

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.

No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

Yes. The state requests that this waiver be considered for Independence Plus designation.

No. Independence Plus designation is not requested.

Appendix E: Participant Direction of Services

E-1: Overview (1 of 13)

- a. Description of Participant Direction.** In no more than two pages, provide an overview of the opportunities for participant direction in the waiver, including: (a) the nature of the opportunities afforded to participants; (b) how participants may take advantage of these opportunities; (c) the entities that support individuals who direct their services and the supports that they provide; and, (d) other relevant information about the waiver's approach to participant direction.

Iowa offers two self-direction services for members regardless of delivery (FFS members or MCO members)—the Consumer Choices Option (CCO) and Consumer Directed Attendant Care (CDAC) service. There is no difference in how the CCO and CDAC services work with the MCO and FFS members. The MCO per member/per month capitation does not affect the self-direction process; and the capitation does not affect the amount of budget available to the member.

Consumer Choices Option (CCO)

The CCO offers both employer and budget authority to the member self-directing services. At the time of service plan development and/or at the member's request, the member has the option to convert the following services into an individualized self-direction budget based on services that are authorized in their service plan: (1) consumer directed attendant care (unskilled); (2) home and vehicle modification; (3) specialized medical equipment; and (4) transportation

CCO gives members control over a targeted amount of waiver dollars. Under CCO a member may convert specific waiver services that have been authorized in the member's service plan to create an individual monthly budget. Members that choose to use CCO will use the individual monthly budget to meet their assessed needs by directly hiring employees or purchase other goods and services. A member may use the following three types of self-direction services to meet their assessed needs: (1) self-directed personal care services; (2) self-directed community supports and employment; and (3) individual-directed goods and services

If any of these options are elected, an Independent Support Broker (ISB) and Financial Management Service (FMS), by Sate administrative rule, must be involved. Two budgets will be developed as a result of the service plan development traditional services budget (includes traditional services for which the member does not have budget or employer authority) and the individual budget (includes services and supports for which the member does have budget and employer authority). Self-directed personal care services are services and/or goods that provide a range of assistance in the member's home or community, as well as activities of daily living and incidental activities of daily living that help the person remain in their home and in their community. Self-directed Community Supports and Employment are services that support the member in developing and maintaining life and community integration. Individual-directed goods and services are services, equipment or supplies not otherwise provided through the Medicaid State Plan that address an identified need in the service plan. The item or services would decrease the need for other Medicaid services, and/or promote inclusion in the community, and/or increase the member's safety in the community or home.

Members have authority over the individual authorized budget to perform the following tasks: (1) contract with entities to provide services and support; (2) determine the amount to be paid for services with the exception of the independent support broker and the financial management service whereas reimbursement rates are subject to the limits in 441 Iowa Administrative Code Chapter 79.1(2); (3) schedule the provision for services; (4) authorize payment for waiver goods and services identified in the individual budget; and (5) reallocate funds among services included in the budget. Individual monthly budget development includes the costs of the FMS, ISB, and any services and supports chosen by the member as optional service components.

All members choosing CCO will work with an ISB who will help them plan with their individual budget and services. The ISB works at the direction of the member and assists the member with their budget. For example, the ISB may help develop a monthly budget, recruit and interview potential employees, or assist with required paperwork. The ISB is required to attend an ISB training prior working with members. The ISB cannot be the guardian, power of attorney, or a provider of service to the member to avoid potential conflicts of interest. Per 441 Iowa Administrative Code 78.34(13)k," the ISB "shall perform the following services as directed by the member or the member's representative: (1) Assist the member with developing the member's initial and subsequent individual budgets and with making any changes to the individual budget. (2) Have monthly contact with the member for the first four months of implementation of the initial individual budget and have quarterly contact thereafter. (3) Complete the required employment packet with the financial management service. (4) Assist with interviewing potential employees and entities providing services and supports if requested by the member. (5) Assist the member with determining whether a potential employee meets the qualifications necessary to perform the job. (6) Assist the member with obtaining a signed consent from a potential employee to conduct background checks if requested by the member.

- (7) Assist the member with negotiating with entities providing services and supports if requested by the member.
- (8) Assist the member with contracts and payment methods for services and supports if requested by the member.
- (9) Assist the member with developing an emergency backup plan. The emergency backup plan shall address any health and safety concerns.
- (10) Review expenditure reports from the financial management service to ensure that services and supports in the individual budget are being provided.
- (11) Document in writing on the independent support broker timecard every contact the broker has with the member. Contact documentation shall include information on the extent to which the member's individual budget has addressed the member's needs and the satisfaction of the member."

Members will also work with an FMS provider that will receive Medicaid funds on behalf of the member. The FMS is a Medicaid provider and receives an electronic funds transfer (EFT) on a monthly basis for the member's monthly budget amount. The FMS is responsible for paying all employer taxes as required. Employees of the member are required to submit timecards within thirty days of providing the service for payment. The member's monthly budget includes a monthly per member, per month fee for the FMS provider, with the remainder designated for the purchase of goods and services for the member. Per 441 Iowa Administrative Code 78.34(13)"1," the FMS "shall perform all of the following services:

- (1) Receive Medicaid funds in an electronic transfer.
- (2) Process and pay invoices for approved goods and services included in the individual budget.
- (3) Enter the individual budget into the Web-based tracking system chosen by the department and enter expenditures as they are paid.
- (4) Provide real-time individual budget account balances for the member, the independent support broker, and the department, available at a minimum during normal business hours (9 a.m. to 5 p.m., Monday through Friday).
- (5) Conduct criminal background checks on potential employees pursuant to 441—Chapter 119.
- (6) Verify for the member an employee's citizenship or alien status.
- (7) Assist the member with fiscal and payroll-related responsibilities including, but not limited to:
 1. Verifying that hourly wages comply with federal and state labor rules.
 2. Collecting and processing timecards.
 3. Withholding, filing, and paying federal, state and local income taxes, Medicare and Social Security (FICA) taxes, and federal (FUTA) and state (SUTA) unemployment and disability insurance taxes, as applicable.
 4. Computing and processing other withholdings, as applicable.
 5. Processing all judgments, garnishments, tax levies, or other withholding on an employee's pay as may be required by federal, state, or local laws.
 6. Preparing and issuing employee payroll checks.
 7. Preparing and disbursing IRS Forms W-2 and W-3 annually.
 8. Processing federal advance earned income tax credit for eligible employees.
 9. Refunding over-collected FICA, when appropriate.
 10. Refunding over-collected FUTA, when appropriate.
- (8) Assist the member in completing required federal, state, and local tax and insurance forms.
- (9) Establish and manage documents and files for the member and the member's employees.
- (10) Monitor timecards, receipts, and invoices to ensure that they are consistent with the individual budget. Keep records of all timecards and invoices for each member for a total of five years.
- (11) Provide to the department, the independent support broker, and the member monthly and quarterly status reports that include a summary of expenditures paid and amount of budget unused.
- (12) Establish an accessible customer service system and a method of communication for the member and the independent support broker that includes alternative communication formats.
- (13) Establish a customer services complaint reporting system.
- (14) Develop a policy and procedures manual that is current with state and federal regulations and update as necessary.
- (15) Develop a business continuity plan in the case of emergencies and natural disasters.
- (16) Provide to the department an annual independent audit of the financial management service.
- (17) Assist in implementing the state's quality management strategy related to the financial management service."

A utilization adjustment factor (UAF) is used to adjust the CCO budget to reflect statewide average cost and usage of waiver services. Annually, the Department determines the average cost for each waiver service. The average service cost is used to determine the "cap amount" of the CCO budget. The cap amount is used to ensure the member stays within the program dollar cap limits within each waiver. The department also determines the percentage of services that are used,

compared to what is authorized within a waiver service plan. This percentage is applied to the cap amount to determine the CCO “budget amount”. The budget amount is the total funds available to the member in the monthly CCO budget. This UAF includes all HCBS waiver members in the calculation, not just members participating in CCO.

The member may choose to set aside a certain amount of the budget each month to save towards purchasing additional goods or services they cannot buy from the normal monthly budget. A savings plan must be developed by the member and approved by HHS prior to implementation. The good or service being saved for must be an assessed need identified in the member’s service plan.

Consumer Directed Attendant Care (CDAC)

The CDAC service began in Iowa in 1996 and was the first attempt by the State to offer self-directed services. CDAC is a self-directed service that offers the member employer authority only. There are two CDAC services— skilled and unskilled. See Appendix C for service description and provider qualifications. All CDAC providers are enrolled Medicaid providers and may be an individual employee or an agency. There are no FMS or ISB services to support the CDAC service, and the enrolled CDAC provider performs all billing through the Medicaid MMIS systems. The member is responsible for completing the CDAC agreement with the CDAC provider. The CDAC agreement identifies the personal care services that will be performed. The member is responsible for hiring, directing, and supervising the CDAC provider to assure their identified needs are being met.

Appendix E: Participant Direction of Services

E-1: Overview (2 of 13)

b. Participant Direction Opportunities. Specify the participant direction opportunities that are available in the waiver.
Select one:

Participant: Employer Authority. As specified in *Appendix E-2, Item a*, the participant (or the participant's representative) has decision-making authority over workers who provide waiver services. The participant may function as the common law employer or the co-employer of workers. Supports and protections are available for participants who exercise this authority.

Participant: Budget Authority. As specified in *Appendix E-2, Item b*, the participant (or the participant's representative) has decision-making authority over a budget for waiver services. Supports and protections are available for participants who have authority over a budget.

Both Authorities. The waiver provides for both participant direction opportunities as specified in *Appendix E-2*. Supports and protections are available for participants who exercise these authorities.

c. Availability of Participant Direction by Type of Living Arrangement. *Check each that applies:*

Participant direction opportunities are available to participants who live in their own private residence or the home of a family member.

Participant direction opportunities are available to individuals who reside in other living arrangements where services (regardless of funding source) are furnished to fewer than four persons unrelated to the proprietor.

The participant direction opportunities are available to persons in the following other living arrangements

Specify these living arrangements:

Assisted Living Facilities certified by the Department of Inspections and Appeals. The Department does not allow the use of self-direction services to members living in residential care facilities.

Appendix E: Participant Direction of Services

E-1: Overview (3 of 13)

d. Election of Participant Direction. Election of participant direction is subject to the following policy (*select one*):

Waiver is designed to support only individuals who want to direct their services.

The waiver is designed to afford every participant (or the participant's representative) the opportunity to elect to direct waiver services. Alternate service delivery methods are available for participants who decide not to direct their services.

The waiver is designed to offer participants (or their representatives) the opportunity to direct some or all of their services, subject to the following criteria specified by the state. Alternate service delivery methods are available for participants who decide not to direct their services or do not meet the criteria.

Specify the criteria

Appendix E: Participant Direction of Services

E-1: Overview (4 of 13)

- e. Information Furnished to Participant.** Specify: (a) the information about participant direction opportunities (e.g., the benefits of participant direction, participant responsibilities, and potential liabilities) that is provided to the participant (or the participant's representative) to inform decision-making concerning the election of participant direction; (b) the entity or entities responsible for furnishing this information; and, (c) how and when this information is provided on a timely basis.

Self-direction training and outreach materials are available through the Iowa Medicaid website and MCOs. Materials include information on the benefits, responsibilities, and liabilities of self-direction. A brochure about this option has been developed and includes information about the benefits, responsibilities, and liabilities. This brochure is available at all the local HHS offices, the HHS website, and has been distributed to other community agencies. The member may also call Iowa Medicaid Member Services and request to have the brochure mailed directly to them.

The case manager, health home coordinator, or community-based case manager is required to discuss this option along with the benefits, responsibilities, and liabilities at the time of the service plan development and/or any time the member's needs change. This results in information about member direction activities being reviewed, at least annually, with the member. This option is intended to be very flexible; members can choose this option at any time. Once given information about this option, the member can immediately elect this option, or can elect to continue or start with traditional services initially and then change to self-direction at a later date. All members must sign an informed consent contract and a risk agreement that permits the member to acknowledge and accept certain responsibilities for addressing risks

MCOs must also provide ongoing member or representative training upon request and/or if it is determined a member needs additional training. Training programs are designed to address the following: (i) understanding the role of members and/or representatives in self-direction; (ii) selecting and terminating providers; (iii) being an employer and managing employees; (iv) conducting administrative tasks such as staff evaluations and approval of time sheets; (v) scheduling providers; and (vi) back-up planning. All MCO training and education materials are subject to review and approval by the State.

To give the member an opportunity to locate providers and supports, the service plan can reflect that traditional services will begin at the start date of the service plan and the self-directed services and supports will begin at a later date. This does not require a change in the service plan. Members can elect self-direction and then elect to go back to traditional services at any time. The case manager, health home coordinator, or community-based case manager is responsible for informing the member of their rights and responsibilities. All self-directed services and supports must begin on the first of a month.

Appendix E: Participant Direction of Services

E-1: Overview (5 of 13)

f. Participant Direction by a Representative. Specify the state's policy concerning the direction of waiver services by a representative (*select one*):

The state does not provide for the direction of waiver services by a representative.

The state provides for the direction of waiver services by representatives.

Specify the representatives who may direct waiver services: (*check each that applies*):

Waiver services may be directed by a legal representative of the participant.

Waiver services may be directed by a non-legal representative freely chosen by an adult participant.

Specify the policies that apply regarding the direction of waiver services by participant-appointed representatives, including safeguards to ensure that the representative functions in the best interest of the participant:

Services may be self-directed by a non-legal representative freely chosen by an adult member. The policies described in this section apply to both the fee-for-service and managed care delivery systems. If the member selects a non-legal representative, the representative cannot be a paid provider of services and must be eighteen years or age or older. The member and the representative must sign a consent form designating who they have chosen as their representative and what responsibilities the representative will have. The choice must be documented in the member's file and provided to the member and their representative. At a minimum, the representative's responsibilities include ensuring decisions made do not jeopardize the health and welfare of the member and ensuring decisions made do not financially exploit the member.

Iowa Medicaid uses a quality assurance process to interview members in order to determine whether or not the representative has been working in their best interest. The interviews are completed primarily by telephone and may be completed in-person if requested. The interviews are conducted as an ongoing QA activity and are used to ensure that members' needs are met and that services are provided. QA interviews are completed monthly with a randomly selected representative sample of members. The interview sample selection size assures a 95% confidence level in the results of the interviews.

In addition, the Independent Support Broker provides monitoring of health and safety. The member's case manager, CBCM, or health home coordinator is responsible to assess individual needs and monitor service delivery to assure that the member's health and safety are being addressed. Case managers, CBCMs, and health home coordinators routinely review how services are being provided and monitor services to assure the member's needs are being met, including how the representative is performing.

MCOs are contractually required to maintain quality assurance processes to ensure that the representative functions in the best interest of the member. These quality assurance processes are subject to HHS review and approval and include, but are not limited to, monthly member interviews, to assess whether a non-legal representative is working in the best interest of the member. HHS provides additional oversight in accordance with the HCBS quality improvement strategy.

Appendix E: Participant Direction of Services

E-1: Overview (6 of 13)

g. Participant-Directed Services. Specify the participant direction opportunity (or opportunities) available for each waiver service that is specified as participant-directed in Appendix C-1/C-3.

Waiver Service	Employer Authority	Budget Authority
Home and Vehicle Modification		
Self Directed Personal Care		
Self Directed Community Support and Employment		

Waiver Service	Employer Authority	Budget Authority
Homemaker		
Independent Support Brokerage Service		
Senior Companion		
Transportation		
Assistive Devices		
Home Delivered Meals		
Adult Day Health		
Chore Services		
Individual Directed Goods and Services		
Consumer Directed Attendant Care - Unskilled		
Respite		

Appendix E: Participant Direction of Services

E-1: Overview (7 of 13)

h. Financial Management Services. Except in certain circumstances, financial management services are mandatory and integral to participant direction. A governmental entity and/or another third-party entity must perform necessary financial transactions on behalf of the waiver participant. *Select one:*

Yes. Financial Management Services are furnished through a third party entity. *(Complete item E-1-i).*

Specify whether governmental and/or private entities furnish these services. *Check each that applies:*

Governmental entities

Private entities

No. Financial Management Services are not furnished. Standard Medicaid payment mechanisms are used. *Do not complete Item E-1-i.*

Appendix E: Participant Direction of Services

E-1: Overview (8 of 13)

i. Provision of Financial Management Services. Financial management services (FMS) may be furnished as a waiver service or as an administrative activity. *Select one:*

FMS are covered as the waiver service specified in Appendix C-1/C-3

The waiver service entitled:

Financial Management Service

FMS are provided as an administrative activity.

Provide the following information

i. Types of Entities: Specify the types of entities that furnish FMS and the method of procuring these services:

The financial institution shall either: (1) Be cooperative, nonprofit, member-owned and member-controlled, and federally insured through and chartered by either the National Credit Union Administration (NCUA) or the credit union division of the Iowa department of commerce; or (2) Be chartered by the Office of the Comptroller of the Currency, a bureau of the U.S. Department of the Treasury, and insured by the Federal Deposit Insurance Corporation (FDIC).

b. The financial institution shall complete a financial management readiness review and certification conducted by the department or its designee.

c. The financial institution shall obtain an Internal Revenue Service federal employee identification number dedicated to the financial management service.

d. The financial institution shall enroll as a Medicaid provider. MCOs are responsible for contracting with an FMS entity or entities to assist members who elect to self-direct.

All MCO contracted FMS entities must meet the requirements documented in this section. Under the managed care delivery system, the FMS entity contracted with the MCO is responsible for the same functions as under the fee-for-service model.

The FMS is only used for the CCO program and is not available through CDAC. CDAC, the participant does not have the budget authority and all CDAC claims are submitted to either the State agency or the participant's MCO.

ii. Payment for FMS. Specify how FMS entities are compensated for the administrative activities that they perform:

FMS entities are paid a monthly fee for their services.

iii. Scope of FMS. Specify the scope of the supports that FMS entities provide (*check each that applies*):

Supports furnished when the participant is the employer of direct support workers:

Assist participant in verifying support worker citizenship status

Collect and process timesheets of support workers

Process payroll, withholding, filing and payment of applicable federal, state and local employment-related taxes and insurance

Other

Specify:

Supports furnished when the participant exercises budget authority:

Maintain a separate account for each participant's participant-directed budget

Track and report participant funds, disbursements and the balance of participant funds

Process and pay invoices for goods and services approved in the service plan

Provide participant with periodic reports of expenditures and the status of the participant-directed budget

Other services and supports

Specify:

Additional functions/activities:

Execute and hold Medicaid provider agreements as authorized under a written agreement with the Medicaid agency

Receive and disburse funds for the payment of participant-directed services under an agreement with the Medicaid agency or operating agency

Provide other entities specified by the state with periodic reports of expenditures and the status of the participant-directed budget

Other

Specify:

- iv. Oversight of FMS Entities.** Specify the methods that are employed to: (a) monitor and assess the performance of FMS entities, including ensuring the integrity of the financial transactions that they perform; (b) the entity (or entities) responsible for this monitoring; and, (c) how frequently performance is assessed.

Iowa Medicaid provides oversight of the FMS entities and monitors their performance yearly. Oversight is conducted through an annual self-assessment, and an on-site review completed by HHS or by a designated Iowa Medicaid unit. As noted above, FMS entities must also be enrolled as Medicaid providers. The MCOs are required to mirror this oversight process for their FMS entities and the Iowa Medicaid reviews for compliance and monitors outcomes.

Appendix E: Participant Direction of Services

E-1: Overview (9 of 13)

- j. Information and Assistance in Support of Participant Direction.** In addition to financial management services, participant direction is facilitated when information and assistance are available to support participants in managing their services. These supports may be furnished by one or more entities, provided that there is no duplication. Specify the payment authority (or authorities) under which these supports are furnished and, where required, provide the additional information requested (*check each that applies*):

Case Management Activity. Information and assistance in support of participant direction are furnished as an element of Medicaid case management services.

Specify in detail the information and assistance that are furnished through case management for each participant direction opportunity under the waiver:

The case manager, health home coordinator, or community-based case manager provides the waiver member with information and assistance with choosing the CCO program or CDAC service as part of the person-centered service planning process. The case manager, health home coordinator, or community-based case manager also assists the member in locating an Individual Support Broker to assist with the planning and managing a monthly CCO budget and is responsible for monitoring the delivery of goods and services as identified in the service plan.

The CCO program conducts regular CCO webinars to provide case managers, health home coordinators, community-based case managers, and ISB’s with information on understanding and implementing the CCO program. The webinars also identify self-direction issues that have been identified through quality assurance activities. All case managers, health home coordinators, and community-based case managers are welcome to attend the webinars, which are also recorded and made available for those unable to attend.

CDAC is a self-directed service that offers the member employer authority only. There are two CDAC services—skilled and unskilled. See Appendix C for service description and provider qualifications. All CDAC providers are enrolled Medicaid providers and may be an individual employee or an agency. There are no FMS or ISB services to support the CDAC service, and the enrolled CDAC provider performs all billing through the Medicaid MMIS systems. The member is responsible for completing the CDAC agreement with the CDAC provider. The CDAC agreement identifies the personal care services that will be performed. The member is responsible for hiring, directing, and supervising the CDAC provider to assure their identified needs are being met.

Waiver Service Coverage.

Information and assistance in support of participant direction are provided through the following waiver service coverage(s) specified in Appendix C-1/C-3 (check each that applies):

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Home and Vehicle Modification	
Self Directed Personal Care	
Home Health Aide Services	
Case Management	
Nursing Services	
Self Directed Community Support and Employment	
Mental Health Outreach	
Homemaker	
Independent Support Brokerage Service	
Personal Emergency Response or Portable Locator System	
Senior Companion	
Transportation	
Assistive Devices	
Nutritional Counseling	
Home Delivered Meals	
Adult Day Health	

Participant-Directed Waiver Service	Information and Assistance Provided through this Waiver Service Coverage
Assisted Living	
Financial Management Service	
Consumer Directed Attendant Care - Skilled	
Chore Services	
Individual Directed Goods and Services	
Consumer Directed Attendant Care - Unskilled	
Respite	

Administrative Activity. Information and assistance in support of participant direction are furnished as an administrative activity.

Specify (a) the types of entities that furnish these supports; (b) how the supports are procured and compensated; (c) describe in detail the supports that are furnished for each participant direction opportunity under the waiver; (d) the methods and frequency of assessing the performance of the entities that furnish these supports; and, (e) the entity or entities responsible for assessing performance:

Through a contract with the Iowa Medicaid the HCBS QIO provides support and assistance to case managers, health home coordinators, community-based case managers, members, providers, ISBs, and others needing information about HCBS waiver programs. This includes the self-direction program. The technical assistance provided includes developing and conducting regularly scheduled webinar trainings, developing and implementing required ISB training and answering questions from the field about the CCO program.

The Quality Assurance and Technical Assistance contract is procured through a competitive bidding process. A request for proposal is issued every three years to solicit bids. The RFP specifies the scope of work to be completed by the contractor. The RFP process also includes a pricing component to assure that the contractor is reimbursed in an amount that assures performance outcomes are achieved in a cost-effective manner.

The Quality Assurance and Technical Assistance contract is managed by an Iowa Medicaid state employee. This employee acts as the contract manager and manages the day-to-day operations of the contract to assure compliance with the performance outcomes of the contract. Contract reports are received by Iowa Medicaid monthly, quarterly and annually on the performance measures of the contract. Any performance issues that arise are addressed with the Quality Assurance contract manager to make corrections and improve performance.

Appendix E: Participant Direction of Services

E-1: Overview (10 of 13)

k. Independent Advocacy *(select one).*

No. Arrangements have not been made for independent advocacy.

Yes. Independent advocacy is available to participants who direct their services.

Describe the nature of this independent advocacy and how participants may access this advocacy:

Appendix E: Participant Direction of Services

E-1: Overview (11 of 13)

i. Voluntary Termination of Participant Direction. Describe how the state accommodates a participant who voluntarily terminates participant direction in order to receive services through an alternate service delivery method, including how the state assures continuity of services and participant health and welfare during the transition from participant direction:

Members may receive traditional waiver services, as well as services and supports under an individual budget for self-direction. Any waiver member may voluntarily discontinue the self-direction option at any time, regardless of delivery system (FFS member or MCO members). The member will continue to be eligible for services as specified in the service plan, regardless of whether they select the self-direction option. A new service plan will be developed if the member’s needs change or if they voluntarily discontinue the self-direction option. The case manager, health home coordinator, or community-based case manager will work with the member to ensure that services are in place and that service continuity is maintained.

Appendix E: Participant Direction of Services

E-1: Overview (12 of 13)

m. Involuntary Termination of Participant Direction. Specify the circumstances when the state will involuntarily terminate the use of participant direction and require the participant to receive provider-managed services instead, including how continuity of services and participant health and welfare is assured during the transition.

For fee-for-service enrollees, case manager or health home coordinators will terminate use of the self-direction option any time there is substantial evidence of Medicaid fraud or obvious misuse of funds. Involuntary termination can also occur if the case manager or health home coordinator is not able to verify the types of services provided and the outcome of those services. If the member and their representative are both found unable to self-direct, the member will be transitioned to regular waiver services. The member has the right to appeal any adverse action taken by the case manager, or health home coordinator to terminate self-directed services and is subject to the grievance and appeals protections outlined in Appendix F. The case manager or health home coordinator will develop a new service plan and assure alternative services are in place to maintain service.

MCOs may only initiate involuntarily termination of a member’s use of the self-direction option if there is evidence of Medicaid fraud or misuse of funds, or if the MCO determines there is a risk to the member’s health or safety. Under these conditions, MCOs are required to submit a request to HHS for review and approval to involuntarily terminate. Requests must contain sufficient documentation regarding the rationale for termination. Upon HHS approval, MCOs must notify the member and facilitate a seamless transition to traditional waiver services to ensure there are no interruptions or gaps in service delivery.

Appendix E: Participant Direction of Services

E-1: Overview (13 of 13)

n. Goals for Participant Direction. In the following table, provide the state's goals for each year that the waiver is in effect for the unduplicated number of waiver participants who are expected to elect each applicable participant direction opportunity. Annually, the state will report to CMS the number of participants who elect to direct their waiver services.

Table E-1-n

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 1		248
Year 2		250

	Employer Authority Only	Budget Authority Only or Budget Authority in Combination with Employer Authority
Waiver Year	Number of Participants	Number of Participants
Year 3	<input type="text"/>	<input type="text" value="252"/>
Year 4	<input type="text"/>	<input type="text" value="254"/>
Year 5	<input type="text"/>	<input type="text" value="256"/>

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant Direction (1 of 6)

a. Participant - Employer Authority Complete when the waiver offers the employer authority opportunity as indicated in Item E-1-b:

i. Participant Employer Status. Specify the participant's employer status under the waiver. *Select one or both:*

Participant/Co-Employer. The participant (or the participant's representative) functions as the co-employer (managing employer) of workers who provide waiver services. An agency is the common law employer of participant-selected/recruited staff and performs necessary payroll and human resources functions. Supports are available to assist the participant in conducting employer-related functions.

Specify the types of agencies (a.k.a., agencies with choice) that serve as co-employers of participant-selected staff:

Participant/Common Law Employer. The participant (or the participant's representative) is the common law employer of workers who provide waiver services. An IRS-approved Fiscal/Employer Agent functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law. Supports are available to assist the participant in conducting employer-related functions.

ii. Participant Decision Making Authority. The participant (or the participant's representative) has decision making authority over workers who provide waiver services. *Select one or more decision making authorities that participants exercise:*

- Recruit staff**
- Refer staff to agency for hiring (co-employer)**
- Select staff from worker registry**
- Hire staff common law employer**
- Verify staff qualifications**
- Obtain criminal history and/or background investigation of staff**

Specify how the costs of such investigations are compensated:

Pursuant to Iowa Code 249A.29 and Iowa Code 135C. 33(5)(a)(1) and (5)(a)(3), all providers of HCBS waiver services must complete child abuse, dependent adult abuse and criminal background screenings before employment of a prospective staff member who will provide care for a member. The State pays for the first background check of workers who provide waiver services to fee-for-service members. If a second background check is completed, it is the responsibility of the employee to pay for the background check. MCOs are responsible for the costs of investigations of workers who provide waiver services to members.

Specify additional staff qualifications based on participant needs and preferences so long as such

qualifications are consistent with the qualifications specified in Appendix C-1/C-3.

Specify the state's method to conduct background checks if it varies from Appendix C-2-a:

Same as C-2-a above.

Determine staff duties consistent with the service specifications in Appendix C-1/C-3.

Determine staff wages and benefits subject to state limits

Schedule staff

Orient and instruct staff in duties

Supervise staff

Evaluate staff performance

Verify time worked by staff and approve time sheets

Discharge staff (common law employer)

Discharge staff from providing services (co-employer)

Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (2 of 6)

b. Participant - Budget Authority *Complete when the waiver offers the budget authority opportunity as indicated in Item E-1-b:*

i. Participant Decision Making Authority. When the participant has budget authority, indicate the decision-making authority that the participant may exercise over the budget. *Select one or more:*

Reallocate funds among services included in the budget

Determine the amount paid for services within the state's established limits

Substitute service providers

Schedule the provision of services

Specify additional service provider qualifications consistent with the qualifications specified in Appendix C-1/C-3

Specify how services are provided, consistent with the service specifications contained in Appendix C-1/C-3

Identify service providers and refer for provider enrollment

Authorize payment for waiver goods and services

Review and approve provider invoices for services rendered

Other

Specify:

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (3 of 6)

b. Participant - Budget Authority

- ii. **Participant-Directed Budget** Describe in detail the method(s) that are used to establish the amount of the participant-directed budget for waiver goods and services over which the participant has authority, including how the method makes use of reliable cost estimating information and is applied consistently to each participant. Information about these method(s) must be made publicly available.

Under the traditional service model for the waiver, the member chooses a service provider from a list of providers who are enrolled with Iowa Medicaid. The case manager or health home coordinator and member work together to detail the tasks and goals for the provider. After service provision, the provider submits a claim to the Iowa Medicaid where the claim is adjudicated in accordance with Iowa Medicaid protocols.

Under the self-direction option, a member is not limited to the providers who have enrolled with Iowa Medicaid. The member is considered the employer and can choose any individual that they feel is qualified to provide the needed service. Members create support plans, make provider and service choices, select and employ staff, and monitor the quality of support services. MCOs are responsible for assisting the member with quality assurance activities and monitoring the quality of services provided. MCO plans to accomplish this contractual requirement are subject to HHS review and approval. Members determine the wages to be paid to the provider and the units of service (limited by the self-direction budget). Interviewing, hiring, scheduling, and firing is done by the member. Claims are submitted to the FMS for processing for payment.

Each member who chooses to self-direct their services will continue to have a traditional service plan developed that is based on the level of care assessment and need of the member. If a member has a need for the services that can be included in the individual budget and they choose to self-direct one or all of those services, then the individual budget amount is determined by the amount of service that was authorized for those services under the traditional service plan. The level of need is determined by the level of care determination made by Iowa Medicaid QIO MSU; the supports needed and the amount of supports needed are determined by a review of the assessment made by the case manager, CBCM, or health home coordinator prior to the member selecting the self-direction option. Members who reside in an assisted living facility may also choose to self-direct some of their services. Specifically, the member can choose to self-direct services not provided by the facility (i.e., vehicle modification) or can choose another provider for services that are optional from the facility (i.e., meals or housekeeping).

Historically, members do not use 100% of their authorized waiver services. To ensure that the State or MCO does not spend more than what is historically spent for traditional waiver services, each service authorized under self-direction will have a utilization adjustment factor applied to it. This utilization adjustment factor is determined by an analysis of what percentage of authorized services has historically been used for each service on an aggregate by all members enrolled in that particular waiver who have accessed that particular service. The utilization factor is not based upon individual member usage, but on historical percentage usage of authorized services by all members enrolled in the waiver who have accessed that particular service. A member new to the waiver or new to self-direction would have the same utilization factor applied as all other waiver members who are self-directing services. The utilization adjustment factor will be analyzed, at a minimum, every 12 months and adjusted as needed based historical use. This method will be used for all waiver members choosing the self-direction option. Members are notified of the budget methodology and limits at the time they receive the CCO Booklet, during their service plan is development and by the Independent Support Broker hired to assist the individual to develop the budget. The individual budget methodology is stated in the 441 Iowa Administrative Code Chapter 78.41(15). In addition, this information is shared during all outreach and training held throughout the State for members, families, and other advocates. The MCOs are also responsible for making the budget methodology available to members through their case managers and member communication materials.

The following is an example of how an individual budget is determined:

A member has a need for a particular service. On their traditional service plan they are authorized 10 units of service at \$20 a unit. That member decides that they would like to self-direct their services. The amount authorized is \$200 in the traditional service plan. A utilization adjustment factor of 80% is applied. The member's individual budget amount then becomes \$160 ($\$200 \times 80\%$). The 20% reduction (100% authorization minus 80% actual utilization for a service) is applied to allow for cost neutrality between the service under the traditional waiver plan and self-direction. If the average service utilization is only 80% of an authorized service under the traditional waiver, then a self-directed member is limited to that same 80% to preserve cost neutrality. The total monthly cost of all services (traditional and self-directed services) cannot exceed the established aggregate monthly cost of the traditional services authorized.

Members enrolled in the Elderly waiver have access to Iowa's Medicaid Exception to Policy option. ETPs can be requested to Iowa Administrative Code (IAC) rules but cannot be requested for Federal requirements or state law.

Members needing additional Respite services in order to ensure health, safety, or other issues can request ETPs. The request must substantiate the exceptional need and also address why no other Medicaid or waiver service can address the issue. Decisions regarding ETP requests are approved by the Department of Health and Human Services director.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (4 of 6)

b. Participant - Budget Authority

- iii. Informing Participant of Budget Amount.** Describe how the state informs each participant of the amount of the participant-directed budget and the procedures by which the participant may request an adjustment in the budget amount.

Members, regardless of delivery system (i.e., FFS and MCO) will be informed of their budget amount during the development of the service plan. The member can then make a final decision as to whether they want the self-direction option. If a member needs an adjustment to the budget, the member can request a review of the service plan.

As noted above, if there is a need that goes beyond the budget amount and/or the waiver service limit, the member has the right to request an exception to policy. In addition, any member has the right to appeal any decision. The member is afforded the opportunity to request a fair hearing when the budget adjustment is denied or the amount of budget is reduced as described in F-1.

MCO enrollees have the right to a State Fair Hearing after exhausting the MCO appeals process. It is the responsibility of the case manager, integrated health care coordinator, or community-based case manager to inform the member of the budget amount allowed for services before the service plan is completed.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (5 of 6)

b. Participant - Budget Authority

- iv. Participant Exercise of Budget Flexibility.** *Select one:*

Modifications to the participant directed budget must be preceded by a change in the service plan.

The participant has the authority to modify the services included in the participant directed budget without prior approval.

Specify how changes in the participant-directed budget are documented, including updating the service plan. When prior review of changes is required in certain circumstances, describe the circumstances and specify the entity that reviews the proposed change:

For both fee-for-service and MCO members, once the monthly budget amount has been established, the member will develop a detailed monthly budget that identifies the goods and services that will be purchased and the employees that will be hired to meet the assessed needs of the member. This budget amount is the same amount whether the member utilizes only traditional waiver services, utilizes only self-directed services, or uses a combination of traditional and self-directed services. All services under the waiver add into the one budget and that budget maximum is determined by the member's level of care and not by the type of services accessed by the member.

Once the monthly budget amount has been established, the member will develop a detailed monthly budget that identifies the goods and services that will be purchased and the employees that will be hired to meet the assessed needs of the member. The budget is sent to the FMS to identify what goods and services are approved for purchase and the employees that will be submitting timecards to the FMS for payment. The member can modify services and adjust dollar amounts among line items in the individual budget without changing the service plan as long as it does not exceed the authorized budget amount. They must submit a new budget to the FMS that identifies the changes. The FMS must receive all modifications to the individual budget within the month when the changes occur and will monitor the new budget to assure the changes do not exceed the authorized budget amount. The Individual Support Broker and the FMS will both monitor to assure expenses are allowable expenses.

Appendix E: Participant Direction of Services

E-2: Opportunities for Participant-Direction (6 of 6)

b. Participant - Budget Authority

- v. **Expenditure Safeguards.** Describe the safeguards that have been established for the timely prevention of the premature depletion of the participant-directed budget or to address potential service delivery problems that may be associated with budget underutilization and the entity (or entities) responsible for implementing these safeguards:

Self-direction budgets are authorized monthly. Members, regardless of delivery system (i.e., FFS members and MCO members), can make adjustments at any time within the authorized amount if services are not meeting their needs, and the ISB via the FFS or MCO delivery system is available to provide assistance. The ISB also routinely monitors expenses. The FMS also monitors the budget and notifies the ISB and the member immediately if claims are inconsistent with the budgeted amount or if the budget is consistently underutilized. When members chose self-direction, they sign a consent form that explains their rights and responsibilities, including consequences for authorizing payments over the authorized budget amount.

The following safeguards are in place to prevent premature depletion of participant's budget:

- Case manager and member or legal representative work together to create a service plan addressing person centered needs.
- Member selects services to be self-directed. This information is included in the service plan.
- Case manager authorized those services in the service plan.
- Member or legal representative signs service plan to indicate agreement with the plan.
- Case manager identifies CCO budget amount and provides the amount to the member or legal representative and Independent support broker (ISB).
- Member and the chosen ISB complete the CCO budget on the budget sheet , form 470-4431.
- Member or legal representative signs the budget sheet to indicate understanding and agreement.
- Budget sheet is forwarded to the FMS prior to the month of service identified on the budget.
- FMS staffs a call center to respond timely to member, legal representative and ISB questions about processes and remaining budget balances.
- The amount included on the budget form cannot exceed the authorized budget amount.
