## ABC System Users

### Subject: ABC System Dates

1. The date FPP reviews are mailed.
2. The date in-cycle RREDs are mailed.
3. The FIP due date for in-cycle RREDs.
4. The SNAP due date for in-cycle RREDs.
5. Recoupment transactions are processed.
6. The last day to enter transactions requiring timely notice without having them pend until after ABC cutoff, to be effective for the second future calendar month. This includes medical cancellations and transactions entered with these actions.
7. The date zero spenddown MN/SSI-related Medicaid reviews are mailed. Reviews are issued approximately 60 days in advance.
8. The cutoff date for regular transactions to affect the next month. Automatic cancellations due to expiration of SNAP or MN are processed to be effective for the next calendar month. Income and resource records are "rolled forward." Automatic changes (ending sanction and disqualification periods, cancellations for FIP age 19) are processed right after cutoff to be effective for the second future calendar month.
9. The date transactions that were pended for timely notice are released to be effective for the second future calendar month (the new "next" system month). This date is the first of the new system month in which data are both entered and processed. Date checks are written.
10. The date regular monthly FIP and State Supplementary Assistance checks other than RCF (and Medicaid cards) are mailed.
