SUBJECT: Employees' Manual, Title 8, Chapter C, *Nonfinancial Eligibility*, Contents (page 3), revised; pages 63 through 68 revised; and pages 69 through 71, new.

Summary

P.L. 104-193 requires that a child's disability be reviewed when the child turns 18. (This includes children who are disabled due to blindness.) Disability must be redetermined using adult criteria. This letter incorporates this change for disability reviews and provides further clarification about when the Department is required to have disability reviewed.

This change became effective August 22, 1996. Therefore, all children who have turned 18 on or after August 22, 1996, whose disability review is the responsibility of the Department's need to have disability evaluated under adult criteria.

Instructions

Review SSI-related cases to identify those children who:

- ◆ Have turned age 18 on or after August 22, 1996, and
- ◆ Whose disability needs to be reviewed by the Department

This includes:

- ◆ Children whose disability was determined by the Department.
- ◆ Children whose disability was determined by Social Security for SSI, and who subsequently lost SSI eligibility for a nondisability reason but remained Medicaid-eligible based on disability.

A printout, entitled *Children Age 18, May Need Disability Reviewed*, will be sent to the field to assist in identifying those cases needing review at this time. Send those cases needing a review to DDS following the procedures in this chapter under **Disability Reviews**.

Submit cases identified for review to DDS by September 12. On the *Disability Transmittal*, form 470-2472 in the comments section, specify that this is a review due to a child turning age 18.

A system change has been requested so that in the future, a message will be sent to the worker before a child turns 18.

GENERAL LETTER NO. 8-C-47

SUBJECT: Employees' Manual, Title 8, Chapter C, *Nonfinancial Eligibility*, Contents pages (1 through 3) revised; (Contents page 4), new; pages 1 through 71 revised; and pages 72 through 118, new.

Summary

Since Title XIX was added to the Social Security Act in 1965, families who were eligible for cash assistance under the Family Investment Program (FIP) were automatically eligible to receive Medicaid with a few exceptions. Policies governing the FIP cash program were the basis of eligibility for Medicaid expansions in later years as more coverage groups were created to provide Medicaid to families, pregnant women, and children. These programs came to be known as "FIP-related" coverage groups.

However, when Congress passed the Personal Responsibility and Work Opportunity Act of 1996 P.L. 104-193, there was concern that with all the new flexibility states were being given to administer their FIP cash programs and the five-year lifetime limit on receiving cash assistance, if the link between Medicaid and FIP remained, people would lose Medicaid eligibility and become uninsured. As a result, Congress "delinked" Medicaid from FIP and the term "FIP-related Medicaid" no longer applies.

The intent of "delinking" Medicaid from FIP is to preserve Medicaid eligibility, regardless of changes made in FIP, by "freezing" the Medicaid eligibility policies that were in place as of July 16, 1996. Although the P.L. 104-193 mandates states to maintain the policies that were in place as of July 16, 1996, states do have some latitude as to which July 16, 1996, policies they use. For example, if a state had waivers in place, the state can choose to keep some or all of the waiver policies for Medicaid. Additionally, the state can choose to adopt income and resource policies that are more liberal than the policies that were in place on July 16, 1996.

The Family Medical Assistance Program (FMAP) has been designated as the coverage group under which families (both adults and children) that meet the FIP eligibility criteria in place on July 16, 1996, will receive Medicaid. Since Medicaid eligibility must be determined independently of FIP, the administrative rules and Employees' Manual have been amended so that Medicaid policy can "stand alone." This chapter has been revised to incorporate the applicable nonfinancial policies of FIP into the chapter and references to "FIP-related" are now "FMAP-related."

Cross references to Chapters 8-D, **Resources**, and 8-E, **Income**, have been added to the chapter. However, continue to follow FIP-related policy in Title 4, in addition to current Medicaid policy as appropriate until such time as the FIP income and resource policies are incorporated into Title 8, Employees' Manual.

Also, various sections applying to disability have been revised to incorporate into the manual the provisions of P.L. 104-193 and the Balanced Budget Act of 1997 (BBA), P.L. 105-33.

PL 104-193 revised childhood disability criteria and required that certain children have their disability reevaluated. As a result of these reevaluations, some children lost SSI eligibility and SSI-related Medicaid. The BBA of 1997 provided that children who lost SSI benefits would continue to be eligible for Medicaid as long as they continued to meet the non-medical SSI eligibility criteria. Revisions have been made as follows:

- ◆ Presence of Age, Blindness or Disability: A note has been added to indicate that some people do not have to meet current Social Security disability criteria due to BBA, 1997.
- ◆ Determination of Disability: Exceptions have been added to denote that there are some instances where Medicaid uses disability criteria different from that used by the Social Security Administration to establish childhood disability.
- ◆ Disability Reviews: A new section for reviews has been added. The BBA of 1997 provides that all persons receiving SSI benefits as of August 22, 1996, who are later canceled due to the revised childhood disability criteria under PL 104-193 are eligible to receive Medicaid as long as they continue to meet non-medical SSI eligibility criteria.

This includes both those whose disability was reevaluated due to the revised criteria and those who lose benefits due to a continuing disability review. Therefore, when a child is canceled from SSI as no longer disabled due to a continuing disability review, by the Social Security Administration, RLTS disability must review under the more liberal standards in place before the enactment of PL 104-193.

When you receive an SDX showing SSI cancellation because the person was determined no longer disabled, have disability looked at again to determine if the person would meet disability standards in place before PL 104-193.

Additionally, please note that you will need to track on children turning age 18 that need a Department review of disability under adult criteria. The system will not notify you of the age change.

Effective Date

Policies regarding the delinking of Medicaid from FIP are effective December 1, 1997. All other policies are effective upon receipt of the manual material.

GENERAL LETTER NO. 8-C-48

ISSUED BY: Bureau of Eligibility/HIPP, Division of Medical Services

SUBJECT: Employees' Manual, Title 8, Chapter C, *Nonfinancial Eligibility*, page 50, revised.

Summary

The Balanced Budget Act of 1997 (Public Law 105-32) added a new Title XXI to the Social Security Act. Title XXI provides funding to States to create health care programs for targeted low-income, uninsured children. States can use the Title XXI funding to (1) expand existing Medicaid programs, (2) create a non-Medicaid child health care program, or (3) take a combination approach.

The Iowa Legislature passed House File 2517, which directs the Department to develop a combination approach for providing coverage to uninsured children. This General Letter transmits the policy for "phase one" which is a Medicaid expansion.

The Mothers and Children (MAC) program is being expanded to provide coverage to children ages one through age 18 whose family income does not exceed 133% of the federal poverty level. The income limit for pregnant women and infants (under age one) remains at 185% of the federal poverty level.

The Employees' Manual has been revised to remove references to children having to have been born after September 30, 1983.

ISSUED BY: Bureau of Eligibility Services, Division of Medical Services

SUBJECT: Employees' Manual, Title 8 Chapter C, *Nonfinancial Eligibility*, pages 104, 106, 108, 110, and 111, revised.

Summary

This general letter transmits a change in when disability is to be reviewed on children who were cancelled from SSI due to revised childhood disability criteria established under the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 but remained eligible for Medicaid due to provisions of the Balanced Budget Act of 1997.

Current policy requires that disability for children eligible under this coverage group is reviewed two years from the date of the child's cancellation from SSI. SSI cancellations could have occurred as early as July 1, 1997. This means that state review of disability on these children could be initiated in July 1999. With this change, reviews of disability for these children are due on the date originally designated through the SSI disability determination.

HCFA has notified states that the Social Security Administration will provide the disability review date originally assigned when disability was established for SSI eligibility. However, the date information is not yet available to Iowa, due to the need for system enhancement to receive it. Once system changes have been made, the information will be transmitted to the field.

Additionally, this General Letter transmits a change in federal regulations on disability raising the amount of monthly earnings used to indicate that a person is engaged in substantial gainful activity. Currently a person is considered to engage in substantial gainful activity when monthly countable earnings are \$500 or more. With this change, substantial gainful activity will be determined when monthly countable earnings are \$700 or more.

Summary

Chapter 8-C has been revised to remove any reference to quitting, refusing or reducing employment. This change makes Medicaid policy consistent with FIP changes effective June 1, 1999.

A change is updated to reflect a new address when reporting third party liability information.

Additionally the section entitled **When a Client Appeals a Disability Denial** has been revised. When the client appeals a denial of Medicaid eligibility due to a decision on disability made by Disability Determination Services (DDS) for the Department, DDS staff participate in the appeal hearing.

Due to a change in scheduling procedures for disability hearings that require participation by DDS staff, DDS will no longer have access to the copy of the disability file sent to the Appeals Section for inclusion in the appeal record. Therefore, a separate copy of the disability file must be sent to DDS for these hearings.

The section on nonfinancial factors specific to FMAP is moved to the end of the chapter to be consistent with changes in Chapter 8-D and 8-E.

FMAP-related revisions have been made to clarify policy due to delinking. Household composition examples have been added.

A revision has been made to no longer allow a pregnant 18 year old woman eligible under MAC to be a separate eligible group from her parents and siblings. A pregnant woman aged 18 who is not emancipated and is eligible under MAC is considered a child.

Summary

This general letter revises policy for disability determinations when a person's eligibility is determined under the new coverage group, Medicaid for employed people with disabilities (MEPD). Under MEPD provisions, engaging in or ability to engage in substantial gainful activity as the first step in a disability determination is not applied.

When a person claims to be disabled and could qualify for MEPD, do not consider earned income. Under MEPD, the Department must always make a determination of disability based on medical impairments to decide if a person is disabled for eligibility under MEPD regardless of earned income. Revisions have been made throughout this chapter to reflect this policy change.

Summary

FMAP-related programs will no longer require that a child be deprived of parental care and support to be eligible for Medicaid.

The section "Temporary Absence from the Home" is changed to "Absence" and moved to the head of the list of FMAP eligibility factors. Cross-references to this section are revised.

Sections on "Deprivation," including "Deprivation Due to Continued Absence," "When a Parent is Considered Absent," "Deprivation Due to Incapacity," "Deprivation Due to Unemployment," and "When a Parent is Not Considered Unemployed," are deleted.

"Determining the Natural Father" is moved under "Specified Relative." "Questionable Cases" is moved to "Absence." "Verifying Incapacity" is moved under "Incapacitated Stepparent."

References to deprivation are removed and the word "caretaker" is replaced with "specified relative."

Page 24 is revised to remove the reference to the obsolete form SSA-4681, *Case Report on Claim of Good Cause for Refusing to Cooperate in Establishing Paternity and Securing Child Support*. Completion of this form is no longer required.

GENERAL LETTER NO. 8-C-59

ISSUED BY: Bureau of Eligibility Services, Division of Medical Services

SUBJECT: Employees' Manual, Title 8, Chapter C, **NONFINANCIAL ELIGIBILITY**, Contents (page 2), revised; pages 47, 48, 51, 52, 53, 54, 55, 59 through 70, and 95, revised; and pages 52a and 52b, new.

Summary

This general letter transmits:

- ◆ Clarification that people who are members of an eligible group but who are not requesting Medicaid do not have to provide social security numbers.
- ◆ An increase in the income level that represents substantial gainful activity, from \$700 to \$740 per month, effective January 1, 2001.
- ◆ Revisions throughout the disability section to clarify the steps in the disability determination process completed for the Department by Disability Determination Services. A chart showing the steps followed when disability is determined for Medicaid (other than under MEPD) is added.
- ◆ Clarification of steps in the disability determination process when a disability determination is made for Medicaid for employed people with disabilities (MEPD).
- ◆ Corrections of the word "stepparent" to "parent" on page 95.

Generally, in determining disability for Medicaid and for SSI, the first step is to determine if the person is engaged in substantial gainful activity. If so, the applicant is denied as not disabled without further determination of the person's medical condition.

However, when determining disability under the MEPD coverage group, substantial gainful activity is not considered at that step of the process. A disability determination is completed even if the person works.

If after evaluation of medical impairments, the person is determined to have a severe medical impairment but does not meet or equal a listing of medical impairments, the next two steps of the disability determination process looks at a person's ability to work (substantial gainful activity).

If there is an ability to work, even with the severe impairment, the person is not considered disabled for MEPD. The medical impairment must meet the listings for MEPD.

No reviews are required to find cases denied due to substantial gainful activity, since Medicaid cases with earnings above the level for substantial gainful activity would have been processed under MEPD, and MEPD does not consider substantial gainful activity in the disability process.

Effective Date

The increase in the income level for substantial gainful activity was effective January 1, 2001. Other changes are effective upon receipt.

GENERAL LETTER NO. 8-C-60

ISSUED BY: Bureau of Eligibility Services, Division of Medical Services

SUBJECT: Employees' Manual, Title 8, Chapter C, **NONFINANCIAL ELIGIBILITY**, pages 87 and 88, revised, and page 4a, new.

Summary

Page 4a is added to include language consistent with existing rules for FMAP-related Medicaid programs. This is not a new policy.

Previously, when an alien failed to sign form 470-2549, *Statement of Citizenship Status*, the entire household in which the alien was a member became ineligible for Medicaid. Now the alien status of a person does not affect the eligibility of other household members.

If form 470-2549, *Statement of Citizenship Status*, is not signed when requested, the alien whose signature is required is ineligible for Medicaid (except emergency medical assistance). This person is treated as an ineligible alien. Failure by the alien to sign the requested form does not affect the eligibility of the remaining household members, if otherwise eligible.

Page 87 is clarified to explain that an unborn child is not required to be included in the eligible group unless the mother's pregnancy is a condition of her eligibility.

Summary

The manual is being updated to reflect a change in the way we sanction adults who do not cooperate with the department, ineligible adult aliens, and adults who do not have a social security number.

The change will allow the sanctioned adult, the undocumented adult alien, and those adults who are ineligible due to no social security number to remain a part of the household size.

Ineligible children will not be included in the household size, nor will their income or resources be used in determining eligibility of the eligible group.

Summary

This chapter has been revised to reflect the change in the release of information form used for disability determinations. The Department was using form 470-2467, *Authorization for Source to Release Information to the Department of Human Services*, when medical information was required for a disability determination. Due to the Health Insurance Portability and Accountability Act (HIPAA) requirements, this release was determined to be inadequate.

The Department has determined that form 470-3951, *Authorization to Obtain or Release Health Care Information*, is adequate and shall be used for securing medical information for disability determinations. An announcement from the SPIRS Help Desk was issued November 7, 2003, to initially advise field staff of the change.

Summary

This chapter is revised to:

- ◆ Add clarifying language under the section, "CITIZENSHIP," that defines who is eligible for Medicaid.
- ◆ Specify that when both parents or a parent and stepparent are in the home, either parent or the stepparent may attest to citizenship for the household by signing a Medicaid application or the *Statement of Citizenship Status* form.
- ◆ Clarify that foster care and subsidized guardianship children are exempt from providing proof of citizenship and identity verification.
- ◆ Clarify that a child who leaves a coverage group under which the child was exempt from citizenship and identity verification requirements must provide this verification at the next annual review if the child is subject to the policies on continuous eligibility for children.
- ◆ Require documentation in the case record when the *Requirements of Support Enforcement*, form 470-0169 or 470-0169(S), is provided. Since the form no longer requires signatures, the requirement to file a signed copy of the form in the case record is removed.
- ◆ Add a legal reference for disability reviews.
- ◆ Add a cross-reference under "Disability Reviews" to reapply after cancellations for a non-disability reason.
- ◆ Remove section, "Acceptance of Vocational Rehabilitation for Disabled or Blind Persons," from the chapter since failure to accept vocational rehabilitation does not cause ineligibility for Medicaid.

Title page, revised; Contents (pages 1, 2, and 3), revised; pages 1
through 123, revised; and pages 124 through 155, new.

Summary

This chapter is revised to:

- ◆ Make the exemption from citizenship and identity verification requirements permanent for children born in the U.S. to Medicaid-eligible mothers. Once eligibility has been established on the basis of such a child's deemed "newborn" status, the child remains exempt, even after the "newborn" status ends.
- ◆ Add documentation from federally recognized Indian tribes as Level 1 proof of citizenship and identity. A web address for the list of federally recognized Indian tribes is also provided.
- ◆ Clarify that Medicaid does not pay the Medicare premiums, copayment or deductible for qualified Medicare beneficiaries (QMB) residing in a mental health institute (MHI) who are over age 21 or who are under age 65.
- ◆ Update and reorganize material on the SSI-related eligibility factor of disability:
 - The sections on "Establishing Disability" and "Establishing Blindness" have been incorporated into the section "Presence of Age, Blindness, or Disability."
 - Information on Social Security Administration processes, including presumptive disability and denial and appeal procedures, has been grouped into a new section titled "When the Department Follows an SSA Disability Determination." New charts give detailed instructions for IM worker actions based on the status of SSA disability determination activity.
 - A new section has been added to clarify DHS responsibilities for redetermination of disability based on adult criteria when a child who is not on SSI reaches the age of 18.
 - Material is reformatted into "Policy," "Procedure," and "Comment" sections.

The changes on citizenship and identity verification for newborns were effective March 2009, with retroactive restoration of Medicaid to affected children who previously had “newborn” status as they are identified.

pages 5 through 9, 11, 13, and 19, revised.

Summary

This material:

- ◆ Changes policy to reflect that:
 - Copies of original citizenship documents made by **hawk-i** staff are now acceptable.
 - Children under age 21 who are citizens of the Compact of Free Association States (CFAS) may be eligible for Medicaid as qualified aliens.
- ◆ Clarifies the exemption from verifying citizenship and identity for persons whose initial eligibility was due to deemed "newborn" status, including how this exemption applies to persons born in another state.
- ◆ Provides additional examples of documents issued by federally recognized Indian Tribes that meet the requirement as Level 1 verification of both citizenship and identity.
- ◆ Removes documents issued by Indian Tribes from the list of acceptable identity documents because these documents now meet the requirement as Level 1 verification of both citizenship and identity.

Effective Date

The changes related to copies made by **hawk-i** staff are effective January 1, 2010.

The changes extending qualified alien status to CFAS children under age 21 were effective July 1, 2009. Refer to General Letter No. 8-L-30, dated June 19, 2009, and the SPIRS announcement "Medicaid for Alien Children," dated November 24, 2009, for additional information.

Summary

These changes are being made because of federal legislation in the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), Public Law 111-3, and related guidance from the Centers for Medicare and Medicaid Services (CMS).

Chapter 8-C is revised to:

- ◆ Clarify the assignment of medical support to the Department that is in Iowa Code section 249A.6. The applications have been changed to clarify that this assignment is a requirement of Medicaid eligibility.
- ◆ Change the definition of the "reasonable opportunity period" for providing proof of citizenship and identity. The reasonable opportunity period begins when a written request for proof of citizenship and identity is issued and continues for 90 days.
- ◆ Change the following policies related to the reasonable opportunity period:
 - Medicaid shall be approved for otherwise eligible persons during the reasonable opportunity period.
 - A person shall be allowed to receive Medicaid benefits during only one 90-day reasonable opportunity period. Medicaid shall not be approved for a person who has already received benefits during a reasonable opportunity period until proof of citizenship and identity is provided.
 - Retroactive Medicaid is outside the reasonable opportunity period and shall not be approved until citizenship and identity are verified.

- ◆ Add a new process for verifying citizenship and identity through an automated IEVS match with the Social Security Administration. This new process:
 - Offers an alternative verification process which supplements, but does not replace, the current acceptable forms of documentation.
 - Adds system-generated forms and system tracking of the 90-day reasonable opportunity period.
 - Provides methods for handling IEVS matches that are either “consistent” or “inconsistent,” as well as situations when no match can be made with the Social Security Administration.
- ◆ Add confirmation of citizenship made via an IEVS automated data match as a primary (Level 1) form of citizenship and identity documentation.

Summary

Chapter 8-C is revised:

- ◆ Remove obsolete references to FMAP-related Medicaid pertaining to verification of citizenship and identity that have been replaced by MAGI-related policies and ELIAS procedures at <http://dhssp/manual/SitePages/Chapter3.aspx>.
- ◆ Correct policy regarding exemption from citizenship and identity verification requirements for children in out-of-home placements and for children in IV-E funded subsidized adoption or subsidized guardianship.
- ◆ Replace obsolete references to Iowa Family Planning Network with the current Family Planning Program terminology.
- ◆ Specify that a notation in an electronic case file of the type of citizenship and identity verification received is now an acceptable way to maintain the Department's record of successful verification. A hardcopy of paper documents is no longer required.
- ◆ Replace obsolete references to WIFS alerts with the current terminology of WISE alerts.
- ◆ Remove references to BCCT processing in PRSM since BCCT is now processed in ELIAS.
- ◆ Explain that documents used to verify citizenship and identity are now categorized as either primary or secondary.
- ◆ Replace the chart of acceptable documents for verifying citizenship and identity with a cross-reference to an updated chart found at <http://dhssp/manual/subsite/Chapter3References/90%20Day%20ROP%20Reference%20Guide.pdf>. NOTE: The updated chart reflects that the hierarchy of Levels 1-4 is no longer used to classify these documents. The updated chart also reflects other significant changes in the details of specific acceptable documents.

- ◆ Specify that an individual may now use affidavits to verify both citizenship and identity, while noting that affidavits are acceptable only when no other form of verification is available.
- ◆ Specify that original documents or copies certified by the issuing agency are no longer required to verify citizenship and identity. Copies, including copies provided by the applicant or member, are now generally acceptable.
- ◆ Remove references to a hierarchy of most reliable to least reliable citizenship and identity documents and remove the requirement that less reliable documents can only be accepted when more reliable documents are not available.
- ◆ Remove the reference to RC-0085, *Guide for Citizenship and Identification*, which is obsolete.
- ◆ Remove obsolete references to matching through the Birth Certificate Verification (BCV) system.
