SERVICES

What is Child Care Assistance?

Child Care Assistance (CCA) helps pay for the care of your child while a parent or caretaker works or attends school.

It might also be used to care for children while a parent or caretaker is looking for work or is temporarily unable to care for children because of medical reasons.

Who can help me find child care?

The Iowa Child Care Resource and Referral System (CCR&R) will give you information about the different types of care and how to choose excellent care.

They can help you find child care that is the best fit for your family.

 For more information, please call **855-244-5301**

or visit online at **iowaccrr.org**.

Who can care for my child?

You can choose who you want to care for your child.

CCA can be used to pay a variety of different types of providers. The provider you choose must be at least 18 years old and cannot be a parent or guardian of your child. You can choose a:

- ▶ Licensed child care center
- ▶ Licensed before and after school program
- ▶ Registered child development home
- ▶ Nonregistered child care home — the person must pass the child abuse and criminal record checks
- ▶ Person who cares for your children in your own home, if you have three or more children who need care

If your provider has not been approved by HHS, they will need to contact the **CCA Unit: 1-866-448-4605**

Your provider must meet certain requirements, pass background checks and meet health and safety standards.

Family income cannot exceed 250 percent of the Federal Poverty Level (or 275 percent for a child with special needs).
