Iowa Department of Human Services

Annual Report of the hawk-i Board to The Governor, General Assembly, and Council on Human Services

December 2017

Table of Contents

Executive Summary

This is the State Fiscal Year 2017 (SFY17) (July 1, 2016 to June 30, 2017) Annual Report for the Healthy and Well Kids in Iowa **(*hawk-i)*** program.

The number of children enrolled in the program increased in SFY 17. The ***hawk-i*** enrollment was 42,984 and 3,361 were enrolled in the ***hawk-i*** Dental Only program. Outreach activities continue to increase awareness of the program to help assure that low-income children in Iowa get the health care they need either through Medicaid or the ***hawk-i*** program.

Managed Care Organizations
All ***hawk-i*** members had a choice of three Managed Care Organizations (MCOs) for health care coverage in SFY17. These MCOs were Amerigroup Iowa, Inc., AmeriHealth Caritas Iowa, Inc., and United Healthcare Plan of the River Valley, Inc. Dental coverage was provided through Delta Dental of Iowa.

Reauthorization of the program
The federal funding for the Children's Health Insurance Program (CHIP), which in Iowa is the ***hawk-i*** program and the Medicaid Expansion for children, ended on September 30, 2017. The Department continues to monitor for federal legislation on CHIP reauthorization. The Department has been in discussions with the Centers for Medicare and Medicaid Services and other states regarding options if CHIP is not reauthorized.

Introduction

Iowa Code Section 514I.5 (g) directs the ***hawk-i*** Board to submit an annual report to the Governor, General Assembly, and Council on Human Services concerning the Board's activities, findings, and recommendations. This report has been developed for the purposes of the above referenced Iowa Code section.

Program Description

Title XXI of the Social Security act enables states to provide health care coverage to uninsured, targeted low-income children. In Iowa, targeted low-income children are those children covered by a Medicaid Expansion, a separate program called Healthy and Well Kids in Iowa (***hawk-i***), and the ***hawk-i*** Dental-Only Program which was implemented on March 1, 2010. (See Attachment 2 Organization of the ***hawk-i*** program).

Effective January 1, 2014, the countable income levels were changed based on the introduction of the Modified Adjustable Gross Income (MAGI) methodology in accordance with the Affordable Care Act. This change aligns financial eligibility rules

across all insurance affordability programs; creates a seamless and coordinated system of eligibility and enrollment; and maintains eligibility of low-income populations, especially children.

The Medicaid Expansion component covers children ages 6 to 18 years of age whose countable family income is between 122 and 167 percent of the Federal Poverty Level (FPL) and infants 0 to 1 year of age whose countable family income is between 240 and 375 percent of the FPL. The ***hawk-i*** program provides healthcare coverage to children under the age of 19 whose countable family income is less than or equal to 302 percent of the FPL, who are not eligible for Medicaid and who are not covered under a group health plan or other health insurance. The ***hawk-i*** Dental-Only Program covers children who meet the financial requirements of the ***hawk-i*** program but are not eligible because they have health insurance. The Dental-Only program and the dental coverage with ***hawk-i*** provide preventive and restorative dental care services as well as medically-necessary orthodontia. (See Attachment 2 Iowa's Health Care Programs for Non-Disabled Children).

*See Attachment Two: Organization of the **hawk-i** program.*

Federal History

Congress established the Children's Health Insurance Program (CHIP) with passage of the Balanced Budget Act of 1997, which authorized $40 billion for the program through Federal Fiscal Year (FFY) 2007. Under the program, a federal block grant was awarded to states to provide health care coverage to children of families with income above Medicaid eligibility levels.

On February 4, 2009, President Obama signed the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), Public Law 111-3, into law. The CHIPRA legislation reauthorized CHIP for four and a half years through FFY 2013 and authorized approximately $44 billion in new funding for the program.

The Patient Protection and Affordable Care Act (ACA) was signed into law on March 23, 2010, and continues CHIP programs through September 30, 2019. Federal funding is authorized through September 30, 2017. The ACA has resulted in substantial changes to the program. Noteworthy changes include a single streamlined application as part of the enrollment process and switching to the MAGI methodology to determine family income. ACA also prohibits states from reducing current eligibility standards, referred to as maintenance of effort (MOE), until September 30, 2019.

<u>Reauthorization</u>
Under current law, federal funds for CHIP are only provided through federal fiscal year (FFY) 2017. In FFY18, states may continue to use unspent prior year allotments and Iowa expects to have sufficient funding to cover CHIP costs through at least March

2018. Based on current estimates, absent any new allotments, federal CHIP funding will be exhausted sometime during the quarter-ending June 30, 2018.

If funding is not reauthorized, the state will need to make decisions about children's coverage before funding runs out next year. The choices available will vary by program type. Iowa offers a combination program where a portion of CHIP-funded children are enrolled in Medicaid (Medicaid expansion CHIP) and the remainder are funded in a separate CHIP program; Healthy and Well Kids in Iowa (***hawk-i***). As of June 30, 2017, there are 16,075 children enrolled in Iowa's Medicaid expansion program and 42,984 enrolled in ***hawk-i***.

For Medicaid expansion covered children, states are prohibited from reducing eligibility levels until FFY20 due to federal maintenance of effort requirements. Therefore, if CHIP funding is exhausted, these children must continue to be covered through the regular Medicaid program and costs will be funded at the Medicaid federal match rate (currently 56.74 percent) rather than at the CHIP enhanced federal match rate (currently 92.72 percent). Assuming no other program changes, this change in federal match rate will increase state spending by $10 million to $15 million annually.

For ***hawk-i*** children, the state is not obligated to continue coverage if CHIP funding is exhausted. Therefore, decisions will need to be made regarding whether ***hawk-i*** should continue, and if so, in what form.

These potential changes to CHIP have significant policy and fiscal implications, and the department will be working with stakeholders as more information regarding federal program changes becomes available.

Iowa's CHIP Program

CHIP is a federal program operated by the state, financed with federal and state funds at a match rate of approximately 92 cents to $1.00. CHIP was enacted to cover uninsured children whose family income is above the income limits for Medicaid. As noted previously, Iowa's CHIP program has three components:

- **Medicaid Expansion** (Implemented 1998) – Provides health and dental services to infants 0 to 1 year of age and qualified children ages 6 – 19 through the state's Medicaid program at the enhanced federal matching rate. The children covered have income that is higher than regular Medicaid but lower than the income criteria for the ***hawk-i*** program.

- ***hawk-i*** (Implemented 1999) – Qualified children are covered through contracts with commercial managed care health and dental plans to deliver a full array of health and dental services. The ***hawk-i*** program covers preventive care (immunizations), primary care, hospital and emergency care, chiropractic care, vision, skilled nursing care, dental care, medically

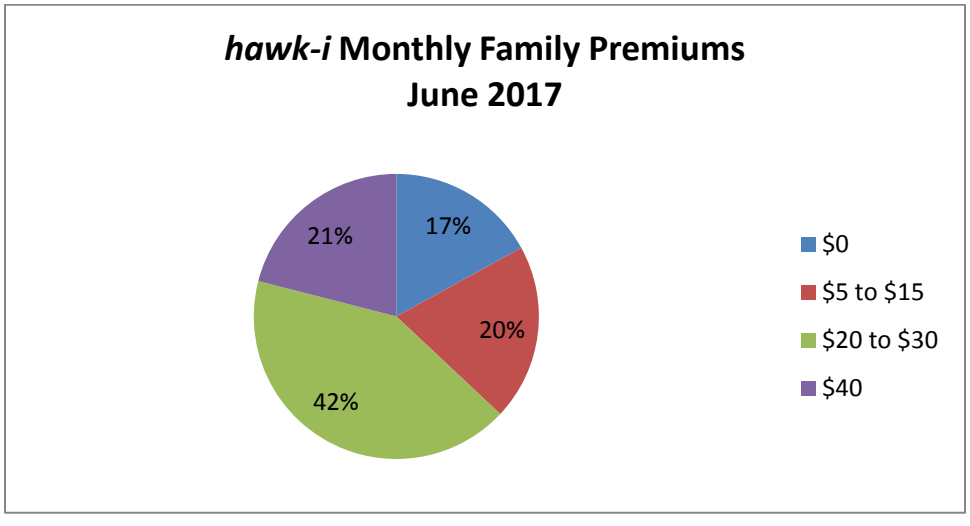
necessary orthodontia, and behavioral care including substance abuse and mental health treatment. The coverage package is similar to a comprehensive commercial health and dental insurance plan. The children covered are those with family income higher than the Medicaid Expansion program, and below 302 percent of the Federal Poverty Level (FPL).

- **Dental-Only Program** (Implemented 2010) - The ***hawk-i*** Dental-Only Program provides preventive and restorative dental care services as well as medically necessary orthodontia to children with income under 302 percent of the FPL that do not qualify for healthcare benefits under ***hawk-i*** because they have health insurance.

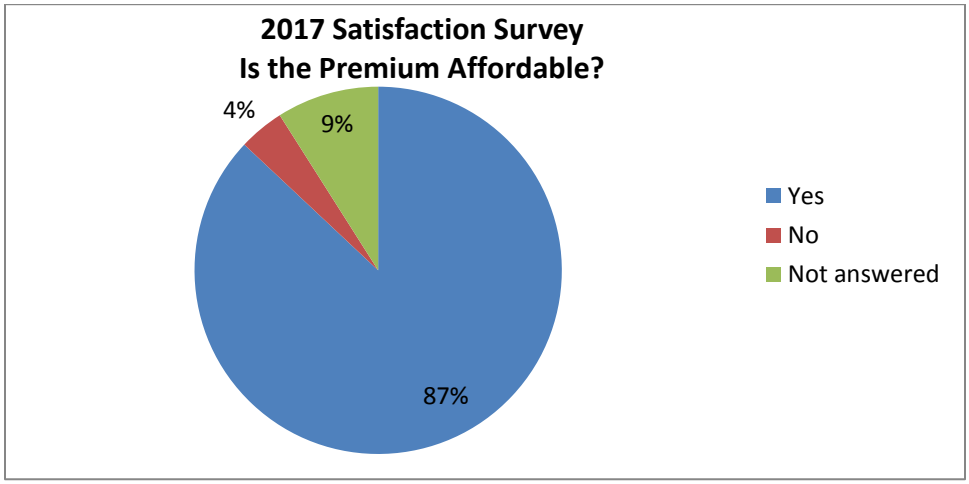
Key Characteristics of the *hawk-i* Program

The department pays monthly capitation premiums to commercial insurers and ***hawk-i*** program benefits are provided in the same manner as for commercial beneficiaries. The covered services under ***hawk-i*** are different from regular Medicaid and are approximately equivalent to the benefit package of the state's largest Health Maintenance Organization (HMO).

Within the ***hawk-i*** program (effective January 1, 2014), families with income over 181 percent of the FPL pay a monthly premium of $10 - $20 per child with a maximum of $40 based on family income. Premiums have not been increased since the program's implementation and Iowa's monthly premium compared to established federal poverty levels are consistently lower than most other states charging a monthly enrollee premium. In June 2017, 83 percent of enrolled ***hawk-i*** families paid a monthly premium and 17 percent paid no monthly premium amount.



According to the SFY2017 ***hawk-i*** enrollee satisfaction survey conducted by the third party administrator, 87 percent of respondents reported that the monthly premium was affordable while only four percent responded that the premium was not affordable.



The department contracts with a third party administrator for all aspects of application processing, eligibility determination, customer service, management of information systems, premium billing and collection, and health and dental plan enrollment. State staff provides policy guidance, contract management, and general program oversight.

Enrollment in Iowa's CHIP program has been instrumental in providing coverage to thousands of uninsured children since 1998 and Iowa has historically been among the top five states with the lowest uninsured rate among children.

See Attachment Two: History of Participation.

Budget

Federal Funding History

The CHIP program is authorized and funded through Title XXI of the Social Security Act. The program is capped with a fixed annual appropriation established by the legislation authorizing the program. Since implementation in 1997, state CHIP programs across the nation have provided healthcare coverage to millions of uninsured children.

From the initial total annual appropriation, every state was provided an allotment for the year based on a statutory formula established in the original legislation. Prior to FFY05, states were allocated federal funding based on the estimated number of uninsured children in the state estimated to be eligible for the program. In FFY06, the allocation formula was based on 50 percent of the number of low-income children for a fiscal year

and 50 percent of the number of low-income uninsured children defined in the three most recent population surveys of the Bureau of Census, with an adjustment for duplication.

States were allowed three years to spend each year's original allotment. At the end of the three-year-period, any unused funds were redistributed to other states. States receiving redistributed funds had one year to spend them. Unused funds remaining at the end of the year were returned to the U.S. Treasury.

With the passage of CHIPRA in 2009, the annual allotment formula was revised to more accurately reflect projected state and program spending. The new allotment formula for each of the 50 states and District of Columbia was determined as 110 percent of the highest of the following three amounts:

- Total federal payments under Title XXI to the state for FFY08, multiplied by an "allotment increase factor" for FFY09;
- FFY08 CHIP allotment multiplied by the "allotment increase factor" for FFY09; or
- The projected FFY09 payments under Title XXI as determined on the basis of the February 2009 estimates submitted and certified by states no later than March 31, 2009.

CHIPRA allowed states to maintain the three-year availability of funds for FFY98-FFY08 allotments, but changed to two-year availability of funds for allotments beginning with FFY09. Additionally, unexpended allotments for FFY07 and subsequent years were redistributed to states that were projected to have funding shortfalls after considering all available allotments and contingency fund payments.

Section 2104(m) (2) (A) (ii) of CHIPRA added a "rebasing" process in determining the FFY11 allotments. This requirement meant that the state payments, rather than their allotments, for FFY10 must be considered in calculating the FFY11 allotments. Specifically, the FFY11 allotments are determined by multiplying the increase factor for FFY11 by the sum of:

- Federal payments made from states available allotments in FFY10;
- Amounts provided as redistributed allotments in FFY10 to the state; and
- Federal payments attributable to any contingency fund payments made to the state for FFY10 determined under Section 2104(n) of the Act.

Rebasing occurred in FFY13 using the allotments and expenditures from FFY12.

State Funding:

The total original appropriation of state funds for SFY17 was: $ 9,719,684.

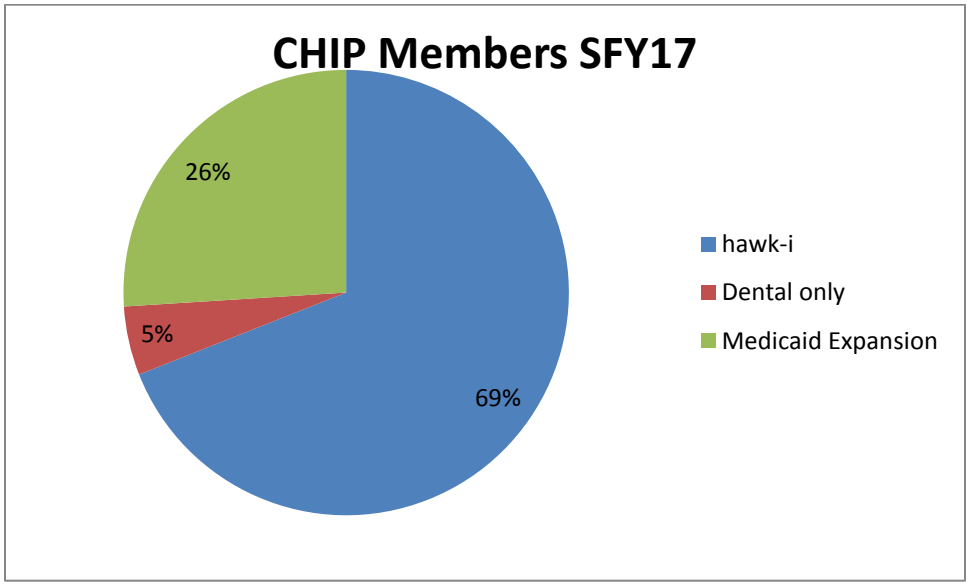
Available state funding for SFY17 appropriation includes:	
General Fund	$ 9,176,652
SFY17 ***hawk-i*** trust fund carried over to SFY18	$ 283,853
SF130 Budget Adjustment	$ 259,179
Total State Funding	$ 9,719,684

See Attachment One: Federal Funding and Expenditure History, SFY17 Final Budget and SFY18 Budget

Enrollment

As of June 30, 2017, 62,420 children were enrolled in Iowa's CHIP program. Of the total number enrolled,

- 16,075 (26 percent) were enrolled in Medicaid Expansion (M-CHIP),
- 42,984 (69 percent) in ***hawk-i***, and
- 3,361 (5 percent) in the ***hawk-i*** Dental-Only program.



There was a 0.6% increase in Medicaid Expansion, a 3.1% increase in ***hawk-i*** and a 3.6% increase in dental only.

It is projected that by June 30, 2018, the total number of children enrolled in CHIP will reach 66,415.

Quality

With the switch to the MCOs on April 1, 2016, the responsibility for the quality measures for the ***hawk-i*** program moved from Telligen to the MCOs. The MCOs are responsible for developing a quality management/quality improvement program to improve quality

outcomes for Medicaid and ***hawk-i*** members. The MCOs are also to report on quality measures such as well-child visits, adolescent well-child visits, diabetes management, etc. The Department monitors the quality measures to ensure that children as well as adults are receiving needed medical care. These reports can be found at https://dhs.iowa.gov/ime/about/performance-data/MC-quarterly-reports

Provider Network Access:
The Department reviews the provider networks of the three MCOs on a monthly basis to ensure that there is adequate access to all Medicaid and CHIP members. Assessment of the provider networks includes reviewing the number of primary care providers, specialists, and hospitals.

Outreach – Four Required Focus Areas

Successful collaboration continues between the Iowa DHS, Iowa Department of Public Health (IDPH), and the ***hawk-i*** Board of Directors. Local agency ***hawk-i*** Outreach Coordinators provide presumptive eligibility determinations for children and teens, which allows access to Medicaid covered medical, dental, and pharmacy services until a formal Medicaid eligibility or ***hawk-i*** eligibility determination is made. Designated ***hawk-i*** Outreach Coordinators are established in each of the local Child Health contract agency. Outreach Coordinators continued to provide critical outreach to communities in each of four required focus areas:

1. **Schools**
2. **Faith-based communities**
3. **Diverse ethnic populations**
4. **Medical/Dental providers**

Outreach to Schools

Providing outreach to schools at both the local and statewide level continues to be important in reaching uninsured, eligible children. Local coordinators from across the state work directly with school nurses as one method of finding these children. All local Outreach Coordinators have built relationships with school nurses to ensure uninsured children are connected to coverage. Many local Outreach Coordinators attend kindergarten round-ups and school registrations to talk directly to families about healthcare coverage, and some are able to complete presumptive eligibility determinations on the spot so the children walk away with coverage. In some communities, Outreach Coordinators also work with guidance counselors, coaches, or teachers in order to reach uninsured children. The state ***hawk-i*** Outreach Coordinator

attended the Iowa School Nurse Organization Conference in the spring to talk to school nurses about ***hawk-i*** and provide updated information about the program.

Several agencies work directly with their School-Based Sealant programs to provide ***hawk-i*** information to children whose parents request information on the release form. This is an effective way to identify uninsured children who may be eligible for ***hawk-i*** or Medicaid.

Outreach to the Faith-based Community

Local ***hawk-i*** Outreach Coordinators have established long-term relationships within their service areas and the faith-based organizations. Outreach Coordinators collaborate and partner with their local ministerial associations and churches across Iowa to promote the ***hawk-i*** program. Many local agencies provide ***hawk-i*** materials to faith-based organizations through email list-serves and mass mailings. Building relationships with the leadership of faith-based organizations allows the outreach coordinators to provide ***hawk-i*** materials to members and establishes the coordinators as a trusted resource for families in need.

Outreach to Medical Providers

Outreach Coordinators provide direct outreach to Iowa's medical and dental providers to educate them about the ***hawk-i*** program. There is a continued emphasis on engaging hospitals, medical clinics, dental offices, and pharmacists across the state and asking these trusted community leaders to talk to families about the ***hawk-i*** program. Since January 2014, hospitals and other provider types have had the ability to become Qualified Entities to provide presumptive eligibility for children and other populations. All local ***hawk-i*** outreach coordinators work with medical providers to encourage them to become Qualified Entities or to establish a referral system to ensure uninsured children are able to access healthcare coverage.

Outreach to Diverse Ethnic Populations

Outreach Coordinators continue to partner with and provide outreach to multicultural and diverse populations across Iowa. Outreach continues to be conducted at local and statewide ethnic health fairs, conferences, festivals, ethnic radio stations, and numerous other events that target ethnic populations. Local Outreach Coordinators are offered culturally competent resources and information throughout the year to help in their local outreach efforts. These resources are usually print resources, face–to-face trainings, and webinars.

Additional Outreach Activities

Local ***hawk-i*** Outreach Coordinators focus on many different areas outside of the four required focus areas. They have a strong understanding of their community needs and have developed partnerships to ensure families in their service area are aware of the ***hawk-i*** program. They also work closely with other professionals who know which families need healthcare coverage and other services. Below are examples of additional outreach activities:

- An innovative outreach approach this year was an Outreach Coordinator participated in a Rapid Response Team. It is a community partnership of agencies who offer information and resources to workforce and businesses that are experiencing lay-offs in their communities. They are able to offer ***hawk-i*** and Presumptive Eligibility services as an option.

- Many Outreach Coordinators work with insurance agents to identify children who need affordable healthcare coverage. They provide training and updated information and accept referrals from insurance agents.

- Outreach Coordinators attend health fairs and community events to promote the ***hawk-i*** program and increase awareness. The outreach coordinators are always working on new and innovative ways to bring families to their booth to talk to them about ***hawk-i***, such as unique promotional items and fun activities for children.

- All Outreach Coordinators are encouraged to work closely with their I-Smile™ Coordinator to promote the ***hawk-i*** Dental Only program. I-Smile™ Coordinators provide care coordination for children who need dental care. They frequently work with local dental offices and schools to find children who need dental care. They provide ***hawk-i*** Dental Only information to families in need of dental coverage who may qualify for ***hawk-i***.

- Outreach coordinators also utilize social media to promote the hawk-I program. They work with IDPH State Outreach Coordinator in working with their own content or get ideas from other agencies or websites e.g. InsureKidsNow.gov.

- Every spring the ***hawk-i*** Outreach Coordinators meet regionally to discuss outreach activities that are occurring in their region. In the fall, all 23 ***hawk-i*** Outreach Coordinators meet together to discuss current ***hawk-i*** outreach materials and make recommendations for improvements, updates, and potential new resources that would help families understand the ***hawk-i*** program.

- The IDPH State Coordinator exhibited ***hawk-i*** information at several conferences, including the Iowa School Nurse Organization's Conference, Nurse Practitioner Conference, Governor's Iowa Family Planning Conference, the 2017 Fall Seminar for Maternal and Child Health agencies and the Pediatric Nurses Conference in November.

See Attachment Two: Referral Sources/Outreach Points.

Presumptive Eligibility

Iowa Code 514I.5(e) requires the DHS to utilize presumptive eligibility when determining a child's eligibility for the medical assistance program. Effective March 1, 2010, Iowa implemented presumptive Medicaid eligibility for children under age 19.

Within the presumptive eligibility program, only qualified entities can enroll applicants into the program. A qualified entity is defined in 42 CFR 435.1101 and qualified entities must be determined by the DHS to be capable of making presumptive eligibility determinations. Based on other states' experience implementing presumptive eligibility, certification of qualified entities was initially limited to a select number of ***hawk-i*** outreach coordinators.

To date, Iowa has gradually expanded qualified entities and continues to add qualified entities in provider categories including: Head Start programs, WIC clinics, physicians, rural health clinics, general hospitals, federally qualified health centers (FQHC), local and area education agencies, maternal health centers, and birthing centers. As of July 30, 2017, there were 203 qualified entities (hospitals and agencies) that have been authorized to sign up children for the presumptive eligibility program. In SFY17, a total of 6,243 children were approved for presumptive eligibility.

All presumptive eligibility applications are also automatically forwarded from the qualified entity to the DHS for a determination of ongoing Medicaid coverage or ***hawk-i***.

*See Attachment Three: Presumptive eligibility for Medicaid and **hawk-i** program design.*

Participating Managed Care Organizations and Dental Plans

During SFY17, families in all 99 counties have a choice of three Managed Care Organizations (MCOs): Amerigroup Iowa Inc., AmeriHealth Caritas Iowa, Inc., and UnitedHealthcare Plan of the River Valley, Inc.

There is one dental plan, Delta Dental of Iowa, which participated for SFY17.

MCO and Dental Plan Capitation Rates

For SFY17, the monthly capitation rate for the participating MCOs was $152.57 per member per month. The rate for the dental plan was $22.99 per member per month.

The above rate was paid each month to the plans for each child enrolled with the plan, regardless of whether or not the enrolled child utilizes services.

See Attachment Four: History of Per Member Per Month Capitation Rate.

Board of Directors

Membership

The ***hawk-i*** Board is comprised of four public members, the Directors of Education and Public Health, and the Insurance Commissioner. There are four ex-officio legislative members, two from the House and two from the Senate.

*See Attachment Five: Healthy and Well Kids in Iowa (**hawk-i)** Board Members.*

Board Activities and Milestones

Iowa Code Section 514I.5 (1) requires the ***hawk-i*** Board to meet no less than six and no more than twelve times per calendar year. The Board generally meets the third Monday of every other month; meeting agenda and minutes are available on the ***hawk-i*** program web site at https://dhs.iowa.gov/hawk-i/hawk-i-board

2016	$ 149,001,388	$ 38,371,786					$ 187,373,174	$ 104,040,242	$ 83,332,932	17
2017	$ 145,720,122	$ 53,937,216					$ 199,657,338	$ 124,852,151	$ 74,805,187	

1 $6,128,422 of the FFY98 allotment that remains unspent added to redistribution pool

2 $11,418,468 of the FFY99 allotment that remains unspent added to redistribution pool

3 $8,445,148 of the FFY00 allotment that remains unspent added to redistribution pool

4 $4,277,482 of the FFY01 allotment that remains unspent added to redistribution pool

5 $0 of the FFY02 allotment that remains unspent added to redistribution pool

6 $0 of the FFY03 allotment that remains unspent added to redistribution pool

7 $0 of the FFY04 allotment that remains unspent added to redistribution pool

8 $4,363,257 of the FFY07 supplemental that remains unspent reverts to treasury

9 $7,066,402 of the FFY08 supplemental that remains unspent reverts to treasury

10 Iowa received $31,197,684 additional dollars in FY09 due to the CHIPRA legislation

11 Total federal dollars spent do NOT include the OIG adjustment. This adjustment will be done 1st qtr FFY11

12 Iowa received $29,517,883 as a contingency fund

13 The balance carryforward from FFY 2011 is from the contingency fund payment. Contingency funds are not always expended for CHIP related activities.

14 $24,652,065 of the carryforward amount from FFY12 is contingency funds

15 $12,039,162 of the carryforward amount from FFY13 is contingency funds

16 $8,775,391 of the carryforward amount from FFY14 is contingency funds.

17 $149,001,388 is the draft allotment projected for Iowa.

CHIP Program Budget SFY 2017 Final

FY17 Appropriation	$ 9,176,652
Amount of ***hawk-i*** Trust Fund dollars added to appropriation	$ 283,853
SF130 Budget Adjustment	$ 259,179
Total state appropriation for FY17	$ 9,719,684
Federal Revenues Budgeted	$112,316,657
*Other Revenues Budgeted	$ 7,342,526
Total	$129,378,867

State dollars spent YTD	$ 9,564,531
Federal Revenue earned YTD	$ 127,791,611
Other revenues YTD	$ 9,770,723
Total Revenues YTD	$ 137,562,334

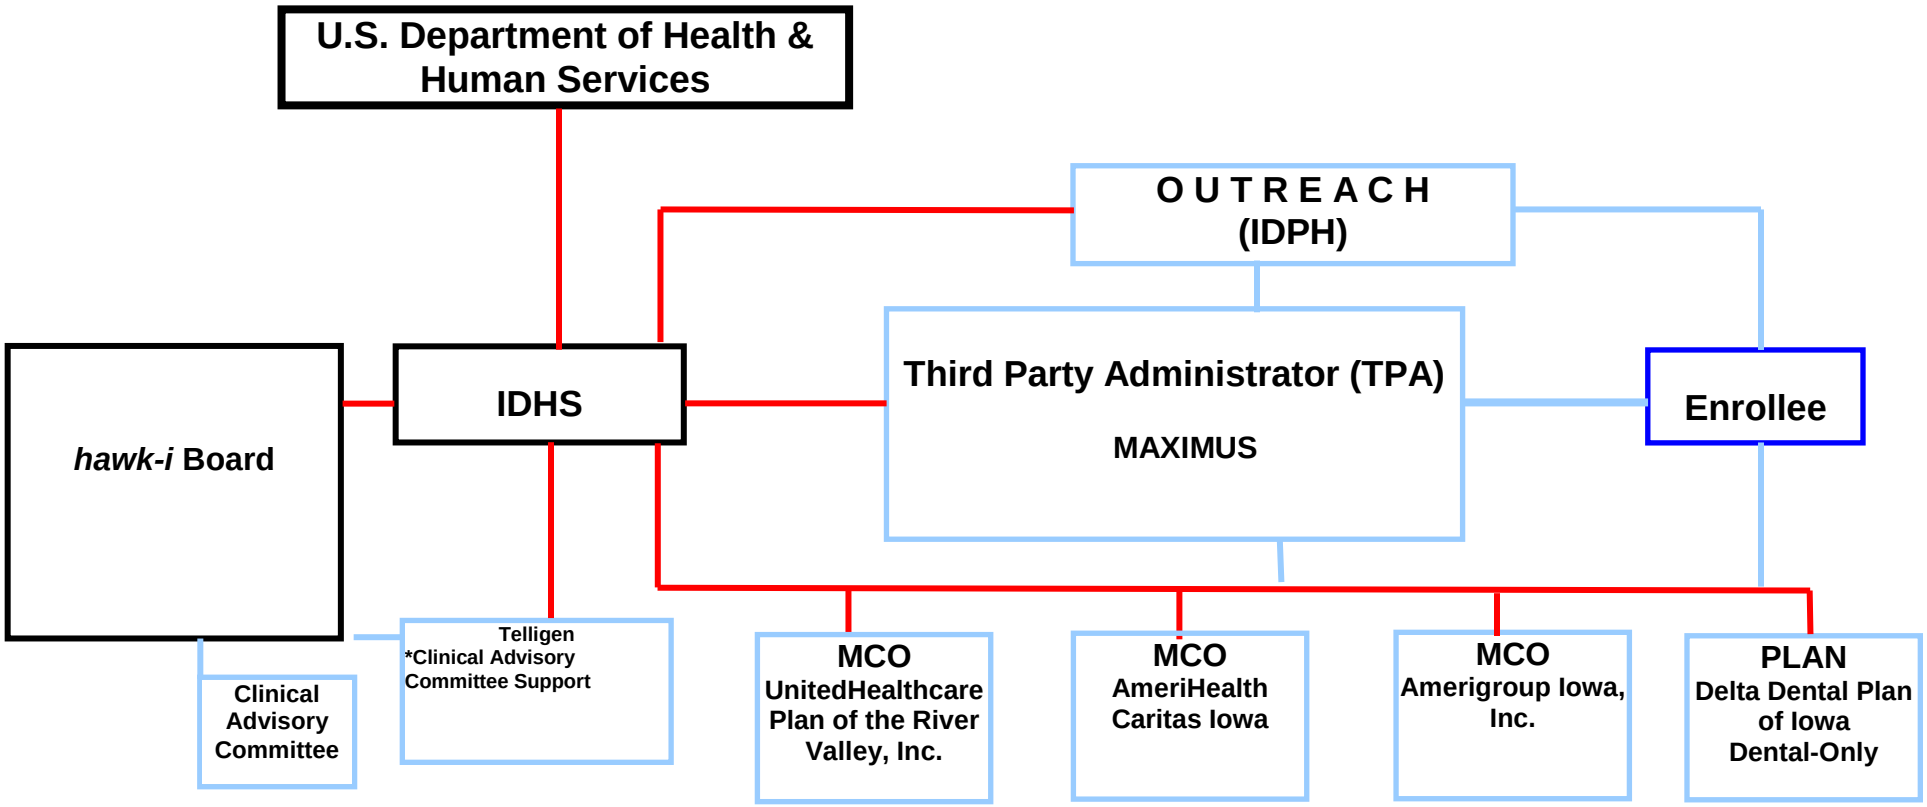
Attachment Two

- Organization of the ***hawk-i*** program
- Referral Sources – Outreach Points
- History of Participation
- Iowa's Health Care Programs for Non-Disabled Children

Organization of the *hawk-i* Program



Referral Sources/ Outreach Points

Any entity that is accessed by children or their families is potentially an outreach point where applications and information about the ***hawk-i*** program could be available. In addition to local DHS offices, schools, daycare centers, WIC sites, etc., other potential sources through which information could be provided may include organizations that deal with children (Girl Scouts, Boy Scouts, Little League, Big Brothers and Sisters, YMCA, etc.) and places frequented by children and their families (churches, fast food restaurants, roller skating rinks, & toy stores). Applications would be sent to the ***hawk-i*** third party administrator (TPA), MAXIMUS.

Functions of the outreach points:

The function of the outreach points includes, but is not limited to:

1. Disseminate information about the program.
2. Assist with the application process if able.

Healthy and Well Kids in Iowa (hawk-i) Board

The function of the ***hawk-i*** Board includes, but is not limited to:

1. Adopt administrative rules developed by DHS.
2. Establish criteria for contracts and approve contracts.
3. Approve enrollee benefit package.
4. Define regions of the state.
5. Select a health assessment plan.
6. Solicit public input about the ***hawk-i*** program.
7. Establish and consult with the clinical advisory committee/advisory committee on children with special health care needs.
8. Make recommendations to the Governor and General Assembly on ways to improve the program.

Department of Human Services (DHS)

The function of DHS includes, but is not limited to:

1. Work with the ***hawk-i*** Board to develop policy for the program.
2. Oversee administration of the program.
3. Administer the contracts with the TPA, MCOs, IDPH and Telligen.
4. Administer the State Plan.
5. Coordinate with the TPA when individuals applying for the ***hawk-i*** program may be Medicaid eligible and when Medicaid eligible recipients lose eligibility.
6. Provide statistical data and reports to CMS.

Third Party Administrator (TPA)

The functions of the TPA include, but may not be limited to:

1. Receive renewal applications and determine eligibility for the program.
2. Staff a 1-800 number to answer questions about the program and assist in the application process.
3. Coordinate with DHS when it appears an applicant may qualify for Medicaid.
4. Determine the amount of family cost sharing.
5. Bill and collect cost sharing.
6. Assist the family in choosing a MCO plan.
7. Notify the MCO of enrollment.
8. Provide customer service functions to the enrollees.
9. Provide statistical data to DHS.
10. Calculate and refer overpayments to DIA.

Clinical Advisory Committee

The Clinical Advisory Committee is made up of health care professionals who advise the ***hawk-i*** Board on issues around coverage and benefits.

MCO and Dental Plans

The functions of the MCO and dental plans are to:

1. Provide services to the enrollee in accordance with their contract.
2. Issue insurance cards
3. Process and pay claims
4. Provide statistical and encounter data.

History of Participation
Enrollment as of June 30th of the Fiscal Year
