Demographics

Current population demographics and changes in demographic composition over time play a determining role in the types of health and social services needed by communities.

Total Population

A total of 16,962 people live in the 721.01 square mile report area defined for this assessment according to the U.S. Census Bureau American Community Survey 2016-20 5-year estimates. The population density for this area, estimated at 24 persons per square mile, is less than the national average population density of 92 persons per square mile.

| Report Area | Total Population | Total Land Area (Square Miles) | Population Density (Per Square Mile) |
|-----------------|------------------|--------------------------------|--------------------------------------|
| Tama County, IA | 16,962 | 721.01 | 24 |
| Iowa | 3,150,011 | 55,853.42 | 56 |
| United States | 326,569,308 | 3,533,038.14 | 92 |

Urban and Rural Population

This indicator reports the percentage of population living in urban and rural areas. Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban. Of the report areas 17,767 population, 4,904 or 27.60% of the population is classified urban while 12,863 or 72.40% is rural.

| Report Area | Total Population | Urban Population | Rural Population | Urban Population, Percent | Rural Population, Percent |

Population Under Age 18

Of the estimated 16,962 total population in the report area, an estimated 4,152 persons are under the age of 18, representing 24.48% of the population. These data are based on the latest U.S. Census Bureau American Community Survey 5-year estimates. The number of persons under age 18 is relevant because this population has unique needs which should be considered separately from other age groups.

Population with Limited English Proficiency

This indicator reports the percentage of the population aged 5 and older who speak a language other than English at home and speak English less than "very well". This indicator is relevant because an inability to speak English well creates barriers to healthcare access, provider communications, and health literacy/education. Of the 15,874 total population aged 5 and older in the report area, 575 or 3.62% have limited English proficiency.

| Report Area | Population Age 5+ | Population Age 5+ with Limited English Proficiency | Population Age 5+ with Limited English Proficiency, Percent |

Foreign-Born Population

This indicator reports the percentage of the population that is foreign-born. The foreign-born population includes anyone who was not a U.S. citizen or a U.S. national at birth. This includes any non-citizens, as well as persons born outside of the U.S. who have become naturalized citizens. The native U.S. population includes any person born in the United States, Puerto Rico, a U.S. Island Area (such as Guam), or abroad of American (U.S. citizen) parent or parents. The latest figures from the U.S. Census Bureau show that 810 persons in the report area are of foreign birth, which represents 4.78% of the report area population. This percentage is less than the national average of 13.51%.

| Report Area | Total Population | Naturalized U.S. Citizens | Population Without U.S. Citizenship | Total Foreign-Birth Population | Foreign-Birth Population, Percent of Total Population |

Veteran Population by Age Group, Percent

Income and Economics

Economic and social insecurity often are associated with poor health. Poverty, unemployment, and lack of educational achievement affect access to care and a community’s ability to engage in healthy behaviors. Without a network of support and a safe community, families cannot thrive. Ensuring access to social and economic resources provides a foundation for a healthy community.

Employment - Labor Force Participation Rate

The table below displays the labor force participation rate for the report area. According to the 2016 – 2020 American Community Survey, of the 13,322 working age population, 8,591 are included in the labor force. The labor force participation rate is 64.49%.

| Report Area | Total Population Age 16+ | Labor Force | Labor Force Participation Rate |
|-----------------|--------------------------|-------------|--------------------------------|
| Tama County, IA | 13,322 | 8,591 | 64.49% |
| Iowa | 2,504,540 | 1,677,262 | 66.97% |
| United States | 261,649,873 | 164,759,496 | 62.97% |

Employment - Unemployment Rate

Total unemployment in the report area for the current month equals 436, or 4.6% of the civilian non-institutionalized population age 16 and older (non-seasonally adjusted). This indicator is relevant because unemployment creates financial instability and barriers to access including insurance coverage, health services, healthy food, and other necessities that contribute to poor health status.

| Report Area | Labor Force | Number Employed | Number Unemployed | Unemployment Rate |
|-----------------|-------------|-----------------|-------------------|-------------------|
| Tama County, IA | 9,416 | 8,980 | 436 | 4.6% |

Income - Inequality (GINI Index)

This indicator reports income inequality using the Gini coefficient. Gini index values range between zero and one. A value of one indicates perfect inequality where only one house-hold has any income. A value of zero indicates perfect equality, where all households have equal income.

Index values are acquired from the 2016-20 American Community Survey and are not available for custom report areas or multi-county areas.

| Report Area | Total Households | Gini Index Value |
|-----------------|------------------|------------------|
| Tama County, IA | 6,736 | 0.43 |
| Iowa | 1,273,941 | 0.44 |
| United States | 122,354,219 | 0.48 |

Income - Median Household Income

This indicator reports median household income based on the latest 5-year American Community Survey estimates. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income. There are 6,736 households in the report area, with an average income of \$70,159 and median income of \$54,749.

| Report Area | Total Households | Average Household Income | Median Household Income |
|-----------------|------------------|--------------------------|-------------------------|
| Tama County, IA | 6,736 | \$70,159 | \$54,749 |
| Iowa | 1,273,941 | \$80,316 | \$61,836 |

Poverty - Children Eligible for Free/Reduced Price Lunch

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 2,757 total public school students in the report area, 1,463 were eligible for the free or reduced price lunch program in the latest report year. This represents 53.06% of public school students, which is higher than the state average of 41.25%.

Note: States with more than 80% records "not reported" are suppressed for all geographic areas, including hospital service area, census tract, zip code, school district, county, state, etc.

| Report Area | Total Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent |
|-----------------|----------------|---|--|
| Tama County, IA | 2,757 | 1,463 | 53.06% |

Tama County, IA

Poverty - Population Below 100% FPL

Poverty is considered a *key driver* of health status.

Within the report area 12.57% or 2,072 individuals for whom poverty status is determined are living in households with income below the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

Note: The total population measurements for poverty reports are lower, as poverty data collection does not include people in group quarters. See Methodology for more details.

| Report Area | Total Population | Population in Poverty | Population in Poverty, Percent |
|-----------------|------------------|-----------------------|--------------------------------|
| Tama County, IA | 16,490 | 2,072 | 12.57% |
| Iowa | 3,051,284 | 339,090 | 11.11% |

Education

This category contains indicators that describe the education system and the educational outcomes of report area populations. Education metrics can be used to describe variation in population access, proficiency, and attainment throughout the education system, from access to pre-kindergarten through advanced degree attainment. These indicators are important because education is closely tied to health outcomes and economic opportunity.

Access - Preschool Enrollment (Age 3-4)

This indicator reports the percentage of the population age 3-4 that is enrolled in school. This indicator helps identify places where pre-school opportunities are either abundant or lacking in the educational system.

| Report Area | Population Age 3-4 | Population Age 3-4 Enrolled in School | Population Age 3-4 Enrolled in School, Percent |
|-----------------|--------------------|---------------------------------------|--|
| Tama County, IA | 315 | 209 | 66.35% |

Attainment - High School Graduation Rate

The adjusted cohort graduation rate (ACGR) is a graduation metric that follows a "cohort" of first-time 9th graders in a particular school year, and adjust this number by adding any students who transfer into the cohort after 9th grade and subtracting any students who transfer out, emigrate to another country, or pass away. The ACGR is the percentage of the students in this cohort who graduate within four years. In the report area, the adjusted cohort graduation rate was 94.1% during the most recently reported school year. Students in the report area performed better than the state, which had an

ACGR of 91.4%.

| Report Area | Adjusted Student Cohort | Number of Diplomas Issued | Cohort Graduation Rate |
|-----------------|-------------------------|---------------------------|------------------------|
| Tama County, IA | 236 | 222 | 94.1% |
| Iowa | 35,141 | 32,119 | 91.4% |
| United States | 3,095,240 | 2,715,610 | 87.7% |

High School Graduation Rate by Student Race and Ethnicity

The table and chart below display local, state, and national variation in cohort graduation rates by student race and ethnicity.

Note: Data are suppressed for some school districts for population groups when the "universe" population falls below a certain threshold. County, state, and national summaries are aggregates of district level data and may not represent all students when suppression has occurred.

| Report Area | Non-Hispanic White | Black or African American | Hispanic or Latino |
|-----------------|--------------------|---------------------------|--------------------|
| Tama County, IA | 96.2% | No data | 84.4% |
| Iowa | 92.9% | 79.7% | 81.3% |
| United States | 90.8% | 82.1% | 83.7% |

High School Graduation Rate by Year, 2012-13 through 2018-19

The table below shows local, state, and national trends in cohort graduation rates.

Note: Data for some states are omitted each year when they fail to meet federal reporting standards or deadlines. Use caution when comparing national trends as the "universe" population may differ over time.

| Report Area | 2012-13 | 2013-14 | 2014-15 | 2015-16 | 2016-17 | 2017-18 | 2018-2019 |

Attainment - No High School Diploma

Within the report area there are 997 persons aged 25 and older without a high school diploma (or equivalency) or higher. This represents 8.68% of the total population aged 25 and older. This indicator is relevant because educational attainment is linked to positive health outcomes (Freudenberg & Ruglis, 2007).

| Report Area | Total Population Age 25+ | Population Age 25+ with No High School Diploma | Population Age 25+ with No High School Diploma, Percent |

Attainment - Overview

Educational Attainment shows the distribution of the highest level of education achieved in the report area, and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25, and is an estimated average for the period from 2014 to 2020.

For the selected area, 11.4% have at least a college bachelor’s degree, while 41.1% stopped their formal educational attainment after high school.

| Report Area | No High School Diploma | High School Only | Some College | Associates Degree | Bachelors Degree | Graduate or Professional Degree |
|-----------------|------------------------|------------------|--------------|-------------------|------------------|---------------------------------|

Housing and Families

This category contains indicators that describe the structure of housing and families, and the condition and quality of housing units and residential neighborhoods. These indicators are important because housing issues like overcrowding and affordability have been linked to multiple health outcomes, including infectious disease, injuries, and mental disorders. Furthermore, housing metrics like home-ownership rates and housing prices are key for economic analysis.

Households - Overview

This indicator reports the total number and percentage of households by composition (married couple family, nonfamily, etc.). According to the American Community Survey subject definitions, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption*. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

*Family households and married-couple families do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption.

| Report Area | Total Households | Family Households | Family Households, Percent | Non-Family Households | Non-Family Households, Percent |
|-----------------|------------------|-------------------|----------------------------|-----------------------|--------------------------------|

Evictions

This indicator reports information about formal evictions based on court records from 48 states and the District of Columbia, compiled by the Eviction Lab. The number evictions and eviction filings within the report area is shown in below. The “filing rate” is the ratio of the number of evictions filed in an area over the number of renter-occupied homes in that area. An “eviction rate” is the subset of those homes that received an eviction judgment in which renters were ordered to leave. For the year 2016, the Eviction Lab reports that, of 1,585 homes in the report area, there were 29 eviction filings, for an eviction filing rate of 1.83%. 21 of the eviction filings ended in an eviction, for an eviction rate of 1.32%.

Note: Not all counties have data that has been provided. Indicator data do not include information about "informal evictions", or those that happen outside of the courtroom.

| Report Area | Renter Occupied Households | Eviction Filings | Evictions | Eviction Filing Rate | Eviction Rate |
|-----------------|----------------------------|------------------|-----------|----------------------|---------------|
| Tama County, IA | 1,585 | 29 | 21 | 1.83% | 1.32% |

Housing Costs - Cost Burden (30%)

This indicator reports the percentage of the households where housing costs are 30% or more of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels. Of the 6,736 total households in the report area, 1,385 or 20.56% of the population live in cost burdened households.

| Report Area | Total Households | Cost Burdened Households (Housing Costs Exceed 30% of Income) | Cost Burdened Households, Percent |
|-----------------|------------------|---|-----------------------------------|
| Tama County, IA | 6,736 | 1,385 | 20.56% |
| Iowa | 1,273,941 | 288,892 | 22.68% |

Housing Quality - Substandard Housing

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than 30%, and 5) gross rent as a percentage of household income greater than 30%. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard. Of the 6,736 total occupied housing units in the report area, 1,452 or 21.56% have one or more substandard conditions.

| Report Area | Total Occupied Housing Units | Occupied Housing Units with One or More Substandard Conditions | Occupied Housing Units with One or More Substandard Conditions, Percent |
|-----------------|------------------------------|--|---|

Substandard Housing Units, Percent of Total by Tract, ACS 2016-20

Substandard Housing: Number of Substandard Conditions Present

| Report Area | No Conditions | One Condition | Two or Three Conditions | Four Conditions |
|-----------------|---------------|---------------|-------------------------|-----------------|
| Tama County, IA | 78.44% | 20.40% | 1.16% | 0.00% |
| Iowa | 76.90% | 22.04% | 1.05% | 0.00% |
| United States | 68.55% | 29.63% | 1.81% | 0.01% |

Substandard Housing: Households Lacking Telephone Service

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

| Report Area | Housing Units Lacking Telephone Service | Housing Units Lacking Telephone Service | Owner-Occupied Units Lacking Telephone Service | Owner-Occupied Units Lacking Telephone Service | Renter-Occupied Units Lacking Telephone Service | Renter-Occupied Units Lacking Telephone Service |
|-----------------|---|---|--|--|---|---|
| Tama County, IA | 91 | 1.35% | 15 | 0.29% | 76 | 4.72% |
| Iowa | 20,472 | 1.61% | 10,140 | 1.12% | 10,332 | 2.82% |
| United States | 1,976,696 | 1.62% | 848,369 | 1.08% | 1,128,327 | 2.59% |

Substandard Housing: Households Lacking Complete Plumbing Facilities

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

| Report Area | Occupied Housing Units | Housing Units Lacking Complete Plumbing Facilities | Housing Units Lacking Complete Plumbing Facilities, Percent |
|-----------------|------------------------|--|---|
| Tama County, IA | 6,736 | 4 | 0.06% |
| Iowa | 1,273,941 | 3,671 | 0.29% |
| United States | 122,354,219 | 460,275 | 0.38% |

Substandard Housing: Households Lacking Complete Kitchen Facilities

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

| Report Area | Occupied Housing Units | Housing Units Lacking Complete Kitchen Facilities | Housing Units Lacking Complete Kitchen Facilities, Percent |
|-----------------|------------------------|---|--|
| Tama County, IA | 7,788 | 410 | 5.26% |
| Iowa | 1,407,819 | 35,156 | 2.50% |
| United States | 138,432,751 | 3,689,695 | 2.67% |

Housing Stock - Age

This indicator reports, for a given geographic area, the median year in which all housing units (vacant and occupied) were first constructed. The year the structure was built provides information on the age of housing units. These data help identify new housing construction and measures the disappearance of old housing from the inventory, when used in combination with data from previous years. This data also serves to aid in the development of formulas to determine substandard housing and provide assistance in forecasting future services, such as energy consumption and fire protection. There are a total 7,788 housing units in the report area, and the median year built is 1952.

| Report Area | Total Housing Units | Median Year Structures Built |
|-----------------|---------------------|------------------------------|
| Tama County, IA | 7,788 | 1952 |
| Iowa | 1,407,819 | 1970 |
| United States | 138,432,751 | 1978 |

Other Social & Economic Factors

Economic and social insecurity often are associated with poor health. Poverty, unemployment, and lack of educational achievement affect access to care and a community’s ability to engage in healthy behaviors. Without a network of support and a safe community, families cannot thrive. Ensuring access to social and economic resources provides a foundation for a healthy community.

Area Deprivation Index

This indicator reports the average (population weighted) Area Deprivation Index (ADI) for the selected area. The Area Deprivation Index ranks neighborhoods and communities relative to all neighborhoods across the nation (National Percentile) or relative to other neighborhoods within just one state (State Percentile). The ADI is calculated based on 17 measures related to four primary domains (Education; Income & Employment; Housing; and Household Characteristics). The overall scores are measured on a scale of 1 to 100 where 1 indicates the lowest level of deprivation (least disadvantaged) and 100 is the highest level of deprivation (most disadvantaged).

| Report Area | Total Population (2020) | State Percentile | National Percentile |

Insurance - Uninsured Population (ACS)

The lack of health insurance is considered a *key driver* of health status.

In the report area 6.27% of the total civilian non-institutionalized population are without health insurance coverage. The rate of uninsured persons in the report area is greater than the state average of 4.69%. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

| Report Area | Total Population (For Whom Insurance Status is Determined) | Uninsured Population | Uninsured Population, Percent |
|-----------------|--|----------------------|-------------------------------|
| Tama County, IA | 16,600 | 1,041 | 6.27% |

Social Vulnerability Index

The degree to which a community exhibits certain social conditions, including high poverty, low percentage of vehicle access, or crowded households, may affect that community's ability to prevent human suffering and financial loss in the event of disaster. These factors describe a community's social vulnerability.

The social vulnerability index is a measure of the degree of social vulnerability in counties and neighborhoods across the United States, where a higher score indicates higher vulnerability. The report area has a social vulnerability index score of 0.33, which is which is greater than the state average of 0.29.

| Report Area | Total Population | Socioeconomic Theme Score | Household Composition Theme Score | Minority Status Theme Score | Housing & Transportation Theme Score | Social Vulnerability Index Score |
|-----------------|------------------|---------------------------|-----------------------------------|-----------------------------|--------------------------------------|----------------------------------|
| Tama County, IA | 17,136 | 0.28 | 0.51 | 0.72 | 0.20 | 0.33 |

Teen Births

This indicator reports the seven-year average number of births per 1,000 female population age 15-19. Data were from the National Center for Health Statistics - Natality files (2013-2019) and are used for the 2021 County Health Rankings.

In the report area, of the 3,887 total female population age 15-19, the teen birth rate is 25.7 per 1,000, which is greater than the state's teen birth rate of 17.6.

Note: Data are suppressed for counties with fewer than 10 teen births in the time frame.

Property Crime - Total

This indicator reports the rate of property crime offenses reported by law enforcement per 100,000 residents. Property crimes include burglary, larceny-theft, motor vehicle theft, and arson. This indicator is relevant because it assesses community safety.

In the report area, 168 property crimes occurred in 2014 and 2016 (two years). The property crime rate of 1,050.9 per 100,000 residents is lower than the statewide rate of 2,074.6 per 100,000.

Note: Data are suppressed for counties if, for both years of available data, the population reported by agencies is less than 50% of the population reported in Census or less than 80% of agencies measuring crimes reported data.

| Report Area | Total Population | Property Crimes, Annual Average | Property Crimes, Annual Rate (Per 100,000 Pop.) |

Voter Participation Rate

This indicator reports the percentage of the adult population that voted in the national elections on November 2, 2020. Results are preliminary as of December 14, 2020. Voter participation rates are calculated as a percentage of the voting age population (age 18+) and not as a percentage of registered voters. In the 2020 election, of the report area's 12,557 voting age population, 9,048 or 72.1% have cast a vote.

| Report Area | Total Citizens Age 18+ | Total Votes Cast | Voter Participation Rate |

Physical Environment

A community's health also is affected by the physical environment. A safe, clean environment that provides access to healthy food and recreational opportunities is important to maintaining and improving community health.

Air & Water Quality - Particulate Matter 2.5

This indicator reports the percentage of days with particulate matter 2.5 levels above the National Ambient Air Quality Standard (35 micrograms per cubic meter) per year, calculated using data collected by monitoring stations and modeled to include counties where no monitoring stations occur. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

| Report Area | Total Population (2020) | Average Daily Ambient Particulate Matter 2.5 | Days Exceeding Emissions Standards | Days Exceeding Standards, Percent (Crude) | Days Exceeding Standards, Percent (Weighted) |
|-----------------|-------------------------|--|------------------------------------|---|--|

Built Environment - Broadband Access

This indicator reports the percentage of population with access to high-speed internet. Data are based on the reported service area of providers offering download speeds of 25 MBPS or more and upload speeds of 3 MBPS or more. This data represent both wireline and fixed/terrestrial wireless internet providers. Cellular internet providers are not included.

| Report Area | Total Population (2020) | Access to DL Speeds > 25MBPS (2020) |

Built Environment - Liquor Stores

This indicator reports the number of establishments in the report area primarily engaged in retailing packaged alcoholic beverages, such as ale, beer, wine, and liquor. The number of liquor stores per 100,000 population provides a measure of environmental influences on dietary behaviors and the accessibility of healthy foods. Note this data excludes establishments preparing and serving alcohol for consumption on premises (including bars and restaurants) or which sell alcohol as a secondary retail product (including gas stations and grocery stores).

Climate & Health - Drought Severity

Drought is defined as a moisture deficit bad enough to have social, environmental or economic effects. The Drought Monitor map identifies areas of drought and labels them by intensity¹. D1 is the least intense level and D4 the most intense. In the report area, 3.35% of weeks during the 2017-2019 period were spent in drought (any level). An additional 17.96% of weeks were categorized spent in "abnormally dry conditions" (D0) indicating that drought could occur, or that the area is recovering from drought but are not yet back to normal.

| Report Area | Time Period | Weeks in D0 (Abnormally Dry), Percent | Weeks in D1 (Moderate Drought), Percent | Weeks in D2 (Severe Drought), Percent | Weeks in D3 (Extreme Drought), Percent | Weeks in D4 (Exceptional Drought), Percent | Weeks in Drought (Any), Percent |

Food Environment - Fast Food Restaurants

This indicator reports the number of fast food restaurants per 100,000 population. The prevalence of fast food restaurants provides a measure of both access to healthy food and environmental influences on dietary behaviors. Fast food restaurants are defined as limited-service establishments primarily engaged in providing food services (except snack and nonalcoholic

beverage bars) where patrons generally order or select items and pay before eating.

| Report Area | Total Population (2010) | Number of Establishments | Establishments, Rate per 100,000 Population |

Food Environment - Food Desert Census Tracts

This indicator reports the number of neighborhoods in the report area that are within food deserts. The USDA Food Access Research Atlas defines a food desert as any neighborhood that lacks healthy food sources due to income level, distance to supermarkets, or vehicle access. The report area has a population of 3,648 living in food deserts and a total of 1 census tracts classified as food deserts by the USDA.

| Report Area | Total Population (2010) | Food Desert Census Tracts | Other Census Tracts | Food Desert Population | Other Population |

Food Environment - Grocery Stores

Healthy dietary behaviors are supported by access to healthy foods, and Grocery Stores are a major provider of these foods. There are 4 grocery establishments in the report area, a rate of 22.51 per 100,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Delicatessen-type establishments are also included. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores, are excluded.

| Report Area | Total Population (2010) | Number of Establishments | Establishments, Rate per 100,000 Population |

Food Environment - SNAP-Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains a total of 19 SNAP-authorized retailers with a rate of 11.31.

| Report Area | Total Population (2020) | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population |

Clinical Care and Prevention

A lack of access to care presents barriers to good health. Supply of facilities and physicians, the rate of uninsurance, financial hardship, transportation barriers, cultural competency, and coverage limitations affect access.

Rates of morbidity, mortality, and emergency hospitalizations can be reduced if community residents access services such as health screenings, routine tests, and vaccinations. Prevention indicators can call attention to a lack of access or knowledge regarding one or more health issues and can inform program interventions.

Cancer Screening - Mammogram (Medicare)

This indicator reports the percentage of female Medicare beneficiaries age 35 and older who had a mammogram in most recent reporting year. The American Cancer Society recommends that women age 45 to 54 should get a mammogram every year, and women age 55 and older should get a mammogram every other year. In the latest reporting period there were 3,713 Medicare beneficiaries in the report area, and 38% of female beneficiaries age 35 or older had a mammogram in the past year. The rate in the report area was lower than the state rate of 40% during the same time period.

| Report Area | Medicare Beneficiaries | Female Beneficiaries with Recent Mammogram, Percent |
|-----------------|------------------------|---|
| Tama County, IA | 3,713 | 38% |
| Iowa | 600,549 | 40% |
| United States | 57,235,207 | 33% |

| United States | 32% | 32% | 31% | 32% | 32% | 32% | 32% | 33% |

Diabetes Management - Hemoglobin A1c Test

This indicator reports the percentage of diabetic Medicare patients who have had a hemoglobin A1c (hA1c) test, a blood test which measures blood sugar levels, administered by a health care professional in the past year. Data is obtained from the Dartmouth Atlas Data - Selected Primary Care Access and Quality Measures (2008-2019). This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

As of year 2019, 263 or 93.93% Medicare enrollees with diabetes have had an annual exam out of 280 Medicare enrollees with diabetes in the report area.

| Report Area | Medicare Enrollees with Diabetes | Medicare Enrollees with Diabetes with Annual Exam | Medicare Enrollees with Diabetes with Annual Exam, Percent |
|-----------------|----------------------------------|---|--|
| Tama County, IA | 280 | 263 | 93.93% |

Medicare Enrollees with Diabetes with Annual Hemoglobin A1c Test by Year, 2008 through 2019

This indicator reports the percentage of Medicare enrollees with diabetes who have annual Hemoglobin A1c Test from 2008 to 2019.

Note: The Dartmouth Atlas Data team has noted substantial decreases in hemoglobin A1c testing in several HRRs in Montana and North Dakota between 2017 and 2018. A conclusive explanation cannot be established thus far for these changes, especially in smaller rural areas; caution should be used in interpreting longitudinal data for the measure.

| Report Area | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 |

Hospitalizations - Preventable Conditions

This indicator reports the preventable hospitalization rate among Medicare beneficiaries for the latest reporting period. Preventable hospitalizations include hospital admissions for one or more of the following conditions: diabetes with short-term complications, diabetes with long-term complications, uncontrolled diabetes without complications, diabetes with lower-extremity amputation, chronic obstructive pulmonary disease, asthma, hypertension, heart failure, bacterial pneumonia, or urinary tract infection. Rates are presented per 100,000 beneficiaries. In the latest reporting period there were 3,713 Medicare beneficiaries in the report area. The preventable hospitalization rate was 2,324. The rate in the report area was lower than the state rate of 2,418 during the same time period.

| Report Area | Medicare Beneficiaries | Preventable Hospitalizations, Rate per 100,000 Beneficiaries |
|-----------------|------------------------|--|
| Tama County, IA | 3,713 | 2,324 |
| Iowa | 600,549 | 2,418 |

Preventable Hospitalization Rate by Race and Ethnicity

The table and chart below display local, state, and national trends in preventable hospitalization rates among Medicare beneficiaries for the latest report year by patient race and ethnicity.

| Report Area | Non-Hispanic White | Black or African American | Hispanic or Latino |
|-----------------|--------------------|---------------------------|--------------------|
| Tama County, IA | 2,214 | No data | 0 |
| Iowa | 2,390 | 6,317 | 7,299 |
| United States | 2,754 | 4,914 | 3,014 |

Health Behaviors

Health behaviors such as poor diet, a lack of exercise, and substance abuse contribute to poor health status.

Alcohol - Heavy Alcohol Consumption

In the report area, 4,142, or 24.51% adults self-report excessive drinking in the last 30 days, which is less than the state rate of 25.77%. Data for this indicator were based on survey responses to the 2018 Behavioral Risk Factor Surveillance System (BRFSS) annual survey and are used for the 2021 County Health Rankings.

Excessive drinking is defined as the percentage of the population who report at least one binge drinking episode involving five or more drinks for men and four or more for women over the past 30 days, or heavy drinking involving more than two drinks per day for men and more than one per day for women, over the same time period. Alcohol use is a behavioral health issue that is also a risk factor for a number of negative health outcomes, including: physical injuries related to motor vehicle accidents, stroke, chronic diseases such as heart disease and cancer, and mental health conditions such as depression and suicide. There are a number of evidence-based interventions that may reduce excessive/binge drinking; examples include raising taxes on alcoholic beverages, restricting access to alcohol by limiting days and hours of retail sales, and screening and counseling for alcohol abuse (Centers for Disease Control and Prevention, Preventing Excessive Alcohol Use, 2020).

| Report Area | Total Population (2018) | Adults Reporting Excessive Drinking | Percentage of Adults Reporting Excessive Drinking |
|-----------------|-------------------------|-------------------------------------|---|
| Tama County, IA | 16,904 | 4,142 | 24.51% |
| Iowa | 3,156,145 | 813,426 | 25.77% |
| United States | 327,167,434 | 62,733,046 | 19.17% |

| Tama County, IA | 18.80% | 19.10% | 19.40% |
| Iowa | 19.50% | 20.90% | 22.50% |

Physical Inactivity

Within the report area, 3,142 or 23.9% of adults aged 20 and older self-report no active leisure time, based on the question: "During the past month, other than your regular job, did you participate in any physical activities or exercises such as running, calisthenics, golf, gardening, or walking for exercise?" This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as obesity and poor cardiovascular

health.

Note: In 2021, the CDC updated the methodology used to produce estimates for this indicator. Estimated values for prior years (2004 - 2017) have been updated in this platform to allow comparison across years. Use caution when comparing with saved assessments generated prior to November 10, 2021.

Health Outcomes

Measuring morbidity and mortality rates allows assessing linkages between social determinants of health and outcomes. By comparing, for example, the prevalence of certain chronic diseases to indicators in other categories (e.g., poor diet and exercise) with outcomes (e.g., high rates of obesity and diabetes), various causal relationship may emerge, allowing a better understanding of how certain community health needs may be addressed.

Cancer Incidence - All Sites

This indicator reports the age adjusted incidence rate (cases per 100,000 population per year) of cancer (all sites) adjusted to 2000 U.S. standard population age groups (Under age 1, 1-4, 5-9, ..., 80-84, 85 and older).

Within the report area, there were 124 new cases of cancer reported. This means there is a rate of 526.5 for every 100,000 total population.

| Report Area | Estimated Total Population | New Cases (Annual Average) | Cancer Incidence Rate (Per 100,000 Population) |
|-----------------|----------------------------|----------------------------|--|
| Tama County, IA | 23,551 | 124 | 526.5 |

| Tama County, IA | 2.9% | 7.0% |
| Iowa | 3.4% | 7.2% |
| United States | 4.5% | 7.5% |

Chronic Conditions - Diabetes (Adult)

This indicator reports the number and percentage of adults age 20 and older who have ever been told by a doctor that they have diabetes. This indicator is relevant because diabetes is a prevalent problem in the U.S.; it may indicate an unhealthy lifestyle and puts individuals at risk for further health issues.

Within the report area, 1,160 of adults age 20 and older have diabetes. This represents 7.4% of the total survey population.

Note: In 2021, the CDC updated the methodology used to produce estimates for this indicator. Estimated values for prior years (2004 - 2017) have been updated in this platform to allow comparison across years. Use caution when comparing with saved assessments generated prior to November 10, 2021.

| Report Area | Population Age 20+ | Adults with Diagnosed Diabetes | Adults with Diagnosed Diabetes, Age-Adjusted Rate |
|-----------------|--------------------|--------------------------------|---|
| Tama County, IA | 12,340 | 1,160 | 7.4% |
| Iowa | 2,336,892 | 226,251 | 8.4% |
| United States | 239,919,249 | 24,189,620 | 9.0% |

Note: This indicator is compared to the state average.

Low Birth Weight (CDC)

This indicator reports the percentage of live births where the infant weighed less than 2,500 grams (approximately 5 lbs., 8 oz.). These data are reported for a 7-year aggregated time period. Data were from the National Center for Health Statistics - Natality Files (2013-2019) and are used for the 2021 County Health Rankings.

Within the report area, there were 103 infants born with low birth weight. This represents 6.7% of the total live births.

Note: Data are suppressed for counties with fewer than 10 low birthweight births in the reporting period.

| Report Area | Total Live Births | Low Birthweight Births | Low Birthweight Births, Percentage |
|-----------------|-------------------|------------------------|------------------------------------|
| Tama County, IA | 1,526 | 103 | 6.7% |
| Iowa | 542,844 | 36,474 | 6.7% |
| United States | 54,416,819 | 4,440,508 | 8.2% |

Mortality - Cancer

This indicator reports the 2016-2020 five-year average rate of death due to malignant neoplasm (cancer) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummairized for report areas from county level data, only where data is available. This indicator is relevant because cancer is a leading cause of death in the United States.

Within the report area, there are a total of 218 deaths due to cancer. This represents an age-adjusted death rate of 173.2 per every 100,000 total population.

Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population, 2016-2020 Average | Five Year Total Deaths, 2016-2020 Total | Crude Death Rate (Per 100,000 Population) | Age-Adjusted Death Rate (Per 100,000 Population) |

Note: No county data available. See data source and methodology for more details.

Mortality - Coronary Heart Disease

This indicator reports the 2016-2020 five-year average rate of death due to coronary heart disease (ICD10 Codes I20-I25) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummared for report areas from county level data, only where data is available. This indicator is relevant because coronary heart disease is a leading cause of death in the United States.

Within the report area, there are a total of 107 deaths due to coronary heart disease. This represents an age-adjusted death rate of 74.7 per every 100,000 total population.

Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population, 2016-2020 Average | Five Year Total Deaths, 2016-2020 Total | Crude Death Rate (Per 100,000 Population) | Age-Adjusted Death Rate (Per 100,000 Population) |

Mortality - Lung Disease

This indicator reports the 2016-2020 five-year average rate of death due to chronic lower respiratory disease per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because lung disease is a leading cause of death in the United States.

Within the report area, there are a total of 58 deaths due to lung disease. This represents an age-adjusted death rate of 43.1 per every 100,000 total population.

Note: Data are suppressed for counties with fewer than 20 deaths in the time frame.

| Report Area | Total Population, 2016-2020 Average | Five Year Total Deaths, 2016-2020 Total | Crude Death Rate (Per 100,000 Population) | Age-Adjusted Death Rate (Per 100,000 Population) |
|-----------------|-------------------------------------|---|---|--|
| Tama County, IA | 16,987 | 58 | 68.3 | 43.1 |
| Iowa | 3,151,036 | 9,390 | 59.6 | 44.4 |

Mortality - Motor Vehicle Crash

This indicator reports the 2016-2020 five-year average rate of death due to motor vehicle crash per 100,000 population, which include collisions with another motor vehicle, a nonmotorist, a fixed object, and a non-fixed object, an overturn, and any other non-collision. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. This indicator is relevant because motor vehicle crash deaths are preventable and they are a cause of premature death.

Note: Fatality counts are based on the location of the crash and not the decedent's residence.

| Report Area | Total Population, 2016-2020 Average | Five Year Total Deaths, 2016-2020 Total | Crude Death Rate (Per 100,000 Population) | Age-Adjusted Death Rate (Per 100,000 Population) |

Mortality - Premature Death

This indicator reports the Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. Data were from the National Center for Health Statistics - Mortality Files (2017-2019) and are used for the 2021 County Health Rankings. This indicator is relevant because a measure of premature death can provide a unique and comprehensive look at overall health status.

Within the report area, there are a total of 245 premature deaths. This represents an age-adjusted death rate of 9,485 per every 100,000 total population.

Note: Data are suppressed for counties with fewer than 20 deaths in the three-year time frame.

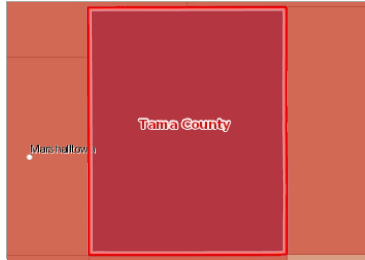

| Report Area | Premature Deaths, 2017-2019 | Years of Potential Life Lost, 2017-2019 Average | Years of Potential Life Lost, Rate per 100,000 Population |
|-----------------|-----------------------------|---|---|
| Tama County, IA | 245 | 4,376 | 9,485 |
| Iowa | 71,366 | 1,089,638 | 6,248 |
| United States | 7,697,253 | 126,961,190 | 6,943 |

Years of Potential Life Lost, Rate per 100,000 Population

Obesity

This indicator reports the number and percentage of adults aged 20 and older self-report having a Body Mass Index (BMI) greater than 30.0 (obese). Respondents were considered obese if their Body Mass Index (BMI) was 30 or greater. Body mass index (weight [kg]/height [m]²) was derived from self-report of height and weight. Excess weight may indicate an unhealthy lifestyle and puts individuals at risk for further health issues.

Within the report area, there are a total of 3,846 adults age 20 and older who self-reported having a BMI greater than 30.0. This represents a 30.7% of the survey population.

Note: In 2021, the CDC updated the methodology used to produce estimates for this indicator. Estimated values for prior years (2004 - 2017) have been updated in this platform to allow comparison across years. Use caution when comparing with saved assessments generated prior to November 10, 2021.

| Report Area | Population Age 20+ | Adults with BMI > 30.0 (Obese) | Adults with BMI > 30.0 (Obese), Percent |
|-----------------|--------------------|--------------------------------|---|
| Tama County, IA | 12,406 | 3,846 | 30.7% |
| Iowa | 2,339,100 | 759,769 | 32.3% |
| United States | 243,082,729 | 67,624,774 | 27.6% |

Note: This indicator is compared to the state average.

Special Topics - COVID-19

Indicators in this section are part of a series of rotating special topics. These indicators are publicly available to all users to help inform response to current events.

COVID-19 - Confirmed Cases

This indicator reports incidence rate of confirmed COVID-19 cases per 100,000 population. Data for this indicator are updated daily and derived from the Johns Hopkins University data feed.

In the report area, there have been 3,964 total confirmed cases of COVID-19. The rate of confirmed cases is 23,450.07 per 100,000 population, which is less than the state average of 24,591.84. Data are current as of 05/31/2022.

| Report Area | Total Population | Total Confirmed Cases | Confirmed Cases, Rate per 100,000 Population | Last Update |
|-----------------|------------------|-----------------------|--|-------------|
| Tama County, IA | 16,904 | 3,964 | 23,450.07 | 05/31/2022 |
| Iowa | 3,156,145 | 776,154 | 24,591.84 | 05/31/2022 |
| United States | 326,262,499 | 82,297,113 | 25,224.20 | 05/31/2022 |

Social Distancing - Mobility Reports (Google)

This indicator displays data from the Google mobility reports. These reports show how visits and length of stay at different places change compared to a baseline. The baseline is the *median* value, for the corresponding day of the week, during the 5-week period Jan 3–Feb 6, 2020. Google prepared this report to help you and public health officials understand responses to social-distancing guidance related to COVID-19.
