Other:** Check this box if requesting supervision for extended foster care youth (defined as youth aged 18–21 years).

**Supervisory Reports Requested.** Complete even though placement may not be a certainty at this time. Indicate how frequently you wish to receive progress reports. Standard timeframes are semi-annually, quarterly, monthly, or other. Check “other” when you wish to receive reports in a timeframe not listed.

**Name and Address of Supervising Agency in Receiving State.** If you know the name and address of the supervising agency, enter that information onto the line indicated. If not known by the sending agency, that information should be completed by the receiving state's compact office following receipt of a recommendation indicating that placement may be made.

**Enclosed.** Check which of the following items are enclosed:

- **Child's Social History:** Should accompany the majority of referrals; includes the pre-placement summary on adoption referrals and can be written with non-identifying information, if appropriate and preferred.
- **Home Study of Placement Resource:** Attach a current home study if one is not being requested; most likely to be checked if you already have an approved home study or the child is relocating with a placement resource and the home study is enclosed.
- **Court Order:** All applicable court documents should be enclosed (e.g., custody or guardianship orders, surrenders, orders terminating parental rights, and orders requesting a home study for the court).
- **ICWA Enclosure:** Obtain a letter from the child's tribe showing that the child is a member or is eligible for membership.
- **Financial/Medical Plan:** Attach the plan of how the proposed placement will be funded and how the children's medical needs will be covered.
- **IV-E Eligibility Documentation:** Attach a copy of the determination of IV-E eligibility.
- **Other Enclosures:** Indicates other pertinent materials, such as psychological evaluations, permanency plan, medical reports, school reports, birth certificates, and social security cards. It is not necessary to list them on the form.

**Signature of Sending Agency or Person.** The form should be signed and dated by anyone outside of the compact office who is completing the form as the sending agency. This includes a person with authority in the county social services agency, private agency, or court and any private individual or family member who is legally responsible for the child (as indicated in Section I and Section II, Legal Status).

Signature of Sending State Compact Administrator, Deputy or Alternate. Pursuant to Article III(d) of ICPC.

If the regulations of the sending state provide for transmittal of the form through the sending state's compact office, the compact administrator, deputy, or alternate in the sending state must sign and date the form. This is almost always the case.

#### **Section IV – Action by Receiving State**

This section is completed by the compact administrator, deputy, or alternate in the receiving state.

The compact office in the receiving state completes this section. The designated person reviews the proposed placement and all required information and indicates whether the placement can lawfully be made.

Remarks might include conditions or reservations to be noted or that an affirmative notice under Article III(d) is being given retroactively. The compact administrator, deputy, or alternate then signs and dates the form.

**Next Steps, Form 470-5592**

Purpose	<p>Form 470-5592 is an optional resource for working with families to document agreements or activities that fall outside of the scope of a <b>Safety Plan</b>. The <b>Next Steps</b> can be used whether or not a <b>Safety Plan</b> is required.</p> <p>Families are often eager to get started on resolving issues identified during a protective assessment or service case. For example, parents may voice a commitment to making a mental health appointment for themselves or their child, seeking child care, cleaning their house, etc. The <b>Next Steps</b> should be simple – who will do what by when. Unlike the <b>Safety Plan</b>, the <b>Next Steps</b> can be a promissory note – a tool for creating a reminder of commitments that have been made for the good of the children and the family.</p> <p>Never use the <b>Next Steps</b> to make temporary or voluntary changes in child custody. The <b>Next Steps</b> does not replace the <b>Safety Plan</b>, which must be completed if a child is determined to be safe with a plan. The <b>Next Steps</b> is not binding, but a way to engage families regarding commitments they or others (including the Department) make to help preserve and strengthen family connections.</p>

Only those who are agreeing to an action step need to be present and sign the <b>Next Steps</b>. The <b>Next Steps</b> can be created in the family's home, at a meeting involving the family, or in other circumstances where action steps are identified.</p>

Distribution	Send the original and two copies to the deputy compact administrator in the Division of Field Operations. Also send a copy to the court that requested the priority placement for verification that the ICPC referral was submitted timely. Keep a copy in the child's record.
Data	If more than one child is proposed to be placed with the caretaker, list all additional children on a separate sheet of paper and attach the sheet to the back of the home study.  <b>Identifying Information</b> <ul style="list-style-type: none"><li>▪ <b>Name of child to be placed:</b> Enter the child's complete name, (last name, first name, and middle initial, if any).</li><li>▪ <b>Age:</b> Enter the child's age as of the date the form is completed.</li><li>▪ <b>Mother's name:</b> Enter the name of the mother of the child as found on the child's birth certificate.</li><li>▪ <b>Ethnic group:</b> Enter the ethnic group to which the child belongs, such as Caucasian, African-American, Native American Indian, Hispanic, etc. If the child belongs to more than one ethnic group, enter "Biracial" for the child's ethnic group membership.</li><li>▪ <b>DOB:</b> Enter the child's date of birth as listed on the child's birth certificate.</li></ul>

- **Father's name:** Enter the name of the father of the child as found on the child's birth certificate. If there is no father listed on the birth certificate, list the name of the alleged father if known, and specify "alleged." If the child's birth father is unknown, enter "unknown" on this line.

**Proposed Caretaker.** This section relates to the person who will be providing care for the child when placement occurs. Contact the proposed caretaker to determine the person's interest in caring for the child if the court order does not indicate such information.

Due to the time constraints for completing the home study, it is essential to include all identifying information about the proposed caretaker in the request.

- **Name:** Enter the name (last name, first name, middle initial) of the proposed caretaker.
- **Marital Status:** Enter the marital status of the proposed caretaker, as follows:

S	Single
M	Married

A relationship “by marriage” terminates when death or divorce occurs, but if a child was born of the married parents, the relationship between the parents continues even after the marriage is dissolved.  
Termination of parental rights of a birth parent by a court severs all relationships between the child, the parent’s parents, and all other relatives (either by blood or marriage).

Include the relationship of the contact person with the proposed caretaker.

**Assessment of Child.** This section relates to the child who will be placed with the proposed caretaker if the receiving state compact administrator recommends placement and court approval for placement is given.

It is essential to provide sufficient information so that the receiving state worker can complete an adequate assessment that will take into account the needs of the child, as well as the capacity of the proposed caretaker to provide appropriately for the child.

- **Case plan attached:** Check “yes” or “no” to indicate if the child’s case plan is attached to the referral. If you have completed a case plan, you must attach it to the referral.

- **Financial/medical plan attached:** Check “yes” or “no” to indicate if the financial and the medical plans for the child are attached to the referral.

For proposed placement with the child’s parent, you may indicate that the parent is expected to assume financial and medical responsibility through private resources or public aid.

For all other placements, you must include financial and medical plans with the referral to indicate how the proposed caretaker will meet the child’s financial and medical needs.

- **Special needs:** Enter a description of all special needs, which require attention if the child is to be successfully placed with the proposed caretaker. Special needs of the child include all medical, physical, emotional, behavioral, educational, and psychological areas of functioning.

- **Handicaps: mental/physical:** Describe in detail all mental or physical handicaps which the child has and which must be taken into consideration in regard to the capability of the proposed caretaker to care for those conditions adequately. If this information is contained elsewhere in the referral packet, enter the location of the information.

Use of the five areas creates a common, consistent language as information about the youth flows from child protective workers to ongoing workers and service providers.</p> <p>The five areas provide a "common lens" through which the strengths and needs of the youth can be assessed, discussed, and used in planning and service provision.</p>

The five fostering connections areas consist of the following broad areas of functioning (each area has related subcategories):

- **Education:** Academic performance, graduation date, GED or high school diploma, extracurricular activities, job training options, IEP, financial aid, ACT/SAT/COMPASS tests.
- **Employment:** Transportation needs, dressing for success, vocational rehabilitation, application and interview skills, maintaining employment, resume, informal support.

After reviewing the strengths, needs, and goals for each area, identify the strategies, services, and informal supports that may be helpful to achieving the goals.

- In each area where goals are identified, list the steps necessary to bring about the changes needed to accomplish the goal for that domain. The steps should clearly identify:
  - Who is responsible,
  - What do they agree to do, and
  - By when.
- Document the date for when the goal was completed or modified.

Complete the stabilization section of the YTDM youth plan by working through each of the five fostering connections categories from left to right. The far left column is available to write the current or 'Now' situation for the youth. Under the column, "What will happen," establish a goal for each applicable area where a need is identified. It is critical that goals be developed in partnership with the youth. Goal statements should be strength-based and focused on achieving the outcomes essential for the youth.

After reviewing the strengths, needs, and goals for each area, identify the "Who will help me" (services or supports that may be helpful) to achieving the goals.

In each category list the action steps needed to achieve the goal. The steps should clearly identify:

- If youth is in agreement;
- Who is responsible;
- What do they agree to do; and
- By when, which is documented under either the 0 to 3 months column or the 4 to 9 months column.

**Crisis Plan (Plan B).** Identify and discuss what will be done if some part of the plan breaks down and a crisis happens.

Identify the risks and necessary steps needed to address the risk. The steps should clearly identify when and dated when completed or if ongoing.

**To move into the Dream Path phase.** Each YTDM meeting begins with a review of the five Fostering Connections areas to determine if changes or adaptations need to be made. Once the youth has achieved stability, the longer range planning can begin. Review the 'Dream' written in the 'cloud' on the far right of the document and determine the steps to head in that direction. Develop action plans with a six to nine months' time frame.

Each additional meeting of the team can look ahead further. The youth will be fully listened to and have input every step of the way. If there is disagreement, take the time to discuss the issue and resolve it before moving forward.

Each meeting covers strengths of the youth and a review of the previous assignments. Establish a new Crisis Plan (Plan B) at each meeting as well. Completion of the YTDM meeting process is determined by the youth and the team. It can continue informally after the youth ages out of the system, if desired.
