

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: Nursing Facility, ICF/IID

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (1 of 9)

- a. Number Of Unduplicated Participants Served.** Enter the total number of unduplicated participants from Item B-3-a who will be served each year that the waiver is in operation. When the waiver serves individuals under more than one level of care, specify the number of unduplicated participants for each level of care:

Table: J-2-a: Unduplicated Participants

Waiver Year	Total Unduplicated Number of Participants (from Item B-3-a)	Distribution of Unduplicated Participants by Level of Care (if applicable)	
		Level of Care:	Level of Care:
		Nursing Facility	ICF/IID
Year 1	3619	3416	203
Year 2	3619	3416	203
Year 3	3619	3416	203
Year 4	3619	3416	203
Year 5	3619	3416	203

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

- b. Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

The average length of stay (ALOS) is expected to remain the same throughout the five years of the waiver. The ALOS days were based on historical data supporting the HD waiver for the period from 11/01/19 – 10/31/21. This data will be the basis for the HD waiver 372 reports to be submitted in April 2022 and April 2023.

The CMS 372 reports used to develop and report ALOS are from November 1, 2019 – October 31, 2021.

Unduplicated participants are trended based on historical participant levels. Variances between the previous renewal and the current renewal application are due to the lack of managed care experience at the time the renewal application was submitted. While unduplicated participants in the prior HD waiver renewal were based on actuarial assumptions provided by the State's actuary, unduplicated participants in the current HD waiver renewal are based on actual experience.

The total unduplicated number of participants remained even over the five years based on historical trends (historical data was based on 372 report data for the two-year period from 11/01/19 through 10/31/21 and current waiver performance data at the time of the renewal submission) including maximum waiver caps approved by CMS. The number of unduplicated participants reflects the managed care program's incentive to move individuals from the institutional setting to the HCBS waiver community setting.

Limitation on the Number of Participants Served at any Point in Time remains constant each year based on historical growth and average monthly costs per recipient on the waiver.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. Derivation of Estimates for Each Factor. Provide a narrative description for the derivation of the estimates of the following factors.

i. Factor D Derivation. The estimates of Factor D for each waiver year are located in Item J-2-d. The basis and methodology for these estimates is as follows:

Factor D is impacted by the transition from a fee-for-service program to a managed care capitation rate program. In the prior waiver period, Factor D was adjusted due to the transition to managed care. In this submission, the post-managed care values were increased by 3.5% each waiver year. Factor D projections were based on actual historical data experience. The prior HD waiver renewal was based on actuarial assumptions with limited managed care experience. The 3.5% annual increase over the 5-year renewal period is trended based on CPI for All Urban Consumers (CPI-U) Index for the period of 10/1/18 - 03/31/22

The basis of the estimates for Factor D and specifically, the number of users, average units, and average cost per unit for Waiver Year (WY) 1 is the average 372-report data for the two-year period from 11/01/19 through 10/31/21. Specifically, the number of users, average units, and average cost per unit were trended based on the historical actual data reported in the 372 reports submitted to CMS. The 11/01/19 through 10/31/21 period was selected to be certain a reasonable level of managed care experience (transition in 2016) was incorporated into the trends.

The calculations of Factor D (number of users and average cost per unit for waiver year's 2 through 5 was trended based on a combination of waiver year 1 data (based on 372 report data). Average units per user over the 5-year renewal remain static from the last renewal based on the trending of number of users and average cost per unit. The number of users were trended based on historical user counts for the period of 11/01/19 through 10/31/21

The new participants are not expected to change the characteristics (risk profile) of the population. The underlying capitation rates reflect the risk profile of those qualifying for the HCBS waiver, which are reflected in Factor D and Factor D'. The increase in the waiver program reflects the managed care program's incentive to move individuals from the institutional setting to the HCBS waiver community setting.

ii. Factor D' Derivation. The estimates of Factor D' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D' is impacted by the transition from a fee-for-service program to a managed care capitation rate program. In the prior waiver period, Factor D' was adjusted due to the transition to managed care. In this submission, the post-managed care values were increased by 3.5% each waiver year. Factor D' projections were based on actual historical data experience. The 3.5% annual increase over the 5-year renewal period is trended based on CPI for All Urban Consumers (CPI-U) Index for the period of 10/1/18 - 03/31/22.

The basis of the estimates for Factor D' and specifically, the number of users, average units, and average cost per unit for Waiver Year (WY) 1 is the 372-report data for the two-year period from 11/01/19 through 10/31/21. Specifically, the number of users, average units, and average cost per unit were trended based on the historical actual data reported in the 372 reports submitted to CMS. The 11/01/19 through 10/31/21 period was selected to be certain a reasonable level of managed care experience (transition in 2016) was incorporated into the trends.

The calculations of Factor D' (number of users and average cost per unit for waiver year's 2 through 5 was trended based on a combination of waiver year 1 data (based on 372 report data). Average units per user over the 5-year renewal remain static from the last renewal based on the trending of number of users and average cost per unit. The number of users were trended based on historical user counts for the period of 11/01/19 through 10/31/21.

The new participants are not expected to change the characteristics (risk profile) of the population. The underlying capitation rates reflect the risk profile of those qualifying for the HCBS waiver, which are reflected in Factor D and Factor D'. The increase in the waiver program reflects the managed care program's incentive to move individuals from the institutional setting to the HCBS waiver community setting.

- iii. Factor G Derivation.** The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

In the prior waiver renewal period, Factor G was adjusted due to the transition to managed care.

In the current waiver renewal period, Factor G is based on the estimated annual average per capita Medicaid cost for hospital, NF, or ICF>ID care that would be incurred for individuals served in the waiver, were the waiver not granted.

For waiver year (WY) 1, estimates are based on the institutional Medicaid costs for persons receiving institutional care for SFY21 (07/01/20 - 06/30/21) for the specific level(s) of care (NF, SNF) specified in the HD waiver. The 3.5% annual increase over WY's 2-5 renewal period is trended based on CPI for All Urban Consumers (CPI-U) Index for the period of 10/1/18 - 03/31/22.

- iv. Factor G' Derivation.** The estimates of Factor G' for each waiver year are included in Item J-1. The basis of these estimates is as follows:

In the prior waiver renewal period, Factor G' was adjusted Due to the transition to managed care.

In the current waiver renewal period, Factor G' is based on the estimated annual average per capita Medicaid costs for all services other than those included in factor G for individuals served in the waiver, were the waiver not granted.

For waiver year (WY) 1, estimates are based on the non-institutional Medicaid costs for persons receiving institutional care for SFY21 (07/01/20 - 06/30/21) for the specific level(s) of care (NF, SNF) specified in the HD waiver. The 3.5% annual increase over WY's 2-5 renewal period is trended based on CPI for All Urban Consumers (CPI-U) Index for the period of 10/1/18 - 03/31/22.

d. Estimate of Factor D.

- ii. **Concurrent §1915(b)/§1915(c) Waivers, or other authorities utilizing capitated arrangements (i.e., 1915(a), 1932(a), Section 1937).** Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

d. Estimate of Factor D.

ii. Concurrent §1915(b)/§1915(c) Waivers, or other concurrent managed care authorities utilizing capitated payment arrangements. Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (7 of 9)

d. Estimate of Factor D.

ii. Concurrent §1915(b)/§1915(c) Waivers, or other concurrent managed care authorities utilizing capitated payment arrangements. Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.

J-2: Derivation of Estimates (8 of 9)

d. Estimate of Factor D.

ii. Concurrent §1915(b)/§1915(c) Waivers, or other concurrent managed care authorities utilizing capitated payment arrangements. Complete the following table for each waiver year. Enter data into the Unit, # Users, Avg. Units Per User, and Avg. Cost/Unit fields for all the Waiver Service/Component items. If applicable, check the capitation box next to that service. Select Save and Calculate to automatically calculate and populate the Component Costs and Total Costs fields. All fields in this table must be completed in order to populate the Factor D fields in the J-1 Composite Overview table.
