

AMENDING A CERTIFICATE OF BIRTH:

Obvious errors and omissions found on your birth certificate may be corrected through the “Amendment” process at the state Bureau of Health Statistics. To amend birth records one year or more after the event, submit the following:

1. A completed ‘Amendment to Certificate of Birth’ form that has been signed in front of a notary public by the individual named on the certificate. A parent or legal guardian must complete and sign the amendment form if the individual named on the record is under legal age or is legally incompetent. Instructions are printed on the back of the amendment form. AND
2. Supporting documents that verify the item being amended, plus identifying information on the record. All submitted copies will be returned to the applicant.
 - Each item being amended must be supported by information provided in the document. Separate documents may not be necessary for multiple corrections to the record if one document adequately verifies all the items you have requested to be amended. Examples of documents that may contain supporting evidence for an amendment are listed on the reverse side of this letter.
 - Each document must have been established prior to the amendment request and clearly dated.
 - For an individual age seven (7) years or older, documents must have been established at least five (5) years prior to the amendment request.
 - For a child age one (1) year to seven (7) years old, documents must have been established at least one (1) year prior to the amendment request.
 - Documents will be thoroughly reviewed by the state vital records office to verify accuracy.
