

Eco-Map

Name: _____

Create your own Eco-Map.

Name: _____

Now that you have created your Eco-Map, consider the following questions:

1. What are at least five additional “systems” you know would be likely to be added to your Eco-Map with the addition of a child through foster care or adoption? List them here:

2. For each of the above systems, which would be a source of energy and which would require energy?

3. Which of your sources of energy might be negatively affected by your becoming a foster or adoptive family?

4. Which of your sources of energy might remain strong should you become a foster or adoptive family?
