What is the Chronic Condition Health Home Program?

Your Health Home is not a building or a place to live. It's care that gives you a team of health care professionals working together to meet all your health care needs. This is your chance to play a big role in your health care and gain healthier results related to chronic medical conditions.

What are the Extra Benefits of Having a Chronic Condition Health Home?

- During routine check-ups, more time will be spent planning for your health care needs.
- You and your Health Home team will have better communication. You will have access to your care team 24/7.
- Your provider is part of your care team who will handle all of your health care needs.
- Your medical records will be on the computer at your Health Home so your care team can see all of your health records. This will help you get safer care.

The Chronic Condition Health Home Program Gives Extra Help to Medicaid Members Living with Chronic Conditions.

To make sure you get the care you need, a plan is made by your PCP.

Your Health Home team will ask you about where you live, how you get around, family history and any barriers to care.

While on Medicaid, your Health Home team will be there to care for you.

Who is Eligible?

- Members who get full Medicaid benefits.
- Members who get full Medicaid benefits who also have Medicare.

How do I Know if I am Eligible?

Individuals who have two chronic conditions or one chronic condition and are at risk for a second chronic condition from the following list:

- High Blood Pressure
