

What other topics would you like to see as a training module?

outreach ideas

more in depth module for an ebl inspector and renovator

the enforcement of codes/laws

HHLPPS correct data entry

Ideas for engaging with healthcare providers to increase / improve BLOOD lead screening

How to integrate blood lead testing/screening in Title V programs; How to perform a blood lead test using the Lead Care II machine; How can we reach out to medical providers to promote/encourage more frequent testing of kids

HHLPPS data entry process

Legal best practices for developing ordinances and enforceable procedures

How to get lead testing at WIC offices that aren't affiliated with title v programs.

What other topics would you like to see as a training module?

HHLPPS data entry to make sure it is captured for performance measures

help with educating parents and providers about importance of testing more often- when child lives in or visits pre1978 home

Everything is easy up until the EBL inspection is completed! After the inspection, tips and strategies on how to get the work done. Many barriers at this stage of the game.

Enforcement of laws towards non-compliant homeowners

5

How can we improve the online trainings?

no suggestion.

Short is nice

Use multiple instructors, SME for their areas.

short is good

I'd like to see trainings on the correct ways to data enter into hhlpps.

Offer nursing CEUs - motivation for nurses in clinics to also do the trainings

How can you use your county lead report card?

On educational display board

Show to providers to possibly increase testing

Our website, BoH, any and all partner conversations.

Share with clinic managers, WIC offices, county Boards of Health, etc.

Share with the board of health, schools, and medical providers. Use the data to target specific age groups and community partners to focus on areas that may be lacking.

When doing outreach with providers.

Is there a way to figure out where the majority of lead tests are coming from? That way we could potentially focus education to specific providers...

Share with community partners involved in a community lead project

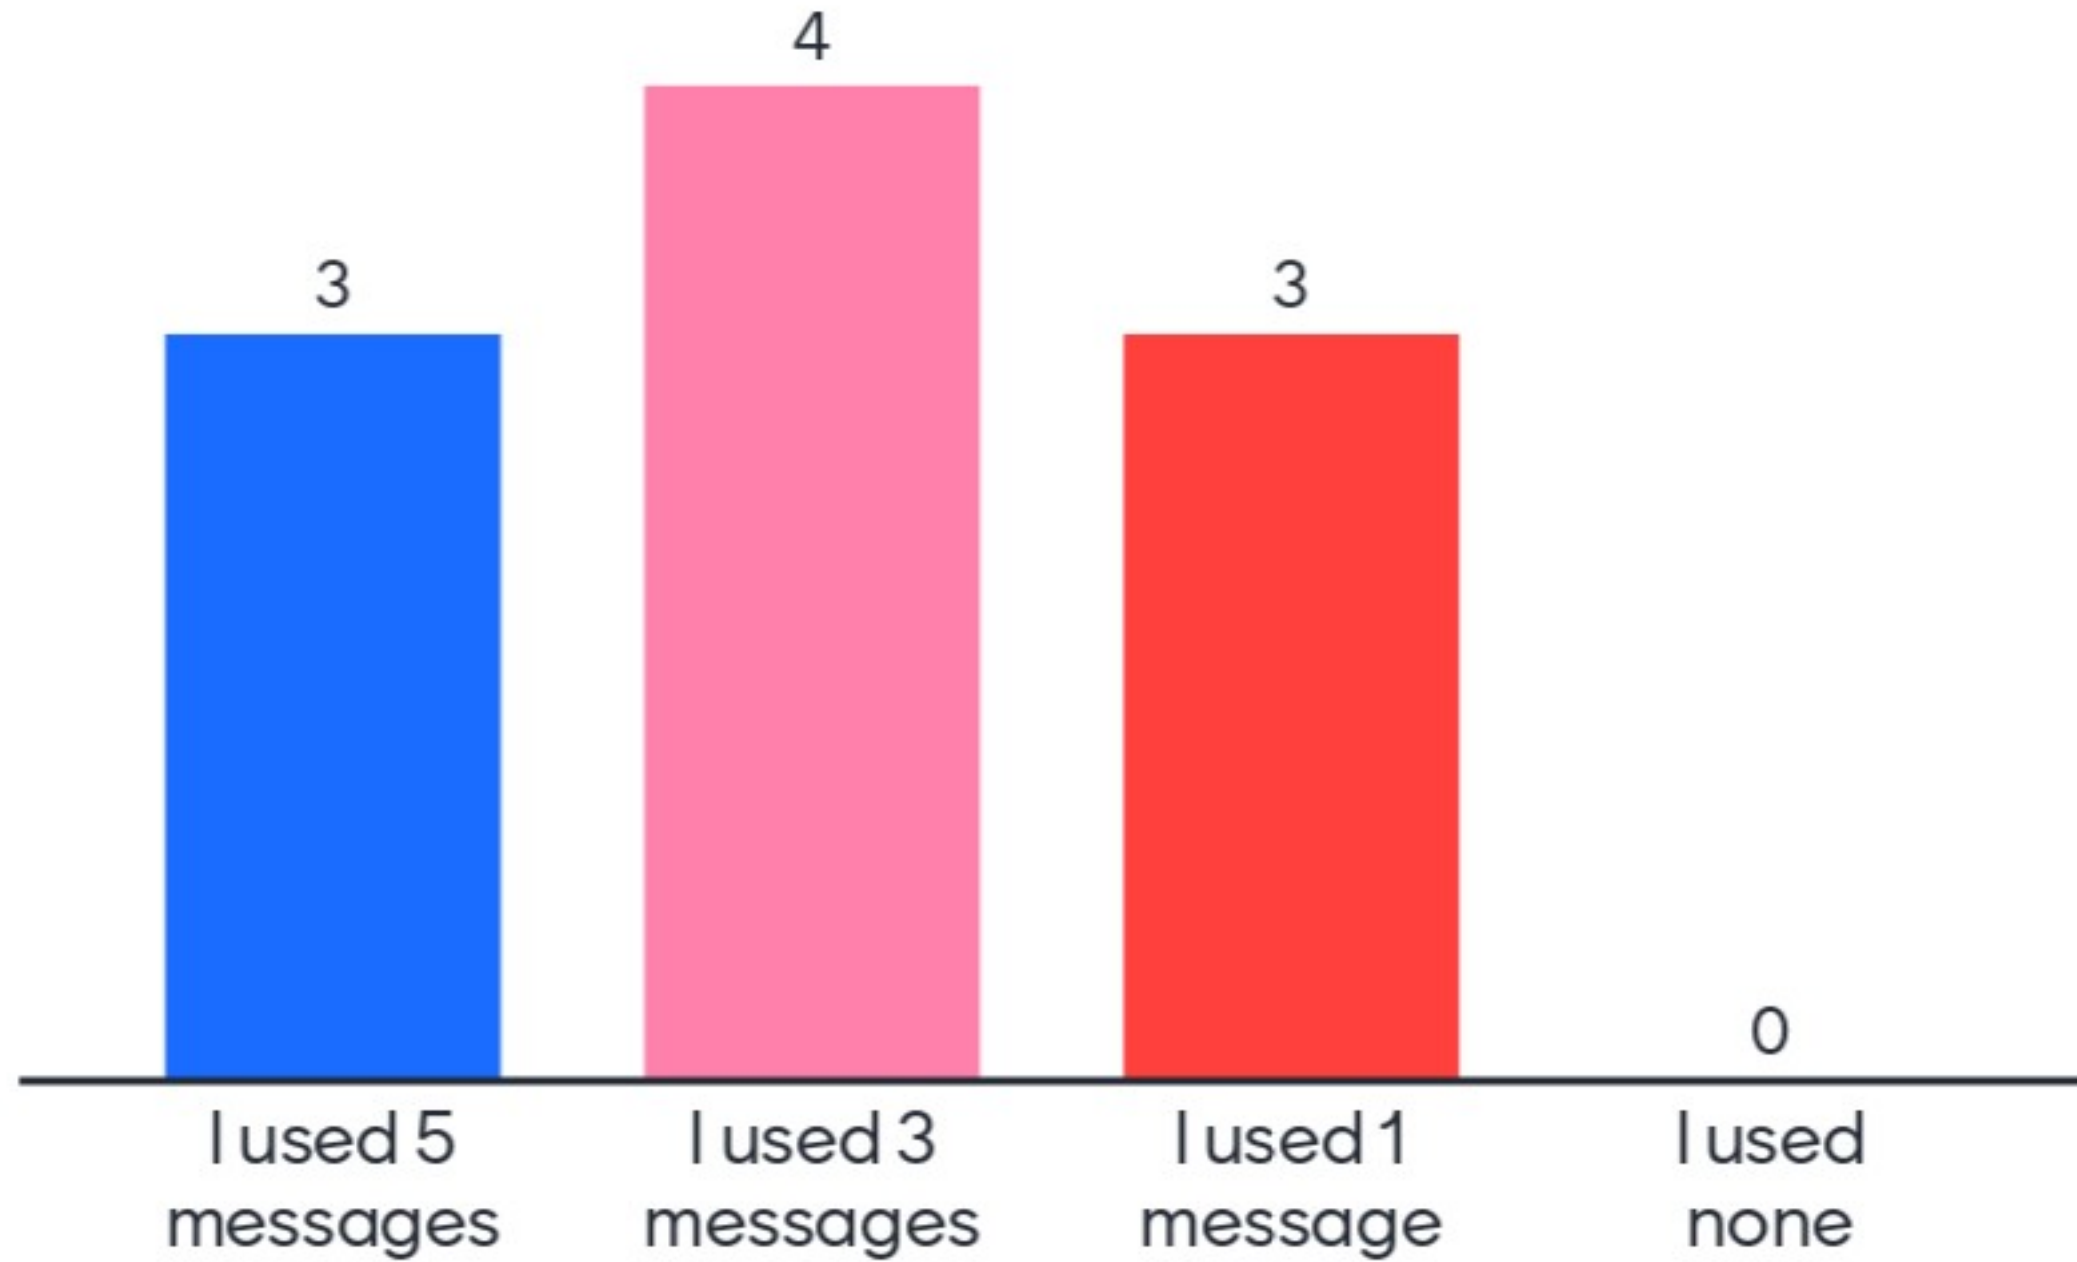

What other data points would you like to see on next years Iowa Lead Report Cards?

The percentage of 1-3 year olds and under 6.

Not sure if this is possible, but something to show savings related to prevention vs. treatment/intervention costs related to services provided for EBL

the report card idea is a great one

How many messages did you use last year?

What activities are you planning for lead awareness week this year?

haven't thought about it yet

Not sure

Radio psa and talk show

social media posts; share report cards with medical providers

Going to try to use more of the Facebook posts

No real activities, but we are planning a small informational campaign.

Social media posts

Share social media posts on our PH office FB page, ask medical clinics to also utilize FB posts, share report cards with providers

What media will you use in reaching your intended audience during lead awareness week?

county web site

How will you measure your success during lead awareness week?

Social listening and fb analytics

Facebook analytics

likes on facebook
