### Descriptive Narrative

This service provides supervision and support of children (aged 0-18) residing in their family home who, because of their complex medical or complex behavioral needs, require specialized exceptional care that cannot be served in traditional childcare settings. The need for the service must be medically necessary and verified in writing by the child’s healthcare professional and documented in the child’s service plan.

Specialized exceptional care means that the child has complex medical or behavioral health needs that require intensive assistance for monitoring and intervention.

### Criteria

Waiver prior authorization is required.

### Initial Services

For initial services **ALL** the following must be met:

1. The child is younger than 18 years of age and eligible for the Home and Community-Bases Services (HCBS) Brain Injury (BI), Children’s Mental Health (CMH), Health and Disability (HD), or Intellectual Disability (ID)waiver; **AND**
2. The service is medically necessary and verified in writing by the child’s healthcare professional and documented in the child’s service plan; **AND**
3. Documentation in the service plan confirms that State Plan Medical Child Care services and Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services have been exhausted or are not available to the child; **AND**
4. Documentation in the service plan confirms that there is no other HCBS or State Plan services to meet the need; **AND**
5. The child has care needs exceeding the range of activities that a legally responsible individual would ordinarily perform in the household on behalf of a person without a disability or chronic illness of the same age, and which are necessary to assure the health and welfare of the child and avoid institutionalization; **AND**
6. The child has emotional or behavioral needs such as hyperactivity; chronic depression or withdrawal; bizarre or severely disturbed behavior; significant acting out behaviors;

or the child otherwise demonstrates the need for intense supervision or care to ensure the safety of the child and those around him/her; **OR**

7. The child has medical needs, such as ostomy care or catheterization; tube feeding or supervision during feeding to prevent complications such as choking, aspiration or excess intake; monitoring of seizure activity, frequent care to prevent or remedy serious conditions such as pressure sores; suctioning; assistance in transferring and positioning throughout the day; assistance with multiple personal care needs including dressing, bathing, and toileting; complex medical treatment throughout the day; **OR**
8. The child has a complex and unstable medical condition that requires constant and direct supervision.

### Limitations

1. This service is limited to medically fragile children and children with complex behavioral health needs and may not be used to provide services that are the responsibility of the parent or guardian; **AND**
2. The services are provided outside periods when the child is in school; **AND**
3. Specialized childcare services shall not be simultaneously reimbursed with other residential or respite services, HCBS BI or ID waiver Supported Community Living (SCL) services, EPSDT, HCBS nursing, or Medicaid or HCBS home health aide services; **AND**
4. The services under Medical Day Care for Children are limited to additional services not otherwise covered under the state plan, including CMH and EPSDT, but consistent with waiver objectives of avoiding institutionalization; **AND**
5. The cost of Medical Day Care for Children may not exceed \$9.67 per 15-minute unit, not to exceed the daily limit of \$340.15 per day.

### Exclusions

The following do not support Medical Day Care for Children and cannot be approved:

1. Activities that a legally responsible individual would ordinarily perform in the household on behalf of a person without a disability or chronic illness of the same age.
2. Supplanting a legally responsible individual's financial responsibility to provide for childcare on behalf of a person without a disability or chronic illness of the same age.

### Continued Services

For continued services **ALL** the following must be met:

1. The child is younger than 18 years of age and eligible for the HCBS BI, CMH, HD, or ID waiver; **AND**
2. The service is medically necessary and verified in writing by the child's healthcare professional and documented in the child's service plan; **AND**
3. The child has care needs exceeding the range of activities that a legally responsible individual would ordinarily perform in the household on behalf of a person without a

disability or chronic illness of the same age, and which are necessary to assure the health and welfare of the child and avoid institutionalization; **AND**

4. The child has emotional or behavioral needs such as hyperactivity; chronic depression or withdrawal; bizarre or severely disturbed behavior; significant acting out behaviors; or the child otherwise demonstrates the need for intense supervision or care to ensure the safety of the child and those around him/her; **OR**
5. The child has medical needs, such as ostomy care or catheterization; tube feeding or supervision during feeding to prevent complications such as choking, aspiration or excess intake; monitoring of seizure activity, frequent care to prevent or remedy serious conditions such as pressure sores; suctioning; assistance in transferring and positioning throughout the day; assistance with multiple personal care needs including dressing, bathing, and toileting; complex medical treatment throughout the day; **OR**
6. The child has a complex and unstable medical condition that requires constant and direct supervision.

## Coding

NA

## Compliance

1. Should conflict exist between this policy and applicable statute, the applicable statute shall supersede.
2. Federal and State law, as well as contract language, including definitions and specific contract provisions or exclusions, take precedence over medical policy and must be considered first in determining eligibility for coverage.
3. Medical technology is constantly evolving, and Iowa Medicaid reserves the right to review and update medical policy on an annual and as-needed basis.

Medical necessity guidelines have been developed for determining coverage for member benefits and are published to provide a better understanding of the basis upon which coverage decisions are made. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. Criteria are revised and updated annually, or more frequently if new evidence becomes available that suggests needed revisions.
