Critical Incident Submission Guidelines per Iowa Administrative Code Chapter 77

Major incidents require notification by the end of the next calendar day following the incident. Minor incidents are reported to the staff's supervisor within 72 hours of the incident. Cases of abuse require notification to the DHS Abuse Hotline (1-800-362-2178) and the member's assigned MCO. **Note:** Mandatory incident reporting requirements to other entities continue to apply including, but not limited to, Iowa Code Chapter 235B and Iowa Administrative Code Chapter 50.

Submission Instructions

Direct entry of critical incidents can be completed electronically within each Managed Care Organization (MCO) and the Iowa Medicaid Portal Access (IMPA) system. Direct electronic entry is the preferred method. Link information for each MCO and IME electronic systems are provided below. Submit as much information as possible within the required reporting timeframes to the member's assigned MCO or to the IME if not assigned an MCO. If additional investigation is required for full resolution, please indicate this within the report. One will have the ability to return to the original entry in IMPA to add supplemental information regarding the incident and/or resolution.

Definitions

Root cause. A method of problem solving used for identifying the root causes of faults or problems then determining solutions to address those causes to avoid occurrences of the same incident.

Welfare check. A police welfare check takes place when law enforcement is sent out to check the wellbeing of a person. This check is done when the police have a reason to believe someone is harmed or in danger.

Natural causes. Death attributed to a pre-existing illness or disease, old age or an internal malfunction of the body not directly influenced by external forces such as violence or an accident.

Laceration. A break, cut, gash, or tear in the skin or flesh. An incision by a surgeon or physician is not a laceration on a patient.

DNR. Do not resuscitate.

Protective oversight. An awareness of the location of an individual where care is being provided; the ability to intervene on behalf of the individual; the supervision of nutrition, medication, or actual provisions of care; and the responsibility for the welfare of the individual.
